* Because changes were introduced part way into 2013 for calculating Federal and State taxes, estimates for 2013 and 2014 are not strictly comparable to prior years.

** Because of questionnaire changes for health insurance, 2014 estimates are not strictly comparable to prior years.

Note: All values have been rounded, and as a result some cell values have been rounded to zero. This is particularly evident in the characteristic section. When data are not reported or are not applicable (i.e., missing values), tabulated cell values have been set to zero.
