

Each year, the import and export price indexes are reviewed in order to verify the publication criteria of quality assurance and confidentiality protection. As part of that process, a number of new price indexes were introduced. The following is the list of newly published indexes that started with the release of the January 2021 indexes on February 18<sup>th</sup>, 2021. These price indexes have a base of December 2020 = 100 and are published for December 2020 onward.
