¹ Median days of job transfer or restriction is the measure used to summarize the varying lengths of job transfer or restriction from work among the cases with days of job transfer or restriction. Half the cases involved more days and half involved fewer days than a specified median. Median days of job transfer or restriction are represented in actual values.

² Includes cases involving only days of job transfer or restriction.

³ In January of 2015, the original six industries selected for the days-of-job-transfer-or-restriction (DJTR) study were replaced with a new set of six industries. The original six 3-digit industries included: Specialty trade contractors; Food manufacturing; Building material and garden equipment supplies dealers; Air transportation; Warehousing and storage; and Nursing and residential care facilities.

⁴ Totals include data for industries not shown separately.

⁵ *North American Industry Classification System* — United States, 2012.

⁶ Includes nonclassifiable responses.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
