When output grows faster than hours worked, productivity (output per hour) rises.

- Manufacturing output decreased in 18 out of 23 selected countries between 2007 and 2010, causing relatively slow growth in manufacturing labor productivity for most countries during this period.

- In contrast to the 2007 to 2010 period, output increased in 21 out of 23 selected countries from 2000 to 2007.
