

Among service-providing industry sectors, transportation and warehousing experienced the highest rate of injuries in 2006—6.3 cases per 100 full-time employees.

Finance and insurance experienced the lowest injury rate among the service-providing sectors—0.8 case per 100 full-time employees—followed by professional, scientific, and technical services (1.1).

Of the 15 service-providing sectors, 7 experienced significant declines in their respective injury rates in 2006: wholesale trade (from 4.4 to 4.0); transportation and warehousing (6.7 to 6.3); utilities (4.2 to 3.7); finance and insurance (0.9 to 0.8); real estate and rental and leasing (3.6 to 3.1); professional, scientific, and technical services (1.3 to 1.1); and arts, entertainment, and recreation (5.8 to 4.9). Rates for the other eight sectors remained statistically unchanged compared with 2005 figures.

# CHART 12

## Total recordable nonfatal occupational injury incidence rates, by service-providing private industry sector, 2005–06
