

MONTHLY LABOR REVIEW

Volume 133, Number 7
July 2010

Employment and earnings of recent veterans: data from the CPS 3

Recent male veterans and nonveterans had similar unemployment rates in 2009 while the unemployment rate of recent female veterans was higher than that of female nonveterans

James A. Walker

PPI and CPI seasonal adjustment: an update 10

BLS updates seasonal adjustment procedures for the PPI and CPI series that help develop a more unified and coordinated methodological approach

Jonathan C. Weinbagen, Jeffrey S. Wilson, and Steven M. Muri

Multiple jobholding during the 2000s 21

Both the number and percentage of workers with multiple jobs held steady during the period but remain below the levels from the mid-to-late 1990s

Steven F. Hipple

Regional trends

Multiple jobholding in U.S. States in 2009 33
