National Postsecondary Student Aid Study

Jennifer S. Wine
John A. Riccobono
Education Studies Division
RTI International
What is the National Postsecondary Student Aid Study (NPSAS)?

- Periodic cross-sectional study of students enrolled in postsecondary education, at all levels, in a specific financial aid year

- Sponsored by the National Center for Education Statistics (NCES) in the Institute of Education Sciences, U S Department of Education

- Authorized by the Higher Education Opportunity Act of 2008, 20 U.S.C. 1015(d) which charges NCES with collecting information from aid recipients in the United States
To understand how students and their families finance postsecondary education, NPSAS provides data on:

- Current costs of postsecondary education
- Resources used by students to meet those costs, including financial aid received, employment, and family support
- The student...
  - Enrollment status and history
  - Education experiences
  - Background
- Issues specific to the longitudinal cohorts...
  - Goals, education and career plans, decision making
2-stage sampling design with multiple sources of data:

- **Institution sample:**
  - Institution frame created from NCES’ Integrated Postsecondary Education Data System (IPEDS)
  - Up to 1,800 institutions are sampled from the frame.

- **Student sample:**
  - Sampled institutions provide enrollment lists of students for a given financial aid year.
  - Students are sampled from within each institution, for a total study sample of up to 140,000 students.
NPSAS collects data, on a flow basis, from multiple sources:

- **Institutions:**
  - Enrollment list
  - Student-level institution record abstraction

- **Students:**
  - Interview

- **Federal and nonfederal administrative data bases:**
  - Matching based on SSN
  - e.g., CPS, NSLDS, National Student Clearinghouse, ACT, SAT
Serves as the base year data collection for two longitudinal studies

- The *Beginning Postsecondary Students Longitudinal Study* (BPS) which follows first time college students, all levels
- The *Baccalaureate and Beyond Longitudinal Study* (B&B), following new bachelor’s degree recipients, with a special focus on new teachers
NPSAS – National Postsecondary Student Aid Study
BPS – Beginning Postsecondary Students Longitudinal Study
B&B – Baccalaureate and Beyond Longitudinal Study
PETS – Postsecondary Education Transcript Study
Challenge – Declining Student Interview Response Rates

- Screening devices
- Increased use of cell phones with associated drop in use of land lines
- Unconventional schedules of the postsecondary student populations
- Concerns for disclosure
- Agency budget constraints
- Tight schedules for timely release of data
- NCES Statistical Standards
1. Innovative locating and contacting strategies

2. Interviews conducted in up to 3 web-based modes – self-administered interview, telephone interview, in-person interview – across 3 phases

3. Strategic use of incentives
Innovations in Contacting Sample Members

- Sources for student locating information
  - Enrollment lists
  - Updates via study websites
  - Student record abstractions
  - Administrative record matching
  - NCOA, FastData, and other vendors
  - Prior interviews
- Tracing conducted at multiple time points
- Data collection announcements sent via US mail and email virtually simultaneously
- Subsequent contacts alternated among various options – email and telephone prompts, letters, and postcards
Welcome to the 2011-12
National Postsecondary Student Aid Study (NPSAS)

To access the NPSAS survey, enter your Study ID and password, which are printed on the letter that was recently mailed to you or included in an e-mail message you may have received. We recommend that you use Internet Explorer, Firefox, Chrome or Safari as your browser to complete the survey. Your password is case sensitive; please enter it exactly as it appears.

GET STARTED!

Study ID: [blank] Password: [blank] LOGIN

Need your Study ID number or password?

If you need assistance, send an e-mail to npsas@rti.org or call the Help Desk at 1-877-NPSAS-NOW (1-877-677-2766).

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0666. The time required to complete this information collection is estimated to average 38 minutes per response, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate or suggestions for improving this survey, please write to: U.S. Department of Education, Washington, DC 20202-4437. If you have any comments or concerns regarding the status of your individual submission of this survey, write directly to: The 2011-12 National Postsecondary Student Aid Study (NPSAS:12), National Center for Education Statistics, 1990 K Street, NW, Washington, DC 20006.
Personalized Contacting Materials

2011-12 National Postsecondary Student Aid Study

Christopher,
complete a 25 minute interview and receive $30 for your time!

➢ To complete the web interview over our secure website, log on to https://surveys.nces.ed.gov/npsas/

   Your Study ID is: ABCabc
   Your Password is: XYZxyz
   (Please enter uppercase and lowercase letters as they appear.)

➢ To complete the telephone interview with a professional interviewer, or for help completing the web interview, please call 1-877- NPSAS-NOW (1-877-677-2766).
Experimenting with Contacting Procedures

- Use of Federal Express and US Express Mail
- Envelope sizes
- Telephoned reminders
- Sources of passwords for web survey
- Prepaid incentives (cash and check)
- Inclusion of non-monetary gifts
- Frequency of prompts
The Latest... Stop Action You Tube Video

- Highlights purposes of NPSAS:12 and ways to participate;
- Offers college-age sample an alternative to letters, emails, and other mailings; and
- Establishes a common visual element for “brand recognition” as sample members move into the longitudinal follow up studies.
Beginning with the 2003 data collection for the B&B longitudinal study, a self-administered survey option, developed on the web, was added to all student data collections, including NPSAS.

Same interview programmed for use across modes.

Adopted a 3-phase, sequential approach to data collection intended to minimize costs while maximizing responses per unit of time.
Phases in Multimode Interviewing

- **Phase 1 – Self-Administered Interview**
  - Offered at the start of data collection to the greatest number of sample members
  - Specially-trained Help Desk staff troubleshoot web survey and computer problems
  - Primary mode of data collection for first X weeks of data collection
  - Telephone interviews can be completed by Help Desk staff at sample member’s request – “call ins”
  - Sample prompted by regular mail, email, and sometimes with telephoned messages
  - Least expensive option
NPSAS Interview: Sample Question

Did you apply for financial aid for the 2010-2011 school year?

- Yes
- No
For how many of the 6 AP exams on which you scored a 3 or greater did UNC-Chapel Hill...

Please consider answering this important question as best you can. Information you provide gives us the unique opportunity to learn more about the ability of students and their families to pay for college.

What was your parents' or guardians' combined income in calendar year 2010 (January 1, 2010 through December 31, 2010)? If your parents are divorced and the parent you lived with more during the past 12 months is remarried, tell us about the combined income of that parent and the person he or she is married to.

- Under $30,000
- $30,000 to $59,999
- $60,000 to $89,999
- $90,000 to $119,999
- $120,000 and above
- Don't know
- Parents (or guardians) are deceased
Phase 1: Multimode Interviewing Process

Phase 1
Early Response Period
(Up to 4 weeks)

Self-administered Interview
with Help Desk for Call Ins

Completed?

Yes
Done

No

Prompt Sample Member
Phase 2 – Outbound Telephone Interviewing

- Traditional telephone interviewing or Computer Assisted Telephone Interviewing (CATI) with specially-trained interviewers
- Uses same HTML-based instrument as web survey, with embedded interviewer instructions
- Often serves to prompt sample members to complete the web survey
- Sample members can switch between modes to complete the survey
- More costly than web surveys
Overall, which best describes your grades at UNC-Chapel Hill?

- Mostly A's
- A's and B's
- Mostly B's
- B's and C's
- Mostly C's
- C's and D's
- Mostly D's or below
- Don't know my grades
- I would describe my grades differently than what is listed here
Is your grade point average (GPA) at UNC-Chapel Hill measured on a 4.00 scale?

- Yes
- No, it is measured on another grading scale (for example, percentages)
- No, the school does not award grades
- No, it is pass/fail
- Don't know
Phase 2: Multimode Interviewing Process

Completed? Yes  Done

No

Self-Administered and Outbound Telephone Interviews

Completed? Yes

No

Phase 2
Production Interviewing
(Up to 15 call attempts)
Phase 3 – Nonresponse Conversion and Field Interviewing

- NPSAS Cross-sectional Study:
  - Traditional telephone interviewing with specially-trained refusal converters
- BPS and B&B Longitudinal Studies:
  - Traditional telephone interviewing with specially-trained refusal converters
  - In-person interviewing or Computer Assisted Personal Interviewing (CAPI) with specially-trained field staff
- Uses same HTML-based instrument as web survey, with embedded interviewer instructions
- Once moved to the field, sample members cannot easily switch between modes to complete the survey
- Most costly data collection method
Assignment of Field Interviewers by Geographic Cluster: BPS:04/06

Top 65 Clusters by Simple Count
Varying 50 and 75 Mile Radii

- Green numbers are the rank of the 50 mile radius clusters
- Blue numbers are the rank of the 75 mile radius clusters
- Black numbers are the total number of cases within the cluster

RTI International
Step 3: Multimode Interviewing Process

Phase 3
Nonresponse Conversion (With refusal or call criteria met)

- Completed?
  - Yes → Done
  - No → Self-Administered and Outbound Telephone Interviews

- No → Longitudinal cohort and in geographic cluster?
  - Yes → In Person Interviews
  - No → Self-Administered and Outbound Telephone Interviews
Multimode Interviewing Process

Phase 1
Early Response Period
(Up to 4 weeks)

Self-administered Interview with Help Desk for Call Ins

Completed?
Yes → Done
No → Phase 2

Phase 2
Production Interviewing
(Up to 15 call attempts)

Self-Administered and Outbound Telephone Interviews

Completed?
No < Max → Yes → Done
No > Max → Phase 3

Phase 3
Nonresponse Conversion
(With refusal or call criteria met)

Self-Administered and Outbound Telephone Interviews

Longitudinal cohort and in geographic cluster?
No → Phase 2
Yes → In Person Interviews
Percent of Completed Interviews, by Mode: NPSAS:08

- Self-administered interview: 69%
- Telephone interview: 31%
Percent of Completed Interviews, by Mode: BPS:04/06

- Self-administered interview: 58%
- Telephone interview: 39%
- In person interview: 3%
Beginning with the 2003 data collection for the B&B longitudinal study, an incentive was offered for interviews completed during the early response and nonresponse conversion phases.

Each of the postsecondary studies has experimented with approaches to incentives, including:

- Larger dollar amounts for early completion and nonresponse conversion, with no incentive or smaller dollar amounts during production interviewing
- Gift certificates as alternatives to checks
- Prepaid incentives – cash and check
- Lower/higher incentives paid according to modeled propensity to respond
Incentive Plan with Multimode Survey Approach: NPSAS:08

**Phase 1: Early Response Period**
- Self-administered Interview with Help Desk for Call Ins
  - Completed? Yes → Done
  - No → Phase 2
- $30

**Phase 2: Production Interviewing**
- Self-Administered and Outbound Telephone Interviews
  - Completed? Yes → Phase 3
  - No >Max
  - No <Max → Phase 2
- $0

**Phase 3: Nonresponse Conversion**
- Self-Administered and Outbound Telephone Interviews
  - Longitudinal cohort and in geographic cluster? No → Phase 3
  - Yes → In Person Interviews
- $30
Percent of Completed Interviews, by Data Collection Phase: NPSAS:08

Data collection phase:
- Early response: 48% (Early response:0 ($30))
- Production: 11% (Production:0 ($0))
- Response conversion: 41% (Response conversion:0 ($30))
Recent Interview Response Rates

- **NPSAS**
  - 2004 – 70.6 percent
  - 2008 – 71.1 percent

- **Baccalaureate and Beyond Longitudinal Study**
  - 2003 – 83.4 percent
  - 2009 – 78.3 percent*

- **Beginning Postsecondary Students Longitudinal Study**
  - 2006 – 77.2 percent
  - 2009 – 80.2 percent*

*Preliminary rates, not for release.
