1 Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction
2 Data shown in columns correspond to the following Event codes: Contact with objects, Total =6; Struck by object = 62; Struck against object =63; Caught in or compressed or crushed = 64; Falls slips, trips, Total $=4$; Fall to lower level $=43$; Fall on same level $=42$; Slips or trips without fall $=41$; Overexertion and bodily reaction, Total $=7$; In lifting $=711$; Repetitive motion $=72$; Exposure to harmful substance or environment $=5$; Transportation accidents, Total $=2$; Roadway accident $=26$; Fires and explosions $=3$; Violence and other injuries by persons or animals, Total $=1$; Intentional injury by other person = 111; Injury by person-unintentional or intent unknown = 12; Animal and other insect related = 13; All other events = all remaining codes, including 9999 (Nonclassifiable). These codes are based on the Occupational Injury and linness Classification System 2.01 developed by the Bureau of Labor Statistics

3 Totals include data for industries not shown separately.
${ }_{5}{ }_{5}$ North American Industry Classification System — United States, 2007.
5 Includes nonclassifiable responses.
6 Excludes farms with fewer than 11 employees.
7 Data for Mining (Sector 21 in the North American Industry Classification System-- United States, 2007) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupationa Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries

9 Data too small to be displayed.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals Source: Bureau of Labor Statistics, U.S. Department of Labor, Survey of Occupational Injuries and Illnesses in cooperation with participating State agencies.
