This release incorporates annual revisions in seasonally adjusted Employment Cost Index (ECI) data for total compensation, wages and salaries, and benefit costs. Seasonally adjusted data for 2009-2013 were revised to reflect updated seasonal factors.

BLS news releases, including the ECI, are available through an e-mail subscription service at: [www.bls.gov/bls/list.htm](http://www.bls.gov/bls/list.htm).

### **Corrections to ECI Data Series**

Some Employment Cost Index estimates from September 2012 through March 2013 were corrected on June 26, 2013. (Seasonally adjusted estimates were subject to corrections back to March 2008.) For further information, see: [www.bls.gov/bls/eci\\_corrections\\_043013.htm](http://www.bls.gov/bls/eci_corrections_043013.htm).

## TECHNICAL NOTE

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. Detailed information on survey concepts, coverage, and methods can be found in *BLS Handbook of Methods*, Chapter 8, "National Compensation Measures," Bureau of Labor Statistics, on the Internet at [www.bls.gov/opub/hom/pdf/homch8.pdf](http://www.bls.gov/opub/hom/pdf/homch8.pdf).

### Sample size

Data for the March 2014 reference period were collected from a probability sample of approximately 43,900 occupational observations selected from a sample of about 9,000 establishments in private industry and approximately 9,000 occupational observations from a sample of about 1,400 establishments in state and local governments.

### Health insurance data

Data from the ECI that provide 12-month percent changes in employer costs for health insurance in private industry are available at [www.bls.gov/web/eci/ehealth.pdf](http://www.bls.gov/web/eci/ehealth.pdf).

### Historical listings

Historical listings that provide all ECI data are available at [www.bls.gov/ect/#tables](http://www.bls.gov/ect/#tables). Included among these listings is one that provides continuous occupational and industry series. This listing uses the Standard Industrial Classification Manual and Census of Population series through 2005 and the North American Industry Classification System and Standard Occupational Classification from 2006 to the present. It provides the official series from the beginning of the ECI in 1975 through the current quarter. For more information on the criteria used in defining continuous series, see the article published in the *Monthly Labor Review* at [www.bls.gov/opub/mlr/2006/04/art2full.pdf](http://www.bls.gov/opub/mlr/2006/04/art2full.pdf).

### Employer Costs for Employee Compensation data

The costs per hour worked of compensation components, based on data from the ECI, are published in a separate news release titled "Employer Costs for Employee Compensation" (ECEC). The next ECEC release is scheduled for 10:00 a.m. (EDT), Wednesday, June 11, 2014. Historical ECEC data are available in summary documents at [www.bls.gov/ect/#tables](http://www.bls.gov/ect/#tables). Since the ECEC is calculated with current employment weights rather than the fixed weights used in computing the ECI, year-to-year changes in the cost levels usually differ from those in the ECI.

### Updated employment weights and methodology changes

Fixed employment weights are used each quarter to calculate aggregate indexes for civilian, private, and state and local government. These fixed weights are also used to derive all of the industry and occupation series indexes. Beginning in December 2013, the 2012 employment counts from the Bureau's Occupational Employment Statistics were used. Additional methodology changes include a partial implementation of the new NCS national sample design and adjustments to aggregate seasonally adjusted series. For more information, please contact the National Compensation Survey at 202-691-6199 or [ncsinfo@bls.gov](mailto:ncsinfo@bls.gov).
