<sup>1</sup> Includes participants in plans providing a fixed benefit amount. Dollar amounts can be a flat amount or can vary by the employee's earnings or length of service.

<sup>2</sup> The 10th, 25th, 50th, 75th, and 90th percentiles designate position within each published series. For example, at the 50th percentile or median, half of participating workers receive the same as or more than the amount shown, and half receive the same as or less than the amount shown. At the 25th percentile, one-fourth of participating workers receive the same or less than the amount shown. The remaining percentiles follow the same logic.

<sup>3</sup> Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using ECEC data for March 2014.

Note: Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at [www.bls.gov/ncs/ebs/glossary20132014.htm](http://www.bls.gov/ncs/ebs/glossary20132014.htm).
