## Occupational Employment and Wages for Teachers in Virginia’s Metropolitan Areas – May 2016

Among the 11 metropolitan areas in Virginia, only Washington-Arlington-Alexandria, D.C.-Va.-Md.-W.Va., had wages significantly above the national average for secondary, middle, and elementary school teachers, the U.S. Bureau of Labor Statistics reported today. Sheila Watkins, the Bureau’s regional commissioner, noted that six metropolitan areas had wages that were significantly below the national average for the three selected occupations. Nationwide, the average (mean) wage for secondary school teachers was \$61,420; for middle school teachers, \$59,800; and for elementary school teachers, \$59,020. (See [table A](#). For comprehensive definitions of metropolitan areas in the Commonwealth of Virginia, please see the Technical Note.)

**Table A. Average (mean) annual wages for secondary, middle, and elementary school teachers in the United States, Virginia, and metropolitan areas in Virginia, May 2016**

Area	Secondary school teachers, except special and career/technical education	Middle school teachers, except special and career/technical education	Elementary school teachers, except special education
United States.....	\$61,420	\$59,800	\$59,020
Virginia.....	68,070	65,430	66,700
Blacksburg-Christiansburg-Radford ...	53,690	52,290	53,680
Charlottesville.....	63,880	66,100	65,430
Harrisonburg.....	48,560	47,900	44,630
Kingsport-Bristol-Bristol.....	51,760	46,560	47,900
Lynchburg.....	51,240	49,330	50,960
Richmond.....	59,800	57,310	58,640
Roanoke.....	48,870	48,530	47,920
Staunton-Waynesboro.....	52,910	48,130	46,680
Virginia Beach-Norfolk-Newport News.....	62,600	61,870	61,740
Washington-Arlington-Alexandria.....	75,460	77,000	74,320
Winchester.....	--	--	55,150

The mean annual wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.....  
 Estimate not released.....

Of the 10 metropolitan areas in the commonwealth for which complete data were available, the Washington area had the largest number of secondary, middle, and elementary teachers, with a combined employment of 58,690. The Virginia Beach-Norfolk-Newport News and Richmond areas had a combined employment of 14,750 and 12,210, respectively. Employment levels in each of the remaining areas were less than 2,600 for the selected teaching occupations. (See [table B](#).)

**Table B. Employment for secondary, middle, and elementary school teachers in the United States, Virginia, and metropolitan areas in Virginia, May 2016**

Area	Secondary school teachers, except special and career/technical education	Middle school teachers, except special and career/technical education	Elementary school teachers, except special education
United States.....	1,003,250	626,310	1,392,660
Virginia.....	26,050	16,180	35,610
Blacksburg-Christiansburg-Radford.....	370	250	540
Charlottesville.....	750	500	1,100
Harrisonburg.....	350	290	590
Lynchburg.....	800	310	1,450
Richmond.....	720	430	930
Roanoke.....	4,270	2,870	5,070
Virginia Beach-Norfolk-Newport News.....	780	340	1,050

Staunton-Waynesboro.....	--	--	520
-- Estimate not released.			

### **Wages for secondary school teachers in metropolitan areas in Virginia**

Secondary school teachers in the Washington metropolitan area earned an average of \$75,460 per year; this was the only metropolitan area in the state with a mean wage significantly above the U.S. average of \$61,420 for this occupation. Wages were significantly below average for this occupation in 6 of the 11 metropolitan areas in Virginia: Harrisonburg (\$48,560), Roanoke (\$48,870), Lynchburg (\$51,240), Kingsport-Bristol-Bristol (\$51,760), Staunton-Waynesboro (\$52,910), and Blacksburg-Christiansburg-Radford (\$53,690).

### **Wages for middle school teachers in metropolitan areas in Virginia**

Middle school teachers in the Washington (\$77,000) and Charlottesville (\$66,100) areas earned significantly above the U.S. average of \$59,800. Six metropolitan areas had median wages significantly below the national average for middle school teachers: Kingsport (\$46,560), Harrisonburg (\$47,900), Staunton (\$48,130), Roanoke (\$48,530), Lynchburg (\$49,330), and Blacksburg (\$52,290).

### **Wages for elementary school teachers in metropolitan areas in Virginia**

Elementary school teachers in the Washington area earned an average of \$74,320 per year; this was the only metropolitan area in the state with a mean wage significantly above the U.S. average of \$59,020 for this occupation. Six areas had mean wages for elementary school teachers significantly below the national average: Harrisonburg (\$44,630), Staunton (\$46,680), Kingsport (\$47,900), Roanoke (\$47,920), Lynchburg (\$50,960), and Blacksburg (\$53,680).

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case the District of Columbia Department of Employment Services; the Maryland Department of Labor, Licensing, and Regulation; the North Carolina Employment Security Commission; the Virginia Employment Commission; and WorkForce West Virginia. The OES survey provides estimates of employment and hourly and annual wages for wage and salary workers in 22 major occupational groups and about 800 detailed occupations for the nation, states, metropolitan statistical areas, metropolitan divisions, and nonmetropolitan areas.

### **Note on Occupational Employment Statistics Data**

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

### **Technical Note**

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES program produces employment and wage estimates for over 800 occupations for all industries combined in the nation; the 50 states and the District of Columbia; 432 metropolitan areas and divisions; 167 nonmetropolitan areas; and Guam, Puerto Rico, and the U.S. Virgin Islands. National estimates are also available by industry for NAICS sectors, 3-, 4-, and selected 5- and 6-digit industries; and by ownership across all industries and for schools and hospitals. OES data are available at [www.bls.gov/oes/tables.htm](http://www.bls.gov/oes/tables.htm).

OES estimates are constructed from a sample of about 1.2 million establishments. Forms are mailed to approximately 200,000 sampled establishments in May and November each year. The May 2016 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2016, November 2015, May 2015, November 2014, May 2014, and November 2013. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 73 percent based on establishments and 69 percent based on weighted sampled employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 58 percent of total national employment. For more information about OES concepts and methodology, go to [www.bls.gov/news.release/ocwage.tn.htm](http://www.bls.gov/news.release/ocwage.tn.htm).

The May 2016 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at [www.bls.gov/soc](http://www.bls.gov/soc) and information about the 2012 NAICS is available at [www.bls.gov/bls/naics.htm](http://www.bls.gov/bls/naics.htm).

### **Metropolitan area definitions**

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

**Blacksburg-Christiansburg-Radford, Va. Metropolitan Statistical Area (MSA)** includes Floyd, Giles, Montgomery, and Pulaski Counties and Radford city in Virginia.

**Charlottesville, Va. MSA** includes Albemarle, Buckingham, Fluvanna, Greene, and Nelson Counties and Charlottesville city in Virginia.

**Harrisonburg, Va. MSA** includes Rockingham County and Harrisonburg city in Virginia.

**Kingsport-Bristol-Bristol, Tenn.-Va. MSA** includes Hawkins and Sullivan Counties in Tennessee and Scott and Washington Counties and Bristol city in Virginia.

**Lynchburg, Va. MSA** includes Amherst, Appomattox, Bedford, and Campbell Counties and Bedford and Lynchburg cities in Virginia.

**Richmond, Va. MSA** includes Amelia, Caroline, Charles City, Chesterfield, Dinwiddie, Goochland, Hanover, Henrico, King William, New Kent, Powhatan, Prince George, and Sussex Counties and Colonial Heights, Hopewell, Petersburg, and Richmond cities in Virginia.

**Roanoke, Va. MSA** includes Botetourt, Craig, Franklin, and Roanoke Counties and Roanoke and Salem cities in Virginia.

**Staunton-Waynesboro, Va. MSA** includes Augusta County and Staunton and Waynesboro cities in Virginia.

**Virginia Beach-Norfolk-Newport News, Va.-N.C. MSA** includes Gloucester, Isle of Wight, James City, Mathews, Surry, and York Counties and Chesapeake, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach, and Williamsburg cities in Virginia and Currituck and Gates Counties in North Carolina.

**Washington-Arlington-Alexandria, D.C.-Va.-Md.-W.Va. MSA** includes the District of Columbia; Arlington, Clarke, Culpeper, Fairfax, Fauquier, Loudoun, Prince William, Rappahannock, Spotsylvania, Stafford, and Warren Counties and Alexandria, Fairfax, Falls Church, Fredericksburg, Manassas, and Manassas Park cities in Virginia; Calvert, Charles, Frederick, Montgomery, and Prince George's Counties in Maryland; and Jefferson County in West Virginia.

**Winchester, Va.-W.Va. MSA** includes Frederick County and Winchester city in Virginia and Hampshire County in West Virginia.

### **Additional information**

OES data are available on our regional web page at <https://www.bls.gov/regions/mid-atlantic>. Answers to frequently asked questions about the OES data are available at [www.bls.gov/oes/oes\\_ques.htm](http://www.bls.gov/oes/oes_ques.htm). Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at [www.bls.gov/oes/current/methods\\_statement.pdf](http://www.bls.gov/oes/current/methods_statement.pdf).
