Average Energy Prices, Philadelphia-Wilmington-Atlantic City – July 2015

Gasoline prices averaged \$2.754 a gallon in the Philadelphia-Wilmington-Atlantic City area in July 2015, the U.S. Bureau of Labor Statistics reported today. Sheila Watkins, the Bureau’s regional commissioner, noted that area gasoline prices were down \$0.886 compared to last July when they averaged \$3.640 per gallon.

Philadelphia area households paid an average of 15.9 cents per kilowatt hour (kWh) of electricity in July 2015, unchanged from the price in July for the previous three years. The average cost of utility (piped) gas at \$1.038 per therm in July was 16.0 percent below its price of \$1.236 per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$2.754 a gallon, the price for gasoline in the Philadelphia area was 4.8 percent below the national average of \$2.893 a gallon in July 2015. A year earlier, the price for a gallon of gasoline in the Philadelphia area was close to the national average. In fact, local prices for a gallon of gasoline in July differed from the national average by less than 5 percent from 2011 to 2015. (See [chart 1](#) and [table 1](#).)

Chart 1. Average prices for gasoline, Philadelphia-Wilmington-Atlantic City and United States, July 2011–July 2015

Source: U.S. Bureau of Labor Statistics.

The 15.9 cents per kWh that Philadelphia households paid for electricity in July 2015 was 12.0 percent higher than the nationwide average cost of 14.2 cents per kWh. Last July, electricity prices in Philadelphia were 11.2 percent higher than the nation. From 2011 to 2013, prices paid by Philadelphia area consumers for electricity in July exceeded the U.S. average by more than 16 percent. (See [chart 2.](#))

The **Philadelphia-Wilmington-Atlantic City, Pa.-N.J.-Del.-Md. Consolidated Metropolitan Statistical Area** includes Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties in Pennsylvania; Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, and Salem Counties in New Jersey; New Castle County in Delaware; and Cecil County in Maryland.

The Consumer Price Index for August 2015 is scheduled to be released on Wednesday, September 16, 2015, at 8:30 a.m. (ET).

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, the 3 population size classes, 10 region/size-class cross-classifications, and the 14 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: 202-691-5200; Federal Relay Service: 1-800-877-8339.
