Volume 135, Number 4

April 2012

Women's employment, education, and the gender gap in 17 countries 3

Data from the Luxembourg Income Study indicate that women's employment is higher and earnings inequality is lower among the well educated than among those with less education

Paula England, Janet Gornick, and Emily Fitzgibbons Shafer

Employment projections through the lens of education and training 13

The new BLS education and training categories provide users with information on the education, training, and work experience requirements for occupations

Dixie Sommers and Teresa L. Morisi

Impact of commodity price movements on CPI inflation 29

An analysis of prices of four commodities—crops, animal slaughter and processing, dairy, and oil and gas—reveals that only oil and gas prices had a considerable impact on CPI inflation

Richa Ajmera, Nancy Kook, and Jeff Crilley

No longer tax exempt: income tax calculation in the Consumer Expenditure Survey 42

BLS has developed an experimental federal income tax calculator that, if used, could improve the quality of the aftertax income data in the Consumer Expenditure Survey
