Unemployment in the Philadelphia Area by County – December 2017

Unemployment Rates in Eight Area Counties Decreased Over the Year

In December, Chester County, PA, had the lowest unemployment rate in the Philadelphia-Camden-Wilmington, PA-NJ-DE-MD Metropolitan Statistical Area at 3.1 percent, according to the U.S. Bureau of Labor Statistics. Sheila Watkins, the Bureau's regional commissioner, noted that at 5.6 percent each, Salem County, NJ, and Philadelphia County, PA, had the highest unemployment rates among the 11 counties that make up the metropolitan area. Camden County, PA, had the second highest jobless rate in the area at 4.5 percent. Two other area counties had jobless rates higher than the 3.9 percent U.S. average. (See [chart 1](#) and [chart 2](#). The Technical Note at the end of this release contains the metropolitan area definitions. All data in this release are not seasonally adjusted; accordingly, over-the-year analysis is used throughout.)

Chart 1. Unemployment rates for the United States and counties in the Philadelphia-Camden-Wilmington, PA-NJ-DE-MD Metropolitan Statistical Area, December 2017, not seasonally adjusted

Source: U.S. Bureau of Labor Statistics.

From December 2016 to December 2017, 8 of the 11 counties in the Philadelphia metropolitan area had unemployment rate decreases. Two counties—Bucks, PA, and Cecil, MD —had the largest rate decrease at 0.3 percentage point each, while the remaining six had decreases of 0.1 or 0.2 point each over the year. New Castle, DE, and Salem, NJ, were the only counties to have rate increases, at 0.2 point and 0.1 point, respectively. Burlington County, NJ, had no change over the year. (See [table A.](#))

Footnotes

(1) Data for the Philadelphia-Camden-Wilmington, Pa.-N.J.-Del.-Md. Metropolitan Statistical Area and its components are preliminary for the most recent month.

Unemployment rates in 10 of the 11 Philadelphia-area counties were lower in December 2017 than in December 2015. Cecil County, NJ, had the largest two-year jobless rate decrease at 0.9 percentage point, the only decline to match the nation's decrease. One county—Montgomery, PA—had no change in its jobless rate over the last two years.

The December 2017 unemployment rates for the four metropolitan divisions in the Philadelphia-Camden-Wilmington metropolitan area were 3.4 percent in the Montgomery County-Bucks County-Chester County, PA, division; 4.0 percent in the Wilmington, DE-MD-NJ, division; 4.1 percent in the Camden, NJ, division; and 5.1 percent in the Philadelphia, PA, division. From December 2016 to December 2017, two divisions had jobless rate decreases: Montgomery and Philadelphia at 0.2 point each. The jobless rate in the Wilmington division increased 0.1 percentage point over the year, while the rate in the Camden division was unchanged since December 2016.

The Metropolitan Area Employment and Unemployment news release for January is scheduled to be released on Friday, March 16, 2018, at 10:00 a.m. (EDT).

Technical Note

This release presents unemployment rate data for states and counties from the Local Area Unemployment Statistics (LAUS) program, a federal-state cooperative endeavor.

Definitions. The labor force and unemployment data are based on the same concepts and definitions as those used for the official national estimates obtained from the Current Population Survey (CPS), a sample survey of households that is conducted for the Bureau of Labor Statistics (BLS) by the U.S. Census Bureau. The LAUS program measures employment and unemployment on a place-of-residence basis. The universe for each is the civilian noninstitutional population 16 years of age and over. Employed persons are those who did any work at all for pay or profit in the reference week (the week including the 12th of the month) or worked 15 hours or more without pay in a family business or farm, plus those not working who had a job from which they were temporarily absent, whether or not paid, for such reasons as labor-management dispute, illness, or vacation. Unemployed persons are those who were not employed during the reference week (based on the definition above), had actively looked for a job sometime in the 4-week period ending with the reference week, and were currently available for work; persons on layoff expecting recall need not be looking for work to be counted as unemployed. The labor force is the sum of employed and unemployed persons. The unemployment rate is the number of unemployed as a percent of the labor force.

Methods of Estimation. The LAUS program is a hierarchy of non-survey methodologies for indirectly estimating employment and unemployment in states and local areas. Statewide data are produced through a modeling technique that uses estimates of payroll jobs from the Current Employment Statistics survey and unemployment insurance claims counts from the state workforce agencies to mitigate volatility in the direct CPS tabulations of employment and unemployment, respectively. Data for counties are developed through a building-block approach and adjusted proportionally to state model-based totals. For multi-county areas, such as the metropolitan areas and metropolitan divisions delineated by the Office of Management and Budget, estimates are summed from the data for their component counties. Estimates for cities and towns are produced through a disaggregation technique.

Annual revisions. Labor force and unemployment data for prior years reflect adjustments made at the end of each year, usually implemented with January estimates. The adjusted estimates reflect updated population data from the U.S. Census Bureau, any revisions in the other data sources, and model reestimation. All substate estimates are reestimated and adjusted to add to the revised model-based estimates.

Area definitions. The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget, dated July 15, 2015. A detailed list of the geographic definitions is available at www.bls.gov/lau/lausmsa.htm.

The **Philadelphia-Camden-Wilmington, PA-NJ-DE-MD Metropolitan Statistical Area** includes Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties in Pennsylvania; Burlington, Camden, Gloucester, and Salem Counties in New Jersey; New Castle County in Delaware; and Cecil County in Maryland.

The **Camden, NJ Metropolitan Division** includes Burlington, Camden, and Gloucester Counties in New Jersey.

The **Montgomery County-Bucks County-Chester County, PA Metropolitan Division** includes Bucks, Chester, and Montgomery Counties in Pennsylvania.

The **Philadelphia, PA Metropolitan Division** includes Delaware and Philadelphia Counties in Pennsylvania.

The **Wilmington, DE-MD-NJ Metropolitan Division** includes New Castle County in Delaware, Cecil County in Maryland, and Salem County in New Jersey.
