		Lower	extremities	Dody	Multiple	All				
	Total	Knee	Ankle	Foot	Body systems	body parts	other body parts ⁶			
Nonclassifiable	0.1	0.1	(7)	(7)	(7)	(7)	0.4			

¹ Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000 where

Ν = number of injuries and illnesses EΗ = total hours worked by employees during the calendar year

20.000.000 = base full-time for 10.000 equivalent workers (working 40 hours per week, 50 weeks per year)

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.

Source: Bureau of Labor Statistics, U.S. Department of Labor, Survey of Occupational Injuries and Illnesses in cooperation with participating State agencies.

² Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction.

Based on the Occupational Injury and Illness Classification System 2.01 developed by the Bureau of Labor Statistics.
 Excludes farms with fewer than 11 employees.

⁵ Data shown in columns correspond to the following Part of body codes: Head, Total = 1; Eyes = 132; Neck = 2; Trunk, Total = 3; Back = 32; Upper extremities, Total = 4; Shoulder = 41; Arm = 42; Hand = 44; Wrist = 43; Lower extremities, Total = 5; Knee = 512; Ankle = 52; Foot = 53; Body systems = 6; Multiple body parts = 8; All other body parts = remaining codes, including 9999 (Nonclassifiable). These codes are based on the Occupational Injury and Illness Classification System 2.01 developed by the Bureau of Labor Statistics.

⁶ Includes nonclassifiable responses.

Data too small to be displayed.
