See footnotes at end of table.

TABLE R73. Incidence rates<sup>1</sup> for nonfatal occupational injuries and illnesses involving days away from work<sup>2</sup> per 10,000 full-time workers by part of body affected by injury or illness and industry sector, private industry, 2011<sup>3</sup> — Continued

| Part of body                 | Part of body code <sup>4</sup> | Private industry <sup>5,6,7</sup> | Goods producing       |   |              |               | Service providing       |  |             |                      |                                    |                               |                         |                |
|------------------------------|--------------------------------|-----------------------------------|-----------------------|---|--------------|---------------|-------------------------|--|-------------|----------------------|------------------------------------|-------------------------------|-------------------------|----------------|
|                              |                                |                                   | Total goods producing | Natural resources and mining <sup>5,6</sup> | Construction | Manufacturing | Total service providing | Trade, transportation and utilities <sup>7</sup> | Information | Financial activities | Professional and business services | Education and health services | Leisure and hospitality | Other services |
| <b>Nonclassifiable</b> ..... | 9999                           | 0.7                               | 0.6                   | 0.7   | 0.6          | 0.6           | 0.8                     | 0.9  | 0.2         | 0.2                  | 0.7                                | 1.1                           | 0.7                     | 0.3            |

<sup>1</sup> The incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000, where

N = number of injuries and illnesses

EH = total hours worked by all employees during the calendar year

20,000,000 = base for 10,000 equivalent full-time workers

(working 40 hours per week, 50 weeks per year)

<sup>2</sup> Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction.

<sup>3</sup> Incorrect national-level estimates of nonfatal occupational injuries and illnesses were published for the Survey of Occupational Injuries and Illnesses (SOII) for reference year 2011. This table includes corrected estimates. For additional information see: [https://www.bls.gov/bls/errata/iif\\_errata\\_1014.htm](https://www.bls.gov/bls/errata/iif_errata_1014.htm).

<sup>4</sup> Based on the Occupational Injury and Illness Classification System 2.01 developed by the Bureau of Labor Statistics.

<sup>5</sup> Excludes farms with fewer than 11 employees.

<sup>6</sup> Data for Mining (Sector 21 in the *North American Industry Classification System*-- United States, 2007) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.

<sup>7</sup> Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation.

<sup>8</sup> Data too small to be displayed.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
