## Project 3: Adding More Detail About Expenditures

## Project 3

What if you want to know about specific types of education expenses? We can use the monthly expenditure file (MTBI) to add information to our dataset

In this project you will:

- Learn more about the MTBI file
- Create detailed summarized estimates from the MTBI file

## Project 3 Steps

1. Concatenate 4 quarterly MTBI files to obtain collection year of data
2. Calculate totals by number of children for each NEWID using the following education expense groupings.

| Tuition: | $670110,670210,670410,670901$ |
| :--- | :--- |
| Test preparation and tutoring services: | 670903 |
| School books, supplies, and equipment: | $660110,660210,660410,660901,660902$ |
| Other school expenses including rentals: | 670902 |

3. Merge new expenditure groups with the FMLI information
4. Calculate means, standard errors, and percent reporting
