Note: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20162017.htm.

Source: Bureau of Labor Statistics, National Compensation Survey.

The take-up rate is an estimate of the percentage of workers with access to a plan who participate in the plan, rounded for presentation.
 Healthcare is a collective term for the following benefits: medical, dental, and vision care benefits; and outpatient prescription drug coverage. If workers have access to or participate in at least one of these benefits, they are considered as having access to or participating in healthcare.

3 Surveyed occupations are classified into wage categories based on the average wage for the occupation, who are considered as having access to or participating in healthcare.

Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using wage data for March 2017.
