

Women in the labor force: a databook

April 2017 | Report 1065

Over the past 70 years, women’s participation in labor force activities has greatly expanded. Immediately following World War II, less than one-third of women were in the labor force. However, women soon began to participate in greater numbers, and their labor force participation rose rapidly from the 1960s through the 1980s before slowing in the 1990s. Women reached the peak of their labor force participation in 1999, with a rate of 60.0 percent. Since then, labor force participation among women has declined, to 56.7 percent in 2015. In addition, a large share of women work full time and year-round. Over time, women have increasingly attained higher levels of education: among women ages 25 to 64 who are in the labor force, the proportion with a college degree more than tripled from 1970 to 2015, increasing from 11 percent to 41 percent. Women’s earnings as a proportion of men’s earnings also have grown over time. In 1979, women working full time earned 62 percent of what men earned; in 2015, women’s earnings were 81 percent of men’s. This report presents historical and recent labor force and earnings data for women and men from the Current Population Survey (CPS), a national monthly survey of approximately 60,000 households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Unless otherwise noted, data are annual averages from the CPS. (For a detailed description of the source of the data and an explanation of concepts and definitions used, see the technical notes at the end of this report.)

Over the past 70 years, women’s participation in labor force activities has greatly expanded. Immediately following World War II, less than one-third of women were in the labor force. However, women soon began to participate in greater numbers, and their labor force participation rose rapidly from the 1960s through the 1980s before slowing in the 1990s. Women reached the peak of their labor force participation in 1999, with a rate of 60.0 percent. Since then, labor force participation among women has declined, to 56.7 percent in 2015. In addition, a large share of women work full time and year-round. Over time, women have increasingly attained higher levels of education: among women ages 25 to 64 who are in the labor force, the proportion with a college degree more than tripled from 1970 to 2015, increasing from 11 percent to 41 percent. Women’s earnings as a proportion of men’s earnings also have grown over time. In 1979, women working full time earned 62 percent of what men earned; in 2015, women’s earnings were 81 percent of men’s. This report presents historical and recent labor force and earnings data for women and men from the Current Population Survey (CPS), a national monthly survey of approximately 60,000 households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Unless otherwise noted, data are annual averages from the CPS. (For a detailed description of the source of the data and an explanation of concepts and definitions used, see the technical notes at the end of this report.)

Selected demographic characteristics

Women’s labor force participation was 56.7 percent in 2015, down from 57.0 percent in 2014. Men’s labor force participation, which always has been much higher than that for women, was little changed at 69.1 percent in 2015. (See table 2.)

In 2015, the unemployment rate for women was 5.2 percent. The rate for men was 5.4 percent. Both figures were 0.9 percentage point lower than in 2014. Women’s jobless rates varied by race and ethnicity. Asian women had the lowest rate (3.7 percent), followed by White (4.5 percent), Hispanic (7.1 percent), and Black (8.9 percent) women. (See tables 2 and 3.)

Labor force participation varies by marital status and differs between women and men. Divorced women had a higher labor force participation rate than married women, 62.7 percent versus 58.1 percent in 2015. By contrast, married men were more likely to participate in the labor force (73.4 percent) than divorced men (65.1 percent). (See table 4.)

Among mothers, the labor force participation rate was higher for those with children 6 to 17 years old than for those with younger children. In March 2015, the rate for women with children 6 to 17 years old was 74.6 percent. The rate for those with children under 6 years old was 63.9 percent, and the rate for women with children under 3 years old was lower, at 61.4 percent. (See table 5; data were collected in the 2015 Annual Social and Economic Supplement to the CPS.)

Unmarried mothers have higher labor force participation rates than married mothers. In March 2015, 75.1 percent of unmarried mothers with children under 18 years old were in the labor force, compared with 67.6 percent of married

mothers with children in the same age range. (See table 6; data were collected in the 2015 Annual Social and Economic Supplement to the CPS.)

The labor force participation rate of all women with children under 18 years of age was 69.9 percent in March 2015, down from 70.8 percent in 2014. (See table 7; data were collected in the Annual Social and Economic Supplement to the CPS.)

Educational attainment

The educational attainment of women ages 25 to 64 in the labor force has risen substantially over the past 45 years. In 2015, 41 percent of this group held a Bachelor's degree and higher, compared with 11 percent in 1970. About 6 percent of women had less than a high school diploma (that is, did not graduate from high school) in 2015, down from 34 percent in 1970. (See table 9A and 9B.)

Occupation and industry

In 2015, women accounted for 52 percent of all workers employed in management, professional, and related occupations, somewhat more than their share of total employment (47 percent). The share of women in specific occupations within this large category varied. For example, 18 percent of software developers, 28 percent of chief executives, and 35 percent of lawyers were women, whereas 89 percent of registered nurses, 81 percent of elementary and middle school teachers, and 60 percent of accountants and auditors were women. (See table 11.)

Asian and White women were more likely to work in higher paying management, professional, and related occupations (50 percent and 44 percent, respectively) in 2015 than were Black (35 percent) and Hispanic (27 percent) women. Meanwhile, Hispanic (32 percent) and Black (28 percent) women were more likely than Asian and White women (20 percent each) to work in lower paying service occupations. (See table 12.)

In 2015, women accounted for more than half of all workers within several industry sectors: financial activities (53 percent), education and health services (75 percent), leisure and hospitality (51 percent), and other services (52 percent). However, women were substantially underrepresented (relative to their share of total employment) in agriculture (25 percent), mining (13 percent), construction (9 percent), manufacturing (29 percent), and transportation and utilities (23 percent). (See table 14.)

Earnings

In 2015, women who worked full time in wage and salary jobs had median usual weekly earnings of \$726, which represented 81 percent of men's median weekly earnings (\$895). Among women, earnings were higher for Asians (\$877) and Whites (\$743) than for Blacks (\$615) and Hispanics (\$566). Women's-to-men's earnings ratios were higher for Blacks and Hispanics (90 percent each) than for Whites (81 percent) and Asians (78 percent). (See table 16; note that the comparisons of earnings in this report are on a broad level and do not control for many factors that may be important in explaining earnings differences.)

In 2015, female full-time wage and salary workers ages 25 and older with only a high school diploma had median usual weekly earnings of \$586, which represented 83 percent of the earnings of women with an associate's degree (\$703) and 55 percent of the earnings of women with a bachelor's degree or higher (\$1,064). (See table 17.)

Median usual weekly earnings of full-time wage and salary workers were the highest in 2015 for female chief executives (\$1,836), pharmacists (\$1,811), and lawyers (\$1,717). (See table 18.)

In 2015, 4 percent of all women paid at an hourly rate had earnings at or below the prevailing federal minimum wage (\$7.25 per hour). Among women 25 years and older who were paid at an hourly rate, 3 percent had earnings at or below the minimum wage, compared with 10 percent of women ages 16 to 24. (See table 20.)

Hours of work

In 2015, 25 percent of employed women usually worked part time—that is, less than 35 hours per week. The percentage of women working part time has not changed much over the past five decades. In comparison, 12 percent of employed men usually worked part time in 2015. This rate has gradually trended up over time, though it has leveled off in recent years. (See table 21.)

Of all women who worked at some point during calendar year 2014, 61 percent worked full time and year round, compared with 41 percent in 1970. The proportion of men who worked full time and year round also rose over the period, from 66 percent in 1970 to 74 percent in 2014. (See table 23; data were collected in the 1971 and 2015 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

Married-couple families

Among married-couple families, 53 percent had earnings from both the wife and the husband in 2014, compared with 44 percent in 1967. Couples in which only the husband worked represented 19 percent of married-couple families in 2014, versus 36 percent in 1967. (See table 24A and 24B; data were collected in the 1968 and 2015 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

In 2014, working wives contributed 36 percent of their families' incomes, up by 9 percentage points from 1970, when wives' earnings accounted for 27 percent of their families' total income. The proportion of wives earning more than their husbands also has grown: in 1987, 18 percent of working wives earned more than their working spouses; in 2014, the proportion was 28 percent. (See tables 25 and 26; data were collected in the 1971, 1988, and 2015 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

The working poor

Among workers who were in the labor force for at least 27 weeks in 2014, more women (5.1 million) than men (4.4 million) lived below the official poverty level. The working-poor rate (the ratio of the working poor to all individuals who were in the labor force for at least 27 weeks) was 7.2 percent for women and 5.5 percent for men. Black and Hispanic women were considerably more likely than White or Asian women to be among the working poor. The working-poor rates for Black and Hispanic women were 14.6 percent and 12.6 percent, respectively, compared with 5.9 percent for White women and 4.6 percent for Asian women. (See table 27; data are from the 2015 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience in the previous calendar year.)

Worker displacement

From January 2013 through December 2015, 3.2 million workers ages 20 and older were displaced from jobs they had held for at least 3 years; women accounted for 44 percent of those displaced. Women were about as likely as men to have found a new job in January 2016: the reemployment rate for women was 64 percent, compared with 67 percent for

men. Among displaced workers, women and men were equally likely to be unemployed in January 2016, at 16 percent. About 20 percent of displaced women had left the labor force in January 2016, compared with 18 percent for men. (See table 28; data are from the January 2016 Displaced Worker Supplement to the CPS.)

Employee tenure

In January 2016, median employee tenure (the point at which half of all workers had more tenure and half had less tenure) for women declined to 4.0 years from 4.5 years in January 2014. For men, median tenure also declined; it was 4.3 years in January 2016, compared with 4.7 years in January 2014. (See table 29; data are from the January 2016 Displaced Worker Supplement to the CPS.)

School enrollment

Of the 3.0 million youth ages 16 to 24 who graduated from high school between January and October 2015, about 2.1 million (69 percent) were enrolled in college in October. For 2015 high school graduates, the college enrollment rate was 73 percent for young women and 66 percent for young men. (See table 30.)

Female college students were more likely to be in the labor force (49.8 percent) than their male counterparts (45.4 percent). Labor force participation rates for female and male high school students were similar to one another (22.5 percent and 20.2 percent, respectively). (See table 31.)

In October 2015, the unemployment rates for youth ages 16 to 24 not enrolled in school who did not have a high school diploma were 22.6 percent for young women and 27.0 percent for young men. In contrast, the jobless rates of young women and men with at least a bachelor's degree were 7.7 percent and 4.5 percent, respectively.

Multiple jobholders and the self-employed

In 2015, 5.3 percent of employed women held more than one job. The rate for men was lower, at 4.5 percent. (See table 32.)

In 2015, 4.9 percent of working women in nonagricultural industries were self-employed, compared with 6.7 percent of their male counterparts. In 2015, 39 percent of the self-employed were women, compared with 27 percent in 1976. (See table 33.)

Foreign born

Foreign-born women were somewhat less likely than native-born women to be in the labor force in 2015 (52.9 percent, compared with 57.4 percent). Foreign-born women had an unemployment rate of 5.6 percent, compared with 5.1 percent for native-born women. Foreign-born men were more likely to be in the labor force (78.2 percent) than native-born men (67.3 percent). (See table 34.)

Union membership

In 2015, 10.6 percent of female wage and salary workers were members of unions, compared with 11.5 percent for their male counterparts. For both men and women, the union membership rate in 2015 was lower than in 1983, but the rate has fallen much more for men over the 1983–2015 period. In 1983, union membership rates were 24.7 percent for men and 14.6 percent for women. (See table 35.)

Veterans

There were 1.2 million female veterans in the labor force in 2015. This represents about 12 percent of the 10.8 million veterans of the U.S. Armed Forces. The unemployment rate for female veterans was 5.4 percent in 2015. (See table 36.)

Women with disabilities

Of the 16.0 million women with disabilities in 2015, 2.7 million, or 16.7 percent, were in the labor force. About half of women with disabilities were age 65 and older; labor force participation among this age group was 5.1 percent, compared with 28.1 percent for those ages 16 to 64. For women with a disability who were age 16 and older, the unemployment rate was 10.8 percent, twice that for women without a disability (5.0 percent). (See table 37.)

Table 2. Employment status of the civilian noninstitutional population, 16 years and older, by gender, 1948–2015 annual averages (Numbers in thousands)

Year	Civilian noninstitutional population	Civilian labor force						Not in labor force
		Total	Percentage of population	Employed		Unemployed		
				Total	Percentage of population	Total	Percentage of labor force	
2012	117,343	82,327	70.2	75,555	64.4	6,771	8.2	35,017
2013	118,555	82,667	69.7	76,353	64.4	6,314	7.6	35,889
2014	119,748	82,882	69.2	77,692	64.9	5,190	6.3	36,865
2015	121,101	83,620	69.1	79,131	65.3	4,490	5.4	37,481

Note: Revisions to population controls and other changes can affect the comparability of labor force levels over time. In recent years, for example, updated population controls have been introduced annually with the release of January data. Information about historical comparability is available online at www.bls.gov/cps/documentation.htm#comp.

With children under 3 years old	661	397	60.1	339	51.3	58	14.7	264
With no children under 18 years old	8,257	4,230	51.2	3,876	46.9	354	8.4	4,027

¹ Includes never-married; married, spouse absent; divorced; separated; and widowed persons.

Note: Children are own children and are sons, daughters, stepchildren, or adopted children. Not included are nieces, nephews, and other related and unrelated children. Details for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race.

Dash indicates no data or data that do not meet publication criteria.

2014	67,287	100.0	9.8	29.1	26.2	35.0
2015	67,853	100.0	9.9	28.4	26.0	35.7

¹ Includes people with a high school diploma or equivalent.

² Includes people with bachelor's, master's, professional, and doctoral degrees.

Note: Data from 1970–1991 are from the March Current Population Survey. The educational attainment categories for these years were based on the number of years of school completed. Data beginning in 1992 are annual averages, and the educational attainment categories are based on the highest diploma or degree received.

Occupation	Total employed	Percent women
Parts salespersons	124	12.4
Retail salespersons	3,346	49.4
Advertising sales agents	200	49.7
Insurance sales agents	615	51.2
Securities, commodities, and financial services sales agents	258	26.2
Travel agents	89	75.9
Sales representatives, services, all other	479	34.8
Sales representatives, wholesale and manufacturing	1,281	27.9
Models, demonstrators, and product promoters	68	70.7
Real estate brokers and sales agents	906	55.5
Sales engineers	42	–
Telemarketers	60	64.3
Door-to-door sales workers, news and street vendors, and related workers	156	67.0
Sales and related workers, all others	236	46.8
Office and administrative support occupations	17,897	72.2
First-line supervisors of office and administrative support workers	1,474	68.3
Switchboard operators, including answering service	16	–
Telephone operators	34	–
Communications equipment operators, all other	5	–
Bill and account collectors	168	68.3
Billing and posting clerks	473	90.1
Bookkeeping, accounting, and auditing clerks	1,182	89.8
Gaming cage workers	14	–
Payroll and timekeeping clerks	138	89.3
Procurement clerks	40	–
Tellers	357	87.3
Financial clerks, all other	69	63.3
Brokerage clerks	3	–
Correspondence clerks	3	–
Court, municipal, and license clerks	71	87.0
Credit authorizers, checkers, and clerks	52	72.9
Customer service representatives	2,271	65.1

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Eligibility interviewers, government programs	74	77.3
File clerks	203	82.2
Hotel, motel, and resort desk clerks	156	59.5
Interviewers, except eligibility and loan	151	83.2
Library assistants, clerical	98	77.3
Loan interviewers and clerks	139	83.5
New accounts clerks	26	–
Order clerks	84	65.6
Human resources assistants, except payroll and timekeeping	59	82.9
Receptionists and information clerks	1,232	90.6
Reservation and transportation ticket agents and travel clerks	111	61.3
Information and record clerks, all other	127	76.9
Cargo and freight agents	21	–
Couriers and messengers	235	14.3
Dispatchers	277	56.3
Meter readers, utilities	41	–
Postal service clerks	130	46.0
Postal service mail carriers	320	41.2
Postal service mail sorters, processors, and processing machine operators	64	50.0
Production, planning, and expediting clerks	286	55.0
Shipping, receiving, and traffic clerks	575	29.5
Stock clerks and order fillers	1,529	35.8
Weighers, measurers, checkers, and samplers, recordkeeping	72	57.8
Secretaries and administrative assistants	2,870	94.5
Computer operators	69	46.8
Data entry keyers	281	74.3
Word processors and typists	103	92.1
Desktop publishers	1	–
Insurance claims and policy processing clerks	287	77.1
Mail clerks and mail machine operators, except postal service	81	59.4
Office clerks, general	1,288	82.3
Office machine operators, except computer	37	–

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Proofreaders and copy markers	8	–
Statistical assistants	17	–
Office and administrative support workers, all other	477	77.4
Natural resources, construction, and maintenance occupations	13,733	4.7
Farming, fishing, and forestry occupations	1,073	24.2
First-line supervisors of farming, fishing, and forestry workers	54	21.2
Agricultural inspectors	18	–
Animal breeders	8	–
Graders and sorters, agricultural products	97	61.7
Miscellaneous agricultural workers	789	21.9
Fishers and related fishing workers	39	–
Hunters and trappers	0	–
Forest and conservation workers	18	–
Logging workers	51	2.8
Construction and extraction occupations	7,652	2.7
First-line supervisors of construction trades and extraction workers	712	3.3
Boilermakers	20	–
Brickmasons, blockmasons, and stonemasons	172	.7
Carpenters	1,281	1.8
Carpet, floor, and tile installers and finishers	156	1.7
Cement masons, concrete finishers, and terrazzo workers	54	.2
Construction laborers	1,649	2.9
Paving, surfacing, and tamping equipment operators	12	–
Pile-driver operators	2	–
Operating engineers and other construction equipment operators	357	1.9
Drywall installers, ceiling tile installers, and tapers	151	1.6
Electricians	773	2.3
Glaziers	47	–
Insulation workers	49	–
Painters, construction and maintenance	572	5.7
Paperhangers	1	–
Pipelayers, plumbers, pipefitters, and steamfitters	573	.7

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Plasterers and stucco masons	28	–
Reinforcing iron and rebar workers	10	–
Roofers	221	2.3
Sheet metal workers	122	4.5
Structural iron and steel workers	58	2.2
Solar photovoltaic installers	11	–
Helpers, construction trades	52	1.3
Construction and building inspectors	90	9.9
Elevator installers and repairers	30	–
Fence erectors	34	–
Hazardous materials removal workers	42	–
Highway maintenance workers	103	2.0
Rail-track laying and maintenance equipment operators	11	–
Septic tank servicers and sewer pipe cleaners	12	–
Miscellaneous construction and related workers	32	–
Derrick, rotary drill, and service unit operators, oil, gas, and mining	34	–
Earth drillers, except oil and gas	29	–
Explosives workers, ordnance handling experts, and blasters	9	–
Mining machine operators	67	2.5
Roof bolters, mining	2	–
Roustabouts, oil and gas	9	–
Helpers--extraction workers	4	–
Other extraction workers	64	3.8
Installation, maintenance, and repair occupations	5,008	3.5
First-line supervisors of mechanics, installers, and repairers	262	6.1
Computer, automated teller, and office machine repairers	241	13.2
Radio and telecommunications equipment installers and repairers	158	8.5
Avionics technicians	5	–
Electric motor, power tool, and related repairers	23	–
Electrical and electronics installers and repairers, transportation equipment	1	–
Electrical and electronics repairers, industrial and utility	20	–
Electronic equipment installers and repairers, motor vehicles	18	–

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Electronic home entertainment equipment installers and repairers	38	–
Security and fire alarm systems installers	74	3.8
Aircraft mechanics and service technicians	140	5.2
Automotive body and related repairers	154	.6
Automotive glass installers and repairers	22	–
Automotive service technicians and mechanics	924	1.5
Bus and truck mechanics and diesel engine specialists	345	.1
Heavy vehicle and mobile equipment service technicians and mechanics	233	.0
Small engine mechanics	54	3.1
Miscellaneous vehicle and mobile equipment mechanics, installers, and repairers	81	1.9
Control and valve installers and repairers	29	–
Heating, air conditioning, and refrigeration mechanics and installers	408	1.7
Home appliance repairers	53	3.8
Industrial and refractory machinery mechanics	425	3.6
Maintenance and repair workers, general	527	3.2
Maintenance workers, machinery	29	–
Millwrights	57	3.3
Electrical power-line installers and repairers	119	1.2
Telecommunications line installers and repairers	177	6.0
Precision instrument and equipment repairers	66	4.8
Wind turbine service technicians	4	–
Coin, vending, and amusement machine servicers and repairers	48	–
Commercial divers	1	–
Locksmiths and safe repairers	21	–
Manufactured building and mobile home installers	5	–
Riggers	10	–
Signal and track switch repairers	8	–
Helpers--installation, maintenance, and repair workers	28	–
Other installation, maintenance, and repair workers	200	5.8
Production, transportation, and material moving occupations	17,647	21.8
Production occupations	8,522	28.8
First-line supervisors of production and operating workers	817	18.6

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Aircraft structure, surfaces, rigging, and systems assemblers	14	–
Electrical, electronics, and electromechanical assemblers	133	51.4
Engine and other machine assemblers	11	–
Structural metal fabricators and fitters	32	–
Miscellaneous assemblers and fabricators	1,026	38.6
Bakers	231	60.8
Butchers and other meat, poultry, and fish processing workers	302	25.7
Food and tobacco roasting, baking, and drying machine operators and tenders	14	–
Food batchmakers	101	72.3
Food cooking machine operators and tenders	13	–
Food processing workers, all other	135	34.2
Computer control programmers and operators	88	3.9
Extruding and drawing machine setters, operators, and tenders, metal and plastic	9	–
Forging machine setters, operators, and tenders, metal and plastic	8	–
Rolling machine setters, operators, and tenders, metal and plastic	15	–
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	82	21.6
Drilling and boring machine tool setters, operators, and tenders, metal and plastic	5	–
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	51	10.3
Lathe and turning machine tool setters, operators, and tenders, metal and plastic	11	–
Milling and planing machine setters, operators, and tenders, metal and plastic	0	–
Machinists	363	6.7
Metal furnace operators, tenders, pourers, and casters	30	–
Model makers and patternmakers, metal and plastic	5	–
Molders and molding machine setters, operators, and tenders, metal and plastic	46	–
Multiple machine tool setters, operators, and tenders, metal and plastic	1	–
Tool and die makers	47	–
Welding, soldering, and brazing workers	615	4.2
Heat treating equipment setters, operators, and tenders, metal and plastic	5	–
Layout workers, metal and plastic	5	–
Plating and coating machine setters, operators, and tenders, metal and plastic	23	–
Tool grinders, filers, and sharpeners	6	–
Metal workers and plastic workers, all other	376	22.5

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Prepress technicians and workers	22	–
Printing press operators	180	20.0
Print binding and finishing workers	20	–
Laundry and dry-cleaning workers	192	60.8
Pressers, textile, garment, and related materials	34	–
Sewing machine operators	196	74.8
Shoe and leather workers and repairers	7	–
Shoe machine operators and tenders	2	–
Tailors, dressmakers, and sewers	83	82.2
Textile bleaching and dyeing machine operators and tenders	3	–
Textile cutting machine setters, operators, and tenders	9	–
Textile knitting and weaving machine setters, operators, and tenders	9	–
Textile winding, twisting, and drawing out machine setters, operators, and tenders	9	–
Extruding and forming machine setters, operators, and tenders, synthetic and glass fibers	0	–
Fabric and apparel patternmakers	4	–
Upholsterers	40	–
Textile, apparel, and furnishings workers, all other	16	–
Cabinetmakers and bench carpenters	60	7.9
Furniture finishers	15	–
Model makers and patternmakers, wood	1	–
Sawing machine setters, operators, and tenders, wood	29	–
Woodworking machine setters, operators, and tenders, except sawing	24	–
Woodworkers, all other	31	–
Power plant operators, distributors, and dispatchers	33	–
Stationary engineers and boiler operators	81	3.4
Water and wastewater treatment plant and system operators	89	4.4
Miscellaneous plant and system operators	36	–
Chemical processing machine setters, operators, and tenders	63	13.0
Crushing, grinding, polishing, mixing, and blending workers	86	11.0
Cutting workers	64	16.7
Extruding, forming, pressing, and compacting machine setters, operators, and tenders	28	–
Furnace, kiln, oven, drier, and kettle operators and tenders	7	–

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Inspectors, testers, sorters, samplers, and weighers	752	37.3
Jewelers and precious stone and metal workers	44	—
Medical, dental, and ophthalmic laboratory technicians	110	48.6
Packaging and filling machine operators and tenders	250	49.9
Painting workers	151	12.9
Photographic process workers and processing machine operators	33	—
Semiconductor processors	1	—
Adhesive bonding machine operators and tenders	11	—
Cleaning, washing, and metal pickling equipment operators and tenders	4	—
Cooling and freezing equipment operators and tenders	4	—
Etchers and engravers	19	—
Molders, shapers, and casters, except metal and plastic	27	—
Paper goods machine setters, operators, and tenders	30	—
Tire builders	10	—
Helpers--production workers	40	—
Production workers, all other	944	25.5
Transportation and material moving occupations	9,125	15.3
Supervisors of transportation and material moving workers	205	18.1
Aircraft pilots and flight engineers	140	9.4
Air traffic controllers and airfield operations specialists	30	—
Flight attendants	86	74.9
Ambulance drivers and attendants, except emergency medical technicians	19	—
Bus drivers	550	47.1
Driver/sales workers and truck drivers	3,469	5.1
Taxi drivers and chauffeurs	446	14.6
Motor vehicle operators, all other	51	9.4
Locomotive engineers and operators	50	3.5
Railroad brake, signal, and switch operators	6	—
Railroad conductors and yardmasters	52	7.7
Subway, streetcar, and other rail transportation workers	15	—
Sailors and marine oilers	11	—
Ship and boat captains and operators	35	—

See footnotes at end of table.

Table 11. Employed people, by detailed occupation, 2015 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Ship engineers	6	–
Bridge and lock tenders	5	–
Parking lot attendants	91	10.0
Automotive and watercraft service attendants	99	11.0
Transportation inspectors	29	–
Transportation attendants, except flight attendants	22	–
Other transportation workers	43	–
Conveyor operators and tenders	7	–
Crane and tower operators	76	3.4
Dredge, excavating, and loading machine operators	35	–
Hoist and winch operators	6	–
Industrial truck and tractor operators	589	7.1
Cleaners of vehicles and equipment	338	11.1
Laborers and freight, stock, and material movers, hand	1,908	17.6
Machine feeders and offbearers	33	–
Packers and packagers, hand	505	51.9
Pumping station operators	23	–
Refuse and recyclable material collectors	97	10.4
Mine shuttle car operators	1	–
Tank car, truck, and ship loaders	5	–
Material moving workers, all other	43	–

Logging	83	3.5
Fishing, hunting, and trapping	56	11.6
Support activities for agriculture and forestry	168	35.7
Mining, quarrying, and oil and gas extraction	917	13.1
Oil and gas extraction	103	18.3
Coal mining	68	5.2
Metal ore mining	45	–
Nonmetallic mineral mining and quarrying	86	10.6
Not specified type of mining	7	–
Support activities for mining	609	13.2
Construction	9,935	9.3
Manufacturing	15,338	29.1
Durable goods	9,709	24.6
Nonmetallic mineral products	456	18.3
Pottery, ceramics, and plumbing fixture manufacturing	23	–
Clay building material and refractories manufacturing	24	–
Glass and glass product manufacturing	148	21.4
Cement, concrete, lime, and gypsum product manufacturing	180	10.7
Miscellaneous nonmetallic mineral product manufacturing	82	18.2
Primary metals and fabricated metal products manufacturing	1,726	18.2
Iron and steel mills and steel product manufacturing	303	11.0
Aluminum production and processing	68	20.7
Nonferrous metal, except aluminum, production and processing	60	22.5
Foundries	88	12.4
Metal forgings and stampings	64	22.0
Cutlery and hand tool manufacturing	39	–
Structural metals and boiler, tank and shipping container manufacturing	375	19.0

See footnotes at end of table.

Table 14. Employed people, by detailed industry, 2015 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Machine shops; turned products; screw, nut, and bolt manufacturing	300	15.7
Coating, engraving, heat treating and allied activities	67	17.1
Ordnance	49	–
Miscellaneous fabricated metal products manufacturing	283	23.0
Not specified metal industries	30	–
Machinery manufacturing	1,270	20.8
Agricultural implement manufacturing	132	22.0
Construction, and mining and oil and gas field machinery manufacturing	203	17.7
Commercial and service industry machinery manufacturing	72	27.5
Metalworking machinery manufacturing	138	15.3
Engine, turbine, and power transmission equipment manufacturing	61	22.2
Machinery manufacturing, n.e.c.	654	21.9
Not specified machinery manufacturing	10	–
Computers and electronic products manufacturing	1,171	30.7
Computer and peripheral equipment manufacturing	212	30.2
Communications, and audio and video equipment manufacturing	127	23.1
Navigational, measuring, electromedical, and control instruments manufacturing	220	31.7
Electronic component and product manufacturing, n.e.c.	612	32.1
Electrical equipment and appliances manufacturing	377	31.3
Household appliance manufacturing	87	33.2
Electrical lighting and electrical equipment manufacturing, and other electrical component manufacturing, n.e.c.	290	30.7
Transportation equipment manufacturing	2,366	24.5
Motor vehicles and motor vehicle equipment manufacturing	1,284	26.7
Aircraft and parts manufacturing	734	23.4
Aerospace product and parts manufacturing	102	19.7
Railroad rolling stock manufacturing	39	–
Ship and boat building	157	15.0
Other transportation equipment manufacturing	50	29.5
Wood products manufacturing	411	12.7
Sawmills and wood preservation	119	5.2
Veneer, plywood, and engineered wood products	45	–
Prefabricated wood buildings and mobile homes	37	–

See footnotes at end of table.

Table 14. Employed people, by detailed industry, 2015 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Miscellaneous wood products	209	14.7
Furniture and fixtures manufacturing	425	24.2
Miscellaneous manufacturing	1,507	33.9
Medical equipment and supplies manufacturing	585	36.9
Sporting and athletic goods, and doll, toy and game manufacturing	110	32.6
Miscellaneous manufacturing, n.e.c.	531	33.6
Not specified manufacturing industries	281	28.8
Nondurable goods manufacturing	5,629	36.8
Food manufacturing	1,753	39.7
Animal food, grain, and oilseed milling	142	29.7
Sugar and confectionery products	80	45.0
Fruit and vegetable preserving and specialty food manufacturing	173	32.0
Dairy product manufacturing	136	30.1
Animal slaughtering and processing	510	36.3
Retail bakeries	256	65.4
Bakeries and tortilla manufacturing, except retail bakeries	199	37.5
Seafood and other miscellaneous foods, n.e.c.	201	36.4
Not specified food industries	54	38.7
Beverages and tobacco products manufacturing	282	28.2
Beverage manufacturing	254	25.6
Tobacco manufacturing	28	—
Textiles, apparel, and leather manufacturing	627	53.8
Fiber, yarn, and thread mills	14	—
Fabric mills, except knitting mills	109	41.4
Textile and fabric finishing and coating mills	13	—
Carpet and rug mills	77	40.5
Textile product mills, except carpet and rug	88	49.2
Knitting fabric mills, and apparel knitting mills	16	—
Cut and sew apparel manufacturing	247	67.3
Apparel accessories and other apparel manufacturing	7	—
Footwear manufacturing	41	—
Leather tanning and finishing and other allied products manufacturing	16	—

See footnotes at end of table.

Table 14. Employed people, by detailed industry, 2015 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Paper manufacturing and printing	890	29.6
Pulp, paper, and paperboard mills	206	12.6
Paperboard container manufacturing	92	29.9
Miscellaneous paper and pulp products	83	26.9
Printing and related support activities	509	36.9
Petroleum and coal products manufacturing	206	21.6
Petroleum refining	183	22.1
Miscellaneous petroleum and coal products	24	–
Chemicals manufacturing	1,367	37.0
Resin, synthetic rubber and fibers, and filaments manufacturing	162	29.5
Agricultural chemical manufacturing	37	–
Pharmaceutical and medicine manufacturing	521	49.2
Paint, coating, and adhesive manufacturing	71	21.6
Soap, cleaning compound, and cosmetics manufacturing	146	45.6
Industrial and miscellaneous chemicals	430	24.7
Plastics and rubber products manufacturing	504	28.9
Plastics product manufacturing	372	30.7
Tire manufacturing	56	11.9
Rubber product, except tire, manufacturing	76	33.0
Wholesale and retail trade	20,320	44.8
Wholesale trade	3,635	29.5
Motor vehicle and motor vehicle parts and supplies merchant wholesalers	162	20.5
Furniture and home furnishing merchant wholesalers	79	34.1
Lumber and other construction materials merchant wholesalers	171	17.5
Professional and commercial equipment and supplies merchant wholesalers	338	33.7
Metals and minerals, except petroleum merchant wholesalers	53	24.8
Household appliances and electrical and electronic goods merchant wholesalers	217	28.1
Hardware, plumbing and heating equipment, and supplies merchant wholesalers	139	23.3
Machinery, equipment, and supplies merchant wholesalers	368	24.3
Recyclable material merchant wholesalers	102	13.9
Miscellaneous durable goods merchant wholesalers	97	44.4
Paper and paper products merchant wholesalers	54	32.6

See footnotes at end of table.

Table 14. Employed people, by detailed industry, 2015 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Drugs, sundries, and chemical and allied products merchant wholesalers	226	45.2
Apparel, piece goods, and notions merchant wholesalers	121	46.2
Grocery and related product merchant wholesalers	842	27.0
Farm product raw materials merchant wholesalers	73	25.3
Petroleum and petroleum products merchant wholesalers	108	30.0
Alcoholic beverages merchant wholesalers	116	20.5
Farm supplies merchant wholesalers	61	31.2
Miscellaneous nondurable goods merchant wholesalers	184	40.9
Wholesale electronic markets and agents and brokers	66	39.9
Not specified wholesale trade	57	27.5
Retail trade	16,686	48.1
Automobile dealers	1,321	21.2
Other motor vehicle dealers	153	19.9
Automotive parts, accessories, and tire stores	530	13.8
Furniture and home furnishings stores	554	43.7
Household appliance stores	65	21.7
Electronics stores	588	31.0
Building material and supplies dealers	982	30.1
Hardware stores	199	34.9
Lawn and garden equipment and supplies stores	267	27.9
Grocery stores	2,784	48.5
Specialty food stores	249	47.0
Beer, wine, and liquor stores	137	31.0
Pharmacies and drug stores	913	66.2
Health and personal care, except drug, stores	395	68.0
Gasoline stations	533	50.7
Clothing stores	1,055	73.7
Shoe stores	177	51.5
Jewelry, luggage, and leather goods stores	183	64.5
Sporting goods, and hobby and toy stores	499	42.3
Sewing, needlework, and piece goods stores	63	66.6
Musical instrument and supplies stores	43	–

See footnotes at end of table.

Table 14. Employed people, by detailed industry, 2015 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Book stores and news dealers	112	64.5
Department stores and discount stores	2,090	60.4
Miscellaneous general merchandise stores	569	60.2
Retail florists	100	63.9
Office supplies and stationery stores	153	39.7
Used merchandise stores	272	63.3
Gift, novelty, and souvenir shops	108	77.5
Miscellaneous retail stores	472	51.8
Electronic shopping	285	44.1
Electronic auctions	29	–
Mail-order houses	85	65.2
Vending machine operators	57	22.7
Fuel dealers	83	25.4
Other direct selling establishments	171	73.8

Note: The comparability of historical labor force data has been affected at various times by methodological and conceptual changes in the Current Population Survey (CPS). For an explanation, see the historical comparability section of the household data technical documentation provided at www.bls.gov/cps/documentation.htm#comp. Beginning in 2003, estimates for the groups shown (White, Black or African American, and Asian) include people who selected that race group only; people who selected more than one race group are not included. Prior to 2003, people who reported more than one race were included in the group they identified as the main race. Data for 2000 to 2002 are for the category Asians and Pacific Islanders. Starting in 2003, Asians constituted a separate category. For more information, see the historical comparability documentation. People whose ethnicity is identified as Hispanic or Latino may be of any race.

Dashes indicate that data for Asians were not tabulated prior to 2000.

Data exclude all self-employed people, both those with incorporated and unincorporated businesses.

Men	31,662	469	1.5	118	351
Part-time workers	20,285	1,477	7.3	579	898

See footnotes at end of table.

Table 20. Wage and salary workers paid hourly rates with earnings at or below the prevailing federal minimum wage, by selected characteristics, 2015 annual averages (Numbers in thousands)

Characteristic	Workers paid hourly rates				
	Total	Total at or below prevailing federal minimum wage			
		Total	Percentage of hourly paid workers	At prevailing federal minimum wage	Below prevailing federal minimum wage
Women	13,296	991	7.5	367	624
Men	6,989	486	7.0	212	274

¹ Estimates for the race groups—White, Black or African American, and Asian—do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race.

² The distinction between full- and part-time workers is based on hours usually worked. These data will not sum to totals because full- or part-time status on the principal job is not identifiable for a small number of multiple jobholders. Full time is 35 hours or more per week; part time is less than 35 hours.

Note: Data exclude all self-employed people, both those with incorporated and unincorporated businesses.

Note: Revisions to population controls and other changes can affect the comparability of labor force levels over time. In recent years, for example, updated population controls have been introduced annually with the release of January data. Information about historical comparability is online at www.bls.gov/cps/documentation.htm#comp.

Note: These data reflect work experience for the entire year.

The 2013 data in this report, collected in the 2014 ASEC, are based on fewer sample responses than in recent years. Approximately three-eighths of the 2014 CPS ASEC sample was used to test redesigned questions on income and health insurance coverage; this portion of the sample was not used to generate the estimates in this table.

¹ The native born are people who were born in the United States or one of its outlying areas, such as Puerto Rico or Guam, or who were born abroad of at least one parent who was a U.S. citizen.

² The foreign born are those residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas, such as Puerto Rico or Guam, to parents who were not U.S. citizens. This group includes legally admitted immigrants, refugees, students, temporary workers, and undocumented immigrants. The survey data, however, do not separately identify the number of people in these categories.

¹ Members of a labor union or an employee association similar to a union.

² Members of a labor union or an employee association similar to a union, as well as workers who are not members of unions but whose jobs are covered by a union or employee association contract.

Note: Data refer to the sole or principal job of full- and part-time workers. All self-employed workers are excluded, both those with incorporated and unincorporated businesses. Updated population controls are introduced annually with the release of January data.

Note: Veterans are men and women who served on active duty in the U.S. Armed Forces and were not on active duty at the time of the survey. Nonveterans never served on active duty in the U.S. Armed Forces. Veterans could have served anywhere in the world during these periods of service: Gulf War era II (September 2001–present), Gulf War era I (August 1990–August 2001), Vietnam era (August 1964–April 1975), Korean War (July 1950–January 1955), World War II (December 1941–December 1946), and other service periods (all other time periods). Veterans are counted in only one period of service, their most recent wartime period. Veterans who served in both a wartime period and any other service period are classified in the wartime period.

Employed	136,119	63,891	72,228
Employment-population ratio	72.2	66.7	77.9
Unemployed	7,398	3,387	4,011
Unemployment rate	5.2	5.0	5.3
Not in labor force	45,004	28,547	16,457
65 years and older			
Civilian noninstitutional population	32,528	17,861	14,666
Civilian labor force	7,800	3,553	4,248
Participation rate	24.0	19.9	29.0
Employed	7,522	3,423	4,100
Employment-population ratio	23.1	19.2	28.0
Unemployed	278	130	148
Unemployment rate	3.6	3.7	3.5
Not in labor force	24,728	14,309	10,419

Note: A person with a disability has at least one of the following conditions: is deaf or has serious difficulty hearing; is blind or has serious difficulty seeing even when wearing glasses; has serious difficulty concentrating, remembering, or making decisions because of a physical, mental, or emotional condition; has serious difficulty walking or climbing stairs; has difficulty dressing or bathing; or has difficulty doing errands alone, such as visiting a doctor's office or shopping, because of a physical, mental, or emotional condition.

Technical Notes

The estimates in this report were obtained from the Current Population Survey (CPS), a national monthly sample survey of approximately 60,000 eligible households that provides a wide range of information on the labor force, employment, and unemployment. The survey is conducted for the U.S. Bureau of Labor Statistics (BLS) by the U.S. Census Bureau, using a scientifically selected national sample with coverage in all 50 states and the District of Columbia.

Material in this report is in the public domain and may be reproduced without permission. Upon request, this information is available to individuals with sensory impairments. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Concepts and definitions

Children. Data on children refer to one's own children and include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, other related children, and all unrelated children living in the household.

Civilian labor force. This group comprises all people classified as employed or unemployed.

Civilian labor force participation rate. This rate is the civilian labor force as a percentage of the civilian noninstitutional population.

Civilian noninstitutional population. Included are people 16 years of age and older residing in any of the 50 states or the District of Columbia who are not confined to institutions, such as nursing homes and prisons, and who are not on active duty in the Armed Forces.

Disability. The CPS uses a set of six questions to identify people with disabilities. The questions are about physical, mental, or emotional conditions that cause serious difficulty with daily activities. People are classified as having a disability if there is a response of "yes" to any of these questions. For each of the questions, interviewers ask the respondent whether anyone in the household has the condition described, and if the respondent replies "yes," he or she is then asked to identify everyone in the household who has the condition. More information, including the wording of the six questions used to identify people with a disability, is available at www.bls.gov/cps/demographics.htm#disability.

Displaced workers. Displaced workers are wage and salary workers 20 years of age and older who lost or left jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data are presented for long-tenured displaced workers—those who had worked for their employer for 3 or more years at the time of displacement. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. Data were collected through a biennial supplement to the January CPS.

Employed people. Employed people are all those who, during the survey reference week, (a) did any work at all as paid employees; (b) worked in their own business, in a profession, or on their own farm; or (c) worked 15 or more hours as unpaid workers in a family member's business. People who were temporarily absent from their jobs or business because of illness, vacation, a labor dispute, or another reason also are counted as employed.

Employment–population ratio. This ratio is the number of employed as a percentage of the population.

Family. A family is a group of two or more people residing together who are related by birth, marriage, or adoption. Families are classified either as married-couple families or as families maintained by women or men without spouses present. Families include those without children as well as those with children under 18.

Foreign born. The foreign born are people residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas, such as Puerto Rico or Guam, to parents, neither of whom was a U.S. citizen. The foreign-born population includes legally admitted immigrants, refugees, temporary residents such as students and temporary workers, and undocumented immigrants. The survey data, however, do not separately identify the number of people in these categories. The native born are people born in the United States or one of its outlying areas or who were born abroad of at least one parent who was a U.S. citizen.

Hispanic or Latino ethnicity. This refers to people who identified themselves in the enumeration process as being Hispanic, Latino, or Spanish. People whose ethnicity is identified as Hispanic or Latino may be of any race; estimates for the race groups include Hispanics. Information on the 2003 changes in questions on race and Hispanic ethnicity in 2003 is available at <https://www.bls.gov/cps/rvcps03.pdf>. Hours at work. These are the actual hours worked (at all jobs) during the survey reference week. For example, people who normally work 40 hours a week but were off during the Columbus Day holiday would be reported as working 32 hours, even if they were paid for the holiday.

Median weekly earnings. These figures indicate the number that divides the earnings distribution into two equal parts, one part having values above the median and the other having values below the median. Median weekly earnings shown in this publication are estimated through the linear interpolation of the \$50-centered interval in which the median lies.

Minimum wage. The estimates of the numbers of workers with reported earnings at or below the federal minimum wage pertain only to workers who are paid hourly rates. Salaried workers and other workers who are not paid by the hour are not included, even though some have earnings that, if converted to hourly rates, would be at or below the minimum wage. Consequently, the estimates presented in this report likely understate the actual number of workers with hourly earnings at or below the minimum wage. BLS does not routinely estimate the hourly earnings of workers not paid by the hour because of data quality concerns associated with such an estimation process.

The prevailing federal minimum wage is \$7.25, effective July 24, 2009. Note that some states have established minimum-wage standards that exceed the federal level. The presence of workers with hourly earnings below the minimum wage does not necessarily indicate violations of the Fair Labor Standards Act (FLSA), because there are a number of exemptions to the minimum-wage provisions of the law. In addition, some workers might have rounded their hourly earnings in response to survey questions. As a result, some might have reported hourly earnings below the minimum wage when, in fact, they earned the minimum wage or higher.

Not in the labor force. Included in this group are all people in the civilian noninstitutional population who are neither employed nor unemployed.

Occupation and industry. For the employed, this information applies to the job held during the reference week. People with two or more jobs are classified as being in the occupation and industry in which they worked the greatest number of hours. The CPS uses the Census occupational classification, based on the 2010 Standard Occupation Classification (SOC), and the 2012 Census industry classification, derived from the 2012 North American Industry Classification

System (NAICS). Additional information about these classifications is available online at www.bls.gov/cps/cpsoccind.htm.

Race. In accordance with the Office of Management and Budget standards, White, Black or African American, and Asian are terms used to describe a person's race. Beginning in 2003, people in these categories are those who selected that race group only. Those who identify multiple race groups are categorized as people of two or more races. More information on the 2003 changes to questions on race is available at www.bls.gov/cps/rvcps03.pdf. Data for other race groups—American Indians and Alaska Natives, Native Hawaiians and Other Pacific Islanders—and for people of two or more races are included in totals but not separately identified in this report.

Self-employed workers. Self-employed workers are those who work for profit or fees in their own business, in a profession, in a trade, or on a farm. The unincorporated self-employed are included in the self-employed category. Self-employed people whose businesses are incorporated are included with wage and salary workers, unless otherwise specified.

Employee tenure. Tenure is a measure of how long wage and salary workers had been with their current employer at the time of the survey. Tenure is presented in median years; the median is the point at which half of all workers had more tenure and half had less. Data refer to the sole or principal job of full- and part-time workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. The data were collected through a biennial supplement to the January CPS.

Unemployed. The unemployed are people who had no employment during the survey reference week, were available for work (except in the case of temporary illness), and had made specific efforts to find employment sometime during the 4-week period ending with the survey reference week. People who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate. This rate is the number of unemployed people as a percentage of the civilian labor force.

Union membership. Union membership refers to members of a labor union or of an employee association similar to a union. The data are tabulated from one-quarter of the CPS monthly sample and are limited to wage and salary workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses.

Usual hours or usual full- or part-time status. Data on people "at work" exclude those who were temporarily absent from a job and therefore were classified into the zero-hours-worked category, "with a job but not at work." These are people who were absent from their jobs for the entire week for reasons such as bad weather, vacation, illness, or involvement in a labor dispute. To differentiate a person's normal schedule from his or her activity during the survey reference week, people also are classified according to their usual full- or part-time status. In this context, full-time workers are those who usually work 35 or more hours (at all jobs combined) per week. This group includes some individuals who worked less than 35 hours in the reference week for either economic or noneconomic reasons and those who were temporarily absent from work. Similarly, part-time workers are those who usually work less than 35 hours per week (at all jobs), regardless of the number of hours worked in the reference week. These workers may include some individuals who actually worked more than 34 hours in the reference week, as well as those who were temporarily absent from work.

Usual weekly earnings. Data on usual weekly earnings represent earnings before taxes and other deductions, and include any overtime pay, commissions, and tips usually received (at the main job in the case of multiple jobholders). Earnings reported on a basis other than weekly (for example, annual, monthly, or hourly) are converted to weekly. The term “usual” is as perceived by the respondent. If the respondent asks for a definition of “usual,” interviewers are instructed to define the term as “more than half the weeks worked during the past 4 or 5 months.” Data refer to the sole or primary job of wage and salary workers (excluding all self-employed people, regardless of whether or not their businesses were incorporated) and are tabulated from one-quarter of the CPS monthly sample.

Veterans. Veterans are men and women 18 years or older who previously served on active duty in the U.S. Armed Forces and who were civilians at the time they were surveyed. People who are on active duty at the time of the survey are outside the scope of the survey and thus not in the estimates shown here. Nonveterans are men and women who never served on active duty in the U.S. Armed Forces. Veteran status is obtained from responses to the question, “Did you ever serve on active duty in the U.S. Armed Forces?”

Wage and salary workers. These are workers who receive wages, salaries, commissions, tips, payment in kind, or piece rates. The group includes employees in the private and the public sectors. Data on union membership and earnings of wage and salary workers exclude all self-employed workers, both those with incorporated businesses and those with unincorporated businesses.

Work experience. These data reflect work activity during the calendar year and are obtained from the Annual Social and Economic Supplement (ASEC) to the CPS. Estimates of people who worked are based on “yes” responses to the following questions in the ASEC: “Did you work at a job or business at any time during [the survey reference year]?” or “Did you do any temporary, part-time, or seasonal work even for a few days during [the survey reference year]?” Because the reference period is a full year, the number of people with some employment exceeds the average levels for any given month, which are based on a 1-week reference period, and the corresponding annual averages of monthly estimates.

Workers paid by the hour. These are people paid at an hourly rate on their main job. Historically, workers paid an hourly wage have made up approximately three-fifths of all wage and salary workers.

Working poor. The working poor are people who spent at least 27 weeks in the labor force (that is, working or looking for work) but whose incomes still fell below the official poverty level.

Reliability of the estimates

Statistics based on the CPS are subject to both sampling and nonsampling error. When a sample, rather than an entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent. The component of this difference that occurs because samples differ by chance is known as sampling error, and its variability is measured by the standard error of the estimate. There is about a 90-percent chance, or level of confidence, that an estimate based on a sample will differ by no more than 1.6 standard errors from the true population value because of sampling error. BLS analyses are generally conducted at the 90-percent level of confidence.

All other types of error are referred to as nonsampling error. Nonsampling error can occur for many reasons, including the failure to sample a segment of the population, inability to obtain information for all respondents in the sample, inability or unwillingness of respondents to provide correct information, and errors made in the collection or processing

of data. Information on the reliability of data from the CPS and on estimating standard errors is available at www.bls.gov/cps/documentation.htm#reliability.
