Average Energy Prices, Baltimore-Columbia-Towson – November 2021

Gasoline prices averaged \$3.422 a gallon in the Baltimore-Columbia-Towson area in November 2021, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Alexandra Hall Bovee noted that area gasoline prices were up 53.9 percent compared to last November when they averaged \$2.223 per gallon. Baltimore area households paid an average of 13.7 cents per kilowatt hour (kWh) of electricity in November 2021, up from 9.6 percent per kWh in November 2020. The average cost of utility (piped) gas at \$1.597 per therm in November was up from \$1.413 per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$3.422 a gallon, costs for gasoline in the Baltimore area were 4.3 percent below the national average of \$3.576 a gallon in November 2021. Last November, gasoline prices in Baltimore were similar to the nation. Over the prior three Novembers, prices for a gallon of gasoline in Baltimore have been below the U.S. average by 9.3 percent or less. (See [chart 1.](#))

The **Baltimore-Columbia-Towson, MD Core Based Statistical Area** includes Anne Arundel, Baltimore, Carroll, Harford, Howard, and Queen Anne’s Counties and Baltimore City in Maryland.

The Consumer Price Index for December 2021 is scheduled to be released on Wednesday, January 12, 2022, at 8:30 a.m. (ET).

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, 9 divisions, 2 population size classes, 8 region/size-class cross-classifications, and the 23 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Average prices for gasoline, electricity, and utility (piped) gas, the United States and Baltimore-Columbia-Towson, MD, November 2020–November 2021, not seasonally adjusted

Year and month	Gasoline per gallon		Electricity per kWh		Utility (piped) gas per therm	
	United States	Baltimore area	United States	Baltimore area	United States	Baltimore area
2020						
November	\$2.159	\$2.223	\$0.136	\$0.125	\$1.104	\$1.413
December	2.235	2.315	0.136	0.125	1.114	1.474
2021						
January	2.391	2.397	0.136	0.123	1.119	1.402
