

California: Price Movements of Top Exports and Other Highlights

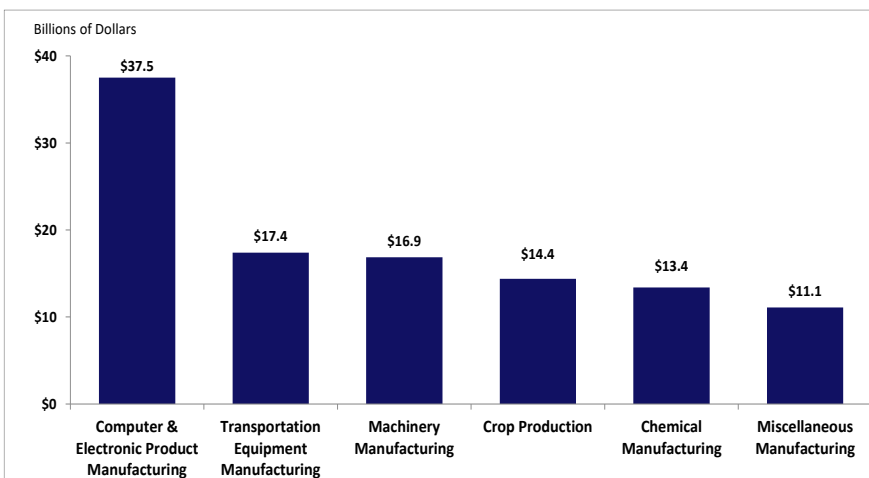

July 2021

www.bls.gov/mxp

In 2020, California ranked second among U.S. states and territories in total exports. The export dollar value from California totaled \$156.1 billion, a decrease of 9.9 percent from the 2019 value of \$173.3 billion. The price index for the top export industry in California, computer and electronic product manufacturing, advanced during the second quarter of 2021. The export price indexes for transportation equipment manufacturing, machinery manufacturing, and chemical manufacturing each increased over the same period.

Top Six California Exports by Trade Dollar Value, 2020

Source: U.S. Census Bureau, Foreign Trade Statistics.

- California accounted for 19.0 percent of total U.S. exports of computer and electronic product manufacturing by trade dollar value in 2020, ranking second among all states.
- In 2020, California accounted for 8.7 percent of total U.S. transportation equipment manufacturing exports, ranking third among all states
