# Current Employment Statistics Survey Summary, February 2014

#### Education and health services + 33,000

Offices of physicians added 8,000 jobs in February, while employment changed little elsewhere in health care. Hospital employment (-1,000), little changed over the month, has declined by 10,000 over the past 3 months.

#### Information - 16,000

Employment can be volatile in the motion picture and sound recording industry, which lost 14,000 jobs in February.

#### Retail Trade - 4,000

Employment in retail trade changed little in February (-4,000). Over the month, a job gain in food and beverage stores (+12,000) was more than offset by job losses in electronics and appliance stores (-12,000), sporting goods, hobby, book, and music stores (-9,000), and department stores (-7,000).

#### Transportation and warehousing - 4,000

Within transportation and warehousing, a job gain in warehousing and storage (+6,000) was more than offset by a job loss in couriers and messengers (-12,000).

#### Government +13,000

Federal government employment continued to trend down (-6,000) in February. Since reaching an employment peak in January 2011, the federal government has lost 157,000 jobs— 59 percent of those losses have come in the past 12 months. Employment in State government continued to trend up (+11,000) in February and has grown by 51,000 since reaching a trough in July 2013. Employment in local government changed little in February.

# Manufacturing

Employment in manufacturing changed little (+6,000) in February. Over the past 7 months, the industry has added 83,000 jobs.

The recent modest job growth corresponds to similar movements within manufacturing indicators. The <u>Institute for Supply Management</u> reported that the Purchasing Managers' Index rose 1.9 percentage points to 53.2 percent in February.

In February, the manufacturing workweek for all employees remained at the same level as January (40.7 hours). The manufacturing workweek for production employees has fallen by 0.6 hour over the past 3 months.

# **Retail Trade**

Retail trade employment was essentially flat in February. Among the retail industries, employment changes were mixed, with significant movements in food and beverage stores (+12,000), electronics and appliance stores (-12,000), and sporting goods, hobby, book, and music stores (-9,000).

Recent retail-related indicators have weakened. As shown by <u>Census Bureau</u> data, retail sales for January decreased by 0.4 percent; however, sales were up 2.6 percent over the year. Additionally, the <u>Conference</u> <u>Board</u> noted that the Consumer Confidence Index decreased by 1.3 points in February.

#### NAICS 445 - Food and beverage stores

In February, food and beverage stores employment increased by 12,000, with a job gain of 84,000 over the past year. This industry has been one of the strongest within all of retail trade.

#### Holiday-related employment lay-off

February is traditionally the final month in the holiday lay-off period for retail trade. On a not seasonally adjusted basis, the total lay-off as a percentage of the total build-up was in line with the prior 3 years.

#### NAICS 443 – Electronics and appliance stores

In February, electronics and appliance stores employment decreased by 12,000, offsetting job gains in the prior 4 months. Employment in the industry is little changed over the past 6 months.

#### NAICS 451 – Sporting goods, hobby, book, and music stores

Employment in sporting goods, hobby, book, and music stores declined by 9,000 in February, following a 21,000 job decline in January. Employment is little changed over the year. The majority of the February's job decline occurred in hobby, toy, and game stores.

### **Professional and Business Services**

In February, professional and technical services added 35,000 jobs. The largest portions of the employment gain occurred in accounting and bookkeeping services, which added 16,000 jobs—partially offsetting a decline of 31,000 in December 2013. Job gains were small and widespread among most of the professional and technical services component industries in February.

Management of companies and enterprises continued in its upward employment trend in February. Over the year, the industry has added 39,000 jobs.

Employment in administrative and waste services increased by 42,000 in February. Nearly all of the gains were in administrative and support services, which added 40,000 jobs. Employment continued to trend up in temporary help service (+24,000) and services to buildings and dwelling places (+11,000). Waste management and remediation services employment remained flat.

Summary

### **Private Education and Health Services**

In February, education and health services employment edged up (+33,000). The majority of the gain occurred in colleges and universities. Health care employment changed little over the month (+10,000), and growth has slowed in the past 3 months.

#### NAICS 621 – Ambulatory health care services

Employment in ambulatory health care services continued its upward trend in February, with the largest over-the-month gain occurring in offices of physicians (+8,000). Over the year, 167,000 of the 191,000 jobs added in health care have been in ambulatory health care services. Within ambulatory health care services, offices of physicians, outpatient care centers, and home health care services have each expanded employment over the same 12-month period; however, growth has decelerated over the last 3 months in oupatient centers and in home health care.

#### NAICS 622 – Hospitals

Hospital employment changed little in February, but is down by 10,000 over the last 3 months.
