<sup>1</sup> The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation.

<sup>2</sup> Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using wage data for March 2017.

<sup>3</sup> Less than 0.05.

Note: Dash indicates no workers in this category or data did not meet publication criteria.
