

National Compensation Survey: Employee Benefits in the United States, March 2010

U.S. Department of Labor
Hilda L. Solis, Secretary

U.S. Bureau of Labor Statistics
Keith Hall, Commissioner
September 2010

Bulletin 2752

Contents

Overview

Tables organized by ownership

- [Civilian](#) (includes private industry and State and local government establishments)
- [Private industry](#) (excludes agricultural establishments, private households, and the self-employed)
- [State and local government](#) (excludes Federal employees)

Technical note

Appendix table 1: Survey establishment response

Appendix table 2: Number of workers represented

(NOTE: Some estimates that include access to paid sick leave benefits were corrected in the [BLS database](#) on December 7, 2017. For additional information about this correction, see www.bls.gov/bls/errata/ebs-errata-07212017.htm.)

Overview

The National Compensation Survey (NCS) provides comprehensive measures of occupational earnings, compensation cost trends, as well as incidence and detailed provisions of employee benefit plans. This bulletin presents estimates of the incidence and key provisions of selected employee benefit plans. Estimates presented are on benefits for civilian workers—workers in private industry and in State and local government—by various employee and employer characteristics. For the purposes of the NCS, Federal Government, agricultural, and household workers, and the self-employed, are excluded.

Questions regarding these data and recent and historical NCS benefits data can be addressed by calling the information line at (202) 691–6199 or by e-mailing NCSInfo@bls.gov. Information is available to sensory-impaired individuals upon request, telephone: (202) 691–5200; Federal Relay Service: (800) 877–8339. Data requests may also be sent by mail to the U.S. Bureau of Labor Statistics, Division of Compensation Data Analysis and Planning, 2 Massachusetts Avenue, NE., Room 4175, Washington, DC 20212. Material in this publication is in the public domain and, with appropriate credit, may be reproduced without permission.

U. S. Bureau of Labor Statistics (BLS) field economists collected and reviewed the survey data. The Office of Compensation and Working Conditions, in cooperation with the Office of Field Operations and the Office of Technology and Survey Processing (all in the BLS National Office), designed the survey, processed the data, and prepared the survey for publication. The survey could not have been conducted without the cooperation of the many private businesses and State and local government agencies and jurisdictions that provided benefits data included in this bulletin. BLS thanks these respondents for their cooperation.

Civilian Tables

Types of Benefits

- Retirement Benefits
- Health Care Benefits
- Life, Short-term Disability, and Long-term Disability Insurance Benefits
- Holiday, Vacation, Sick, and Other Leave Benefits
- Other Benefits
- Benefit Combinations

Table 2. Retirement benefits: Access, participation, and take-up rates,¹ civilian workers,² National Compensation Survey, March 2010

(All workers = 100 percent)

Pacific	66	54	82	32	31	95	49	36	72

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ Includes defined benefit pension plans and defined contribution retirement plans. Workers are considered as having access or as participating if they have access to or participating in at least one of these plan types.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Plans closed to new workers or plans that cease accruals for some or all plan participants.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ Benefit accruals are for existing participants since the plan was closed to new workers or stopped accruing benefits.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and

below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ Health care is a collective term for the following benefits: medical, dental, and

vision care benefits; and outpatient prescription drug coverage. If workers have access to or participate in at least one of these benefits, they are considered as having access to or participating in health care.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The

average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The

average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey:

Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

³ Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

⁴ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁵ Less than 0.5 percent.

⁶ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

³ Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

⁴ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁵ Less than 0.5 percent.

⁶ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers pay the same as or more than the premium shown, and half pay the same as or less than the premium shown. At the 25th percentile, one-fourth of participating workers pay the same or less than the premium shown. The remaining percentiles follow the same

logic.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebbs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² Includes participants in plans in which insurance equaled a multiple of earnings plus or minus a specified amount.

³ Less than 0.5 percent.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes participants in plans providing a fixed benefit amount. Dollar amounts can be a flat amount or can vary by the employee's earnings or length of service.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers receive the same as or more than the amount shown, and half receive the same as or less than the amount shown. At the 25th percentile, one-fourth of participating workers receive the same or less

than the amount shown. The remaining percentiles follow the same logic.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² Employer assumes all risks and expenses of providing the benefit.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Pacific	88	12	25	26	26	26	12

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

³ The categories are based on the average wage for each occupation

surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Mountain	60	400	750	1,000	2,308	3,500	40
Pacific	70	135	200	546	1,500	2,308	30

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

³ The categories are based on the average wage for each occupation

surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

³ The categories are based on the average wage for each occupation

surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

³ The categories are based on the average wage for each occupation

surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² Less than 0.5 percent.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Employees either are granted a specific number of days after completion of the indicated length of service or accrue days during the next 12-month period. The total number of days is assumed to be available for use immediately upon completion of the service interval. Periods of service are chosen arbitrarily and do not necessarily reflect individual provisions for progression.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ Employees eligible for paid sick leave but who have not fulfilled the minimum service requirement are included as receiving 0 days.

⁴ Less than 0.5 percent.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Employees either are granted a specific number of days after completion of the indicated length of service or accrue days during the next 12-month period. The total number of days is assumed to be available for use immediately upon completion of the service interval. Periods of service are chosen arbitrarily and do not necessarily reflect individual provisions for progression.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ Employees eligible for paid sick leave but who have not fulfilled the minimum service requirement are included as receiving 0 days.

⁴ Less than 0.05.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A consolidated leave plan provides a single amount of time-off for workers to use for multiple purposes, such as vacation, illness, or personal business. Those with no consolidated leave plan often have separate leave plans for different purposes.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below

the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A consolidated leave plan provides a single amount of time-off for workers to use for multiple purposes, such as vacation, illness, or personal business. Those with no consolidated leave plan often have separate leave plans for different purposes.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

³ The categories are based on the average wage for each occupation

surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See Technical Note for further explanation.

² Includes all other bonuses provided to employees and not published separately.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey:

Occupational Earnings in the United States, 2009." See Technical Note for more details.

⁴ Less than 0.05.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes defined benefit pension plans and defined contribution retirement plans. Workers are considered as having access or as participating if they have access to or participating in at least one of these plan types.

³ The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note

for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage. If workers have access to or participate in at least one of these benefits, they are considered as having access

to or participating in health care.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage. If workers have access to or participate in at least one of these benefits, they are considered as having access

to or participating in health care.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational

Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁴ Less than 0.5 percent.

⁵ The categories are based on the average wage for each occupation surveyed,

which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁴ Less than 0.5 percent.

⁵ The categories are based on the average wage for each occupation surveyed,

which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers pay the same as or more than the premium shown, and half pay the same as or less than the premium shown. At the 25th percentile, one-fourth of participating workers pay the same or less than the premium shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational

Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Mountain	10,000	10,000	15,000	25,000	50,000
Pacific	5,000	10,000	15,000	25,000	50,000

¹ Includes participants in plans providing a fixed benefit amount. Dollar amounts can be a flat amount or can vary by the employee's earnings or length of service.

² The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers receive the same as or more than the amount shown, and half receive the same as or less than the amount shown. At the 25th percentile, one-fourth of participating workers receive the same or less than the amount shown. The remaining percentiles follow the same logic.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the

threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. ¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the

threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Less than 0.5 percent.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based

on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Table 35. Paid sick leave: Number of annual days by service requirement,¹ private industry workers, National Compensation Survey, March 2010

(All workers with fixed number of days per year sick leave plans = 100 percent)

Characteristics	Paid sick leave days by length of service ²					Mean number of days	Median number of days

¹ Employees either are granted a specific number of days after completion of the indicated length of service or accrue days during the next 12-month period. The total number of days is assumed to be available for use immediately upon completion of the service interval. Periods of service are chosen arbitrarily and do not necessarily reflect individual provisions for progression.

² Employees eligible for paid sick leave but who have not fulfilled the minimum service requirement are included as receiving 0 days.

³ Less than 0.5 percent.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A consolidated leave plan provides a single amount of time-off for workers to use for multiple purposes, such as vacation, illness, or personal business. Those with no consolidated leave plan often have separate leave plans for different purposes.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in

the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A workplace program that provides for either the full or partial cost of caring for an employee's children in a nursery, day care center, or a baby sitter in facilities either on or off the employer's premises.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National

Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A health plan that provides long-term (more than 1 year) custodial care, home care, or nursing home care.

² A health plan that provides coverage to a retiree beyond what is mandated by COBRA or other health continuation laws.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Less than 0.5 percent.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes defined benefit pension plans and defined contribution retirement plans. Workers are considered as having access or as participating if they have access to or participating in at least one of these plan types.

³ The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Pacific	1.1	1.4	0.7	1.6	1.8	0.9	3.6	3.4	2.2

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Includes defined benefit pension plans and defined contribution retirement plans. Workers are considered as having access or as participating if they have access to or participating in at least one of these plan types.

³ The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Table 3. Defined benefit retirement plans: Employee contribution requirement and method of contribution, State and local government workers, National Compensation Survey, March 2010

(All workers participating in defined benefit plans = 100 percent)

¹ The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

² Health care is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage. If workers have access to or participate in at least one of these benefits, they are considered as having access to or participating in health care.

³ The categories are based on the average wage for each occupation surveyed,

which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Mountain	90	10	69	31
Pacific	87	13	79	21

¹ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Pacific	100	64	—	22	8	—	2	—

¹ A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁴ Less than 0.5 percent.

⁵ The categories are based on the average wage for each occupation surveyed,

which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁴ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The

average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

⁵ Less than 0.05.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Pacific	0.0	3.0	—	1.7	0.9	—	—	—

¹ A composite rate is a set contribution covering more than one benefit area, for example, health care and life insurance. Cost data for individual plans cannot be determined.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Amount varies by options selected under a "cafeteria plan" or employer-sponsored reimbursement account.

⁴ Less than 0.05.

⁵ The categories are based on the average wage for each occupation surveyed,

which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers pay the same as or more than the premium shown, and half pay the same as or less than the premium shown. At the 25th percentile, one-fourth of participating workers pay the same or less than the premium shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers pay the same as or more than the premium shown, and half pay the same as or less than the premium shown. At the 25th percentile, one-fourth of participating workers pay the same or less than the premium shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which

may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

East North Central	55	—	—	—	—	—	45
South Atlantic	96	—	—	—	—	—	4
Pacific	91	—	—	—	—	—	9

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Table 25. Standard errors for short-term disability plans: Duration of benefits, State and local government workers, National Compensation Survey, March 2010—Continued

Characteristics	Fixed duration	Number of weeks ¹					Duration varies
		10th percentile	25th percentile	50th percentile (median)	75th percentile	90th percentile	
State government	0.9	—	—	—	—	—	0.9
Local government	2.4	—	—	—	—	—	2.4
Geographic areas							
Middle Atlantic	2.6	0.0	0.0	0.0	0.0	0.0	2.6
East North Central	7.4	—	—	—	—	—	7.4
South Atlantic	1.3	—	—	—	—	—	1.3
Pacific	2.8	—	—	—	—	—	2.8

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the

threshold. The average wages are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Mountain	46	—	—	—	—	—	54
Pacific	62	3,000	5,000	5,000	7,000	10,000	38

¹ The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of the participating workers receive the same as or more than the benefit shown, and half receive the same as or less than the benefit shown. At the 25th percentile, one-fourth of the participating workers receive the same or less than the benefit shown. The remaining percentiles follow the same logic.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Employees either are granted a specific number of days after completion of the indicated length of service or accrue days during the next 12-month period. The total number of days is assumed to be available for use immediately upon completion of the service interval. Periods of service are chosen arbitrarily and do not necessarily reflect individual provisions for progression.

² Employees eligible for paid sick leave but who have not fulfilled the minimum service requirement are included as receiving 0 days.

³ Less than 0.5 percent.

NOTE: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ Employees either are granted a specific number of days after completion of the indicated length of service or accrue days during the next 12-month period. The total number of days is assumed to be available for use immediately upon completion of the service interval. Periods of service are chosen arbitrarily and do not necessarily reflect individual provisions for progression.

² Employees eligible for paid sick leave but who have not fulfilled the

minimum service requirement are included as receiving 0 days.

³ Less than 0.05.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A consolidated leave plan provides a single amount of time-off for workers to use for multiple purposes, such as vacation, illness, or personal business. Those with no consolidated leave plan often have separate leave plans for different purposes.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in

the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

¹ A consolidated leave plan provides a single amount of time-off for workers to use for multiple purposes, such as vacation, illness, or personal business. Those with no consolidated leave plan often have separate leave plans for different purposes.

² The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in

the "National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Table 40. Health-related benefits: Access, State and local government workers, National Compensation Survey, March 2010—Continued

(All workers = 100 percent)

Characteristics	Long-term care insurance ¹	Retiree health care benefits ²	
		Under age 65	Age 65 and over
State government	43	83	80
Local government	22	66	60
Geographic areas			
Middle Atlantic	16	85	82
East North Central	16	54	49
West North Central	—	57	40
South Atlantic	44	75	68
East South Central	—	58	51
West South Central	21	75	69
Mountain	24	69	71
Pacific	42	75	73

¹ A health plan that provides long-term (more than 1 year) custodial care, home care, or nursing home care.

² A health plan that provides coverage to a retiree beyond what is mandated by COBRA or other health continuation laws.

³ The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2009." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

2009." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20092010.htm.

Technical note

Estimates in this publication are from the National Compensation Survey (NCS), conducted by the U.S. Department of Labor, Bureau of Labor Statistics (BLS). Data were collected on civilian, private industry, and State and local government workers in the United States for the period March 2010. Previous publications containing information on employee benefits for private industry and State and local government workers are available on the BLS Web site <http://www.bls.gov/ncs/ebs>.

Survey scope and method

For information on the survey scope, sample design, industry and occupational classification systems, data collection, survey estimation, and reliability of estimates, see the *BLS Handbook of Methods*, Chapter 8, “National Compensation Measures,” available online at http://www.bls.gov/opub/hom/homch8_a.htm. For information on survey establishment response and on the number of workers represented by the survey, see Appendix tables 1 and 2, respectively, linked below.

[Appendix table 1](#)

[Appendix table 2](#)

Calculation details

Averages for occupations within an establishment were used to produce estimates for worker groups averaging hourly pay within the six earnings categories: Lowest 10 percent, lowest 25 percent, second 25 percent, third 25 percent, highest 25 percent, and highest 10 percent. The categories are computed using earnings reported for individual workers in sampled establishment jobs and their scheduled hours of work. Establishments in the survey may report only individual worker earnings for each sampled job.

For the calculation of these estimates, the individual worker hourly earnings are appropriately weighted and then arrayed from lowest to highest.

The published 10th, 25th, 50th, 75th, and 90th percentiles designate position in the earnings distribution within each published occupation. At the 50th percentile, the median, half of the hours are paid the same as or more than the rate shown in the data tables, and half are paid the same as or less than the rate shown. At the 25th percentile, one-fourth of the hours are paid the same as or less than the rate shown. At the 75th percentile, one-fourth of the hours are paid the same as or more than the rate shown. The 10th and 90th percentiles follow the same logic. The percentile values are based on wages published in the bulletin *National Compensation Survey: Occupational Earnings in the United States, 2009*. Values corresponding to the percentiles used in the tables are as follows:

Characteristics	Hourly wage percentiles				
	10	25	50 (median)	75	90
Civilian workers	\$8.40	\$11.11	\$16.55	\$25.97	\$38.60
Private industry workers	\$8.10	\$10.63	\$15.70	\$24.53	\$37.02
State and local government workers	\$11.64	\$15.35	\$22.04	\$32.53	\$44.48

The tables on employer and employee medical premiums include participants in all medical plans, with calculations for both single and family coverage. Similar tables for health premiums (which include data on medical, dental, vision, and prescription drug plan coverage) are also published. The calculations are not based on actual decisions regarding coverage made by employees within the occupations. Rather, the premium calculations are based on the assumption that all employees in the occupation have identical coverage.

Interpreting the tables

The set of workers on which estimates in the tables are based is indicated by the statement directly under each table's title. For example, the statement may indicate that "All workers participating in medical care plans = 100 percent," or "Includes all workers participating in savings and thrift plans that specify matching contributions." All estimates shown in the table are based on the given set of workers and on any subsets indicated by column headers.

Most of the tables in this bulletin exhibit the percentage of employees participating in a particular benefit plan. Some tables provide estimates on other types of percentages, such as the percent of a medical premium cost shared by employers and employees or a medical co-payment percentage. Some tables exhibit estimates on the number of days provided and on dollar amounts; these may be expressed as averages, medians, or percentiles.

Finally, some tables contain data on percentages of workers and provision estimates. For example, one table indicates the percent of workers with fixed duration short-term disability plans, the number of weeks at the 10th, 25th, 50th, 75th, and 90th percentiles for workers with fixed duration plans, and the percent of workers with variable duration plans. The base of this table is all workers with short-term disability coverage. The non-shaded estimates are percentages of workers with fixed duration and with variable duration plans. To indicate values other than percentages of workers, the columns with the number of weeks at a particular percentile are shaded.

Benefit definitions

For definitions of major plan types, key provisions, and related terms used in these tables, see the *Glossary of Employee Benefit Terms*, July 2010, at the BLS Web site <http://www.bls.gov/ncs/ebs/glossary20092010.htm>.

Appendix table 1. Survey establishment response, National Compensation Survey, March 2010

Establishments	Total	Private industry	State and local governments
Total in sampling frame ¹	5,224,243	5,008,241	216,002
Total in sample	18,174	16,151	2,023
Responding	10,791	9,018	1,773
Refused or unable to provide data	4,704	4,476	228
Out of business or not in survey scope	2,679	2,657	22

¹ The list of establishments from which the survey sample was selected (sampling frame) was developed from State unemployment insurance reports and is based on the 2007 North American Industry Classification System (NAICS). For private

industries, an establishment is usually a single physical location. For State and local governments, an establishment is defined as all locations of a government entity.

Appendix table 2. Number of workers¹ represented, National Compensation Survey, March 2010

Occupational group ²	Civilian workers	Private industry workers	State and local government workers
All workers	118,042,100	98,779,100	19,263,000
Management, professional, and related	34,559,900	23,948,400	10,611,500
Management, business, and financial ...	9,109,700	7,498,000	—
Professional and related	25,450,100	16,450,400	8,999,800
Teachers	6,361,600	—	4,971,400
Primary, secondary, and special education school teachers	4,273,900	—	3,671,500
Registered nurses	2,588,700	—	—
Service	25,604,400	21,495,200	4,109,200
Protective service	3,048,300	1,188,000	1,860,300
Sales and office	30,859,100	28,061,600	2,797,500
Sales and related	11,326,200	11,175,200	—
Office and administrative support	19,532,900	16,886,400	2,646,400
Natural resources, construction, and maintenance	9,664,200	8,691,200	972,900
Construction, extraction, farming, fishing, and forestry	4,865,200	4,327,200	—
Installation, maintenance, and repair	4,798,900	4,364,000	—
Production, transportation, and material moving	17,354,500	16,582,600	771,900
Production	8,479,200	8,352,300	—
Transportation and material moving	8,875,200	8,230,300	—

¹ The number of workers represented by the survey are rounded to the nearest 100. Estimates of the number of workers provide a description of the size and composition of the labor force included in the survey. Estimates are not intended, however, for comparison to other statistical series to measure employment trends or levels.

² The 2000 Standard Occupational Classification system is used to classify workers.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data did not meet publication criteria.
