EMPLOYMENT COST INDEX –JUNE 2011

Compensation costs for civilian workers increased 0.7 percent, seasonally adjusted, for the 3-month period ending June 2011, the U.S. Bureau of Labor Statistics reported today. **Wages and salaries** (which make up about 70 percent of compensation costs) increased 0.4 percent, and **benefits** (which make up the remaining 30 percent of compensation) increased 1.3 percent.

Chart 1. Employment Cost Index, 3-month percent change, seasonally adjusted, civilian workers, compensation, June 2009-June 2011

Chart 2. Employment Cost Index, 12-month percent change, not seasonally adjusted, private industry workers, total compensation, June 2009-June 2011

Civilian Workers

Compensation costs for civilian workers increased 2.2 percent for the 12-month period ending June 2011. A year earlier—in June 2010—the increase was 1.9 percent. **Wages and salaries** increased 1.6 percent for the current 12-month period; the same as the June 2010 increase. **Benefit costs** accelerated to 3.6 percent, up from a 2.5-percent increase for the 12-month period ending June 2010.

Private Industry Workers

Compensation costs for private industry workers increased 2.3 percent over the year, compared to the 1.9-percent increase for the previous 12-month period. The **wage and salary** series increased 1.7 percent for the current 12-month period. The change for the 12-month period ending June 2010 was 1.6 percent. The increase in the cost of **benefits** jumped to 4.0 percent for the 12-month period ending June 2011, higher than the June 2010 increase of 2.4 percent. Employer costs for **health benefits**

increased 3.6 percent for the 12-month period ending June 2011. In June 2010, the 12-month percent change was 5.0 percent.

Among occupational groups, compensation cost increases for private industry workers for the 12-month period ending June 2011 ranged from 1.8 percent for service occupations to 2.7 percent for production, transportation and material moving occupations.

Among industry supersectors, compensation cost increases for private industry workers for the current 12-month period ranged from 1.1 percent for leisure and hospitality to 3.3 percent for manufacturing. Since September 2005, estimates for manufacturing have ranged from 1.0 percent in December 2009 to 3.2 percent in both September 2005 and December 2005.

State and Local Government Workers

Compensation costs for State and local government workers increased 1.7 percent for the 12-month period ending June 2011, which was the same as the increase for the 12-month period ending June 2010. Values for this series—which began in June 1982—have ranged from 1.7 percent in both June 2010 and the current reference period to 9.6 percent in June 1982. **Wages and salaries** increased 1.2 percent for the 12-month period ending June 2011. A year earlier the increase was 1.3 percent. Prior values for this series, which also began in June 1982, ranged from 1.2 percent for the past four quarters to 8.5 percent in June 1982. **Benefit costs** increased 3.0 percent; in June 2010 the increase was 2.5. Prior values for this series, which began in June 1990, ranged from 1.2 percent in December 1997 to 8.3 percent in June 1990.

The Employment Cost Index for September 2011 is scheduled to be released on Friday, October 28, 2011, at 8:30 a.m. (EDT).

Information in this release will be made available to sensory impaired individuals upon request—Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

BLS news releases, including the ECI, are available through an e-mail subscription service at: www.bls.gov/bls/list.htm.

Some Employment Cost Index estimates from June 2009 through September 2010 were corrected on January 18, 2011. (In some of the seasonally adjusted series, corrections were made to estimates back to June 2005.) For further information, see: www.bls.gov/bls/eci_corrections_111910.htm

Benefits	0.9	0.5	2.5	2.8	2.9	3.3	3.0

¹ Includes private industry and State and local government.² Includes wages and salaries and benefits.

TECHNICAL NOTE

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. Detailed information on survey concepts, coverage, and methods can be found in *BLS Handbook of Methods*, Chapter 8, "National Compensation Measures," Bureau of Labor Statistics, on the Internet at www.bls.gov/opub/hom/pdf/homch8.pdf.

Sample size

Data for the June 2011 reference period were collected from a probability sample of approximately 62,100 occupational observations selected from a sample of about 12,700 establishments in private industry and approximately 11,500 occupations from a sample of about 1,800 establishments in State and local governments.

Health insurance data

Data from the ECI that provide 12-month percent changes in employer costs for health insurance in private industry are available at www.bls.gov/ect/sp/echealth.pdf.

Historical listings

Historical listings that provide all ECI data are available at www.bls.gov/ect/#tables. Included among these listings is one that provides continuous occupational and industry series. This listing uses the Standard Industrial Classification Manual and Census of Population series through 2005 and the North American Industry Classification System and Standard Occupational Classification from 2006 to the present. It provides the official series from the beginning of the ECI in 1975 through the current quarter. For more information on the criteria used in defining continuous series, see the article published in the *Monthly Labor Review* at www.bls.gov/opub/mlr/2006/04/art2full.pdf.

Employer Costs for Employee Compensation data

The costs per hour worked of compensation components, based on data from the ECI, are published in a separate news release titled "Employer Costs for Employee Compensation" (ECEC). The next ECEC release is scheduled for 10:00 a.m. (EDT), Thursday, September 8, 2011. Historical ECEC data are available in summary documents. Since the ECEC is calculated with current employment weights rather than the fixed weights used in computing the ECI, year-to-year changes in the cost levels usually differ from those in the ECI.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government.

² Includes mining, construction, and manufacturing.

³ Includes the following industries: wholesale trade; retail trade; transportation and warehousing; utilities; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services, except public administration; and public administration.

⁴ Includes ambulatory health care services and social assistance, not shown separately.

⁵ Seasonally adjusted indexes and 3-month percent changes for this

series are being published for the first time with the 2011 seasonal adjustment revisions. Historical data for this series are published beginning with March 2006.

⁶ Includes the following industries: wholesale trade; retail trade; transportation and warehousing; utilities; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; education services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; and other services, except public administration.

⁷ The retail trade wages series is seasonal as of the 2011 revision. Seasonality was first found in the 2006 revision and the series continued to be seasonally adjusted until the 2010 revision when it was discontinued for one year. Historical data for this series is published beginning with March 2001.

Table 3. Employment Cost Index for benefits, by occupational group and industry

(Seasonally adjusted)

Occupational group and industry	Indexes (Dec. 2005 = 100)		Percent changes for 3-months ended-
