

NEWS RELEASE

For release 10:00 a.m. (EDT) Wednesday, March 12, 2014

USDL-14-0390

Technical information: (202) 691-6199 • ncsinfo@bls.gov • www.bls.gov/ect

Media contact: (202) 691-5902 • pressoffice@bls.gov

(Note: As a result of problems implementing the 2010 Standard Occupational Classification, Employer Costs for Employee Compensation data for December 2013 and March 2014 contained errors in several occupational and industry series. The database and historical listings will be updated on September 10, 2014; this news release will not be corrected. For further information see www.bls.gov/bls/ecec_correction_091014.htm.)

EMPLOYER COSTS FOR EMPLOYEE COMPENSATION – DECEMBER 2013

Private industry employers spent an average of \$29.63 per hour worked for total employee compensation in December 2013, the U.S. Bureau of Labor Statistics reported today. Wages and salaries averaged \$20.76 per hour worked and accounted for 70.1 percent of these costs, while benefits averaged \$8.87 and accounted for the remaining 29.9 percent. Total compensation costs for **state and local government** workers averaged \$42.89 per hour worked in December 2013. Total employer compensation costs for **civilian** workers, which include private industry and state and local government workers, averaged \$31.57 per hour worked in December 2013.

Employer Costs for Employee Compensation (ECEC), a product of the National Compensation Survey, measures employer costs for wages, salaries, and employee benefits for nonfarm private and state and local government workers.

Chart 1. Employer costs as a percent of total compensation: paid leave and legally required benefit costs, selected major occupational groups, private industry, December 2013

Chart 2. Employer costs per hour worked: paid leave and legally required benefit costs, by establishment employment size, private industry, December 2013

Introduction of 2010 Standard Occupational Classification (SOC)

Beginning with this release, Employer Costs for Employee Compensation estimates are based on SOC 2010, rather than SOC 2000. For additional information, see the Technical Note on Page 4.

Paid leave costs in private industry

Private industry employer costs for paid leave benefits averaged \$2.05 per hour worked. Private industry paid leave benefit costs were highest for management, professional, and related occupations.

\$4.39 per hour worked, or 8.5 percent of total compensation, in December 2013. Costs were lowest among service occupations, 57 cents, or 4.0 percent of total compensation. (See chart 1 and table 5.) Included in this amount were employer costs for vacations, holidays, sick leave, and personal leave. Paid leave benefit costs are often directly linked to wages; therefore, higher paid occupations or industries will typically show higher estimates for this compensation component.

Paid leave costs in goods-producing industries were \$2.34, greater than the average for service-providing industries, \$1.99, in December 2013. The average cost per hour worked for paid leave in service-providing industries ranged from \$4.38 in information to 43 cents in leisure and hospitality. (See table 6.)

Paid leave costs varied widely by establishment size in private industry. Paid leave costs for establishments with fewer than 100 workers were \$1.45 per hour worked versus \$2.10 for establishments with 100 to 499 employees and \$3.68 with 500 employees or more. (See chart 2 and table 8.)

For information on **paid leave** provisions, see *National Compensation Survey: Employee Benefits in the United States, March 2013*, at www.bls.gov/ncs/ebs/benefits/2013/benefits.htm.

Legally required benefit costs in private industry

The average cost for **legally required benefits** was \$2.43 per hour worked in private industry (8.2 percent of total compensation) in December 2013. Social Security comprises the largest legally required benefit cost component at \$1.39 per hour or 4.7 percent of total compensation. Legally required benefits such as Social Security and Medicare are often directly linked to wages; therefore, higher paid occupations or industries will typically show higher cost estimates for this compensation component. (See table 5.)

Costs for other **legally required benefits** include Workers' compensation, which averaged 43 cents per hour worked (1.4 percent of total compensation); state unemployment insurance, which averaged 23 cents per hour worked (0.8 percent); and federal unemployment insurance, which averaged just 4 cents per hour worked (0.1 percent). (See table 5.)

Employer costs for **legally required benefits** varied by occupational group. The average cost per hour worked for legally required benefits ranged from \$3.53 for management, professional, and related occupations to \$1.51 per hour for service occupations. The proportion of total compensation represented by legally required benefits ranged from 10.7 percent for service workers to 6.9 percent for management, professional, and related workers. (See chart 1 and table 5.)

Legally required benefit costs varied by establishment size in private industry ranging from \$2.20 per hour worked for establishments with fewer than 100 employees to \$3.10 for establishments with 500 workers or more. (See chart 2 and table 8.)

Other benefit categories in private industry

Private industry employer costs averaged \$2.45 per hour worked for **insurance** benefits (life, health, and disability insurance), or 8.3 percent of total compensation. In addition to insurance, the other benefit

categories were: **supplemental pay** (overtime and premium, shift differentials, and nonproduction bonuses), which averaged 85 cents per hour worked (2.9 percent); and **retirement and savings**, which averaged \$1.10 per hour (3.7 percent). (See table A and table 5.)

Table A. Relative importance of employer costs for employee compensation, December 2013

Compensation component	Civilian workers	Private industry	State and local government
Wages and salaries	69.0%	70.1%	64.5%
Benefits	31.0	29.9	35.5
Paid leave	7.0	6.9	7.3
Supplemental pay	2.4	2.9	0.8
Insurance	9.0	8.3	12.0
Health benefits	8.5	7.8	11.6
Retirement and savings	4.8	3.7	9.4
Defined benefit	3.0	1.6	8.6
Defined contribution	1.9	2.1	0.8
Legally required	7.8	8.2	6.0

The Employer Costs for Employee Compensation for March 2014 is scheduled to be released on Wednesday, June 11, 2014, at 10:00 a.m. (EDT).

Employer Costs for Employee Compensation data on total compensation, wages and salaries, and benefits in private industry are produced annually for 15 metropolitan areas. Metropolitan area data will be included in the March 2014 news release on June 11, 2014. For further information about metropolitan area ECEC estimates see the September 2009 article: "BLS Introduces New Employer Costs for Employee Compensation Data for Private Industry Workers in 15 Metropolitan Areas," at www.bls.gov/opub/mlr/cwc/bls-introduces-new-employer-costs-for-employee-compensation-data-for-private-industry-workers-in-15-metropolitan-areas.pdf.

Supplemental tables with occupational, establishment size, and bargaining status series for detailed industries are available at www.bls.gov/ncs/ect/sp/ecsuphst.pdf and www.bls.gov/ncs/ect/sp/ecsuptc29.pdf.

Relative standard errors for all cost estimates in the most recent news release and supplementary tables are available at www.bls.gov/ncs/ect/sp/ecsuprse.pdf.

Historical ECEC data are available in three listings, all available at www.bls.gov/ect/#tables. The first historical listing covers data for the March reference periods from 1986 to 2001. These data use the Standard Industrial Classification (SIC) and Census of Population occupational classification systems. The second listing contains data for the March, June, September, and December reference periods from March 2002 to December 2003. These data are also based on the SIC and Census of Population occupational classification systems. The final listing includes data for March 2004 to the current reference period. These are based on the North American Industry Classification System (NAICS) and Standard Occupational Classification (SOC) systems.

Information in this release will be made available to sensory impaired individuals upon request—Telephone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

BLS news releases, including the ECEC, are available through an e-mail subscription service at: www.bls.gov/bls/list.htm.

TECHNICAL NOTE

Employer Costs for Employee Compensation (ECEC) measures the average cost to employers for wages and salaries and benefits per employee hour worked.

ECEC includes the civilian economy, which includes data from both private industry and state and local government. Excluded from private industry are the self-employed and farm and private household workers. Federal government workers are excluded from the public sector. The private industry series and the state and local government series provide data for the two sectors separately.

The cost levels for this quarter were collected from a probability sample of approximately 44,200 occupations selected from a sample of about 9,100 establishments in private industry and approximately 9,100 occupations from a sample of about 1,400 establishments in state and local government.

Comparing private and public sector data

Compensation cost levels in state and local government should not be directly compared with levels in private industry. Differences between these sectors stem from factors such as variation in work activities and occupational structures. Manufacturing and sales, for example, make up a large part of private industry work activities but are rare in state and local government. Professional and administrative support occupations (including teachers) account for two-thirds of the state and local government workforce, compared with one-half of private industry.

<u>Introduction of 2010 Standard Occupational Classification (SOC)</u>

Beginning with this release, Employer Costs for Employee Compensation estimates are based on 2010 SOC. No substantive changes occurred in occupational coverage for about 90 percent of the detailed occupations in the 2010 SOC. However the detailed occupation Registered Nurses, for which data are shown separately in this release, did undergo classification changes. For information about this and other changes see www.bls.gov/soc.

ECEC quarterly publication focus

ECEC news releases are published quarterly, providing estimates on civilian, private industry, and state and local government cost per hour worked as well as additional detail on a specific compensation cost topic of interest. This quarter focuses on paid leave and legally required benefits costs in private industry. Topics of news releases for the upcoming reference periods are as follows:

- March 2014—Health benefit costs in private industry
- June 2014—Retirement and savings benefit costs in private industry
- September 2014—Compensation costs in state and local government

ECEC detailed information and measures

For detailed information on the Employer Costs for Employee Compensation, see Chapter 8, "National Compensation Measures," in the *BLS Handbook of Methods* at: www.bls.gov/opub/hom/pdf/homch8.pdf.

¹ Includes workers in the private nonfarm economy excluding households and the public sector excluding the Federal government.

Includes mining, construction, and manufacturing. The agriculture, forestry, farming, and hunting sector is excluded.

Includes utilities; wholesale trade; retail trade; transportation

and warehousing; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services, except public administration; and

public administration. $\ensuremath{^4}$ Includes premium pay for work in addition to the regular work schedule (such as overtime, weekends, and holidays).

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

⁷ Comprises the Old-Age, Survivors, and Disability Insurance (OASDI) program.

¹ This table presents data for the three major occupational groups in State and local government: management, professional, and related occupations, including teachers; sales and office occupations, including clerical workers; and service occupations, including police and firefighters.

² Service-providing industries, which include health and educational

services, employ a large part of the State and local government workforce.

³ Includes premium pay for work in addition to the regular work schedule

⁽such as overtime, weekends, and holidays).

⁴ Comprises the Old-Age, Survivors, and Disability Insurance (OASDI)

Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

Table 4. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: State and local government workers, by occupational and industry group, December 2013
