

TABLE SNR06. **Highest incidence rates¹ of total nonfatal occupational injury cases, 2014**

Industry ²	NAICS code ³	Incidence rate
Nursing and residential care facilities (State government)	623	12.0
Rope, cordage, twine, tire cord, and tire fabric mills (Private industry)	314994	11.9
Fire protection (Local government)	92216	10.8
Skiing facilities (Private industry)	71392	10.6
Rendering and meat byproduct processing (Private industry)	311613	10.2
Police protection (Local government)	92212	9.5
Interurban and rural bus transportation (Private industry)	4852	9.4
Veterinary services (Private industry)	54194	9.4
Manufactured home (mobile home) manufacturing (Private industry)	321991	9.3
Travel trailer and camper manufacturing (Private industry)	336214	9.3
Truss manufacturing (Private industry)	321214	9.2
Hog and pig farming (Private industry)	1122	8.5
Prefabricated wood building manufacturing (Private industry)	321992	8.3
Steel foundries (except investment) (Private industry)	331513	8.3
Heavy and civil engineering construction (Local government)	237	8.2
Luggage and leather goods stores (Private industry)	44832	8.2
Materials recovery facilities (Private industry)	56292	8.2
Hospitals (State government)	622	8.2
Truck trailer manufacturing (Private industry)	336212	8.0
Iron foundries (Private industry)	331511	7.8
Aluminum foundries (except die-casting) (Private industry)	331524	7.8
Beef cattle ranching and farming, including feedlots (Private industry)	11211	7.7
Other concrete product manufacturing (Private industry)	32739	7.7
Scheduled passenger air transportation (Private industry)	481111	7.7
Other nonferrous metal foundries (except die-casting) (Private industry)	331529	7.6
All industries including state and local government⁴		3.2

¹ The incidence rates represent the number of injuries per 100 full-time workers and were calculated as: $(N/EH) \times 200,000$, where

N = number of injuries
 EH = total hours worked by all employees during the calendar year
 200,000 = base for 100 equivalent full-time workers (working 40 hours per week, 50 weeks per year)

² High rate industries were those having the highest incidence rate of total recordable cases of injuries and at least 500 total recordable cases at the most detailed level of publication, based on the *North American Industry Classification System* -- United States, 2012.

³ *North American Industry Classification System* — United States, 2012

⁴ Excludes farms with fewer than 11 employees.

NOTE: Dash indicates data do not meet publication guidelines.
