Cashiers
Receive and disburse money in establishments other than financial institutions. May use electronic scanners, cash registers, or related equipment. May process credit or debit card transactions and validate checks.

Cognitive and mental requirements
The qualifications that workers need to use judgment, make decisions, interact with others, and adapt to changes in jobs.

In 2021, more than basic people skills were required for 12.6 percent of cashiers, and basic people skills were required for 87.4 percent.

Education, training, and experience requirements
The minimum level of formal education required, credentials necessary, on-the-job training, and prior work experience necessary for average performance in jobs.

In 2021, credentials were required for 6.6 percent of cashiers. Prior work experience was required for 2.9 percent.

No minimum education was required for 83.1 percent of cashiers.

Chart 1. Percentage of cashiers by specific preparation time (SVP) level, 2021

- Beyond short demonstration, up to and including 1 month (SVP 2): 96.6%
- Over 1 month, up to and including 3 months (SVP 3): 0.6%
- Over 3 months, up to and including 6 months (SVP 4): 0.8%
- Over 6 months, up to and including 1 year (SVP 5): 0.5%

Environmental conditions

The various tangible or concrete hazards or difficulties that are in the vicinity of where jobs’ critical tasks are performed.

In 2021, 89.9 percent of cashiers were not exposed to extreme cold, and 99.1 percent were not exposed to extreme heat. Wetness was not present for 47.7 percent, 100.0 percent were not exposed to heavy vibrations, and 75.6 percent were not exposed to the outdoors.

Physical demands

Refer to the physical activities required to perform tasks in jobs. The presence and, in some cases, duration of these activities are published.

In 2021, reaching at or below the shoulder was required for 97.4 percent of cashiers and was not required for 2.6 percent.

Performing work in low postures was required for 76.3 percent of cashiers and was not required for 23.7 percent.

The choice to sit or stand when performing critical tasks was available to 4.4 percent of cashiers. On average, workers spent 5.1 percent of the workday sitting and 94.9 percent of the workday standing.
