## **Average Energy Prices, Philadelphia-Camden-Wilmington – January 2022**

Gasoline prices averaged \$3.529 per gallon in the Philadelphia-Camden-Wilmington area in January 2022, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Alexandra Hall Bovee noted that area gasoline prices were 31.4 percent higher than last January when they averaged \$2.685 per gallon.

Philadelphia-area households paid an average of 17.2 cents per kilowatt hour (kWh) of electricity in January 2022, 11.7 percent higher than the average of 15.4 cents in January 2021. The average cost of utility (piped) gas at \$1.337 per therm in January was 21.5 percent higher than its price of \$1.100 per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$3.529 per gallon, the price for gasoline in the Philadelphia area was close to the national average of \$3.500 per gallon in January 2022. From 2018 to 2021, local and national prices for gasoline in January differed by 12.3 percent or less. (See [chart 1](#) and [table 1](#).)

Source: U.S. Bureau of Labor Statistics.

The 17.2 cents per kWh that Philadelphia households paid for electricity in January 2022 was 17.0 percent higher than the nationwide average cost of 14.7 cents per kWh. Last January, electricity prices in Philadelphia were 13.2 percent higher than the nation. From 2018 to 2020, prices paid by Philadelphia-area consumers for electricity in January ranged between 12.6 percent lower to 14.2 percent higher than the U.S. average. (See [chart 2.](#))

**Chart 2. Average prices for electricity, the United States and Philadelphia-Camden-Wilmington, PA-NJ-DE-MD, 2018–22 (as of January)**

The **Philadelphia-Camden-Wilmington, PA-NJ-DE-MD Core Based Statistical Area** includes Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties in Pennsylvania; Burlington, Camden, Gloucester, and Salem Counties in New Jersey; New Castle County in Delaware; and Cecil County in Maryland.

**The Consumer Price Index for February 2022 is scheduled to be released on Wednesday, March 10, 2022, at 8:30 a.m. (ET).**

### Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, 9 divisions, 2 population size classes, 8 region/size-class cross-classifications, and the 23 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to individuals with sensory impairments upon request. Voice phone: 202-691-5200; Telecommunications Relay Service: 7-1-1.
