Pacific .....	1.2	1.1	0.5	1.7	1.6	0.3	3.8	3.7	3.8

<sup>1</sup> The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation. See Technical Note for more details.

<sup>2</sup> Includes defined benefit pension plans and defined contribution retirement plans. Workers are considered as having access or as participating if they have access to or are participating in at least one of these plan types.

<sup>3</sup> The categories are based on the average wage for each occupation surveyed, which may include workers with earnings both above and below the threshold. The average wages

are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2010." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at [www.bls.gov/ncs/ebs/glossary20112012.htm](http://www.bls.gov/ncs/ebs/glossary20112012.htm).
