## **Occupational Employment and Wages in Indianapolis-Carmel-Anderson — May 2017**

Workers in the Indianapolis-Carmel-Anderson Metropolitan Statistical Area had an average (mean) hourly wage of \$23.09 in May 2017, about 5 percent below the nationwide average of \$24.34, according to the U.S. Bureau of Labor Statistics. Assistant Commissioner for Regional Operations Charlene Peiffer noted that, after testing for statistical significance, wages in the local area were lower than their respective national averages in 16 of the 22 major occupational groups, including legal; management; and computer and mathematical. One group had significantly higher wages than their respective national averages: sales and related.

When compared to the nationwide distribution, local employment was more highly concentrated in 3 of the 22 occupational groups: transportation and material moving; healthcare practitioners and technical; and management. Conversely, nine groups had employment shares significantly below their national representation, including education, training, and library; personal care and service; and office and administrative support. (See [table A](#) and [box note](#) at end of release.)

**Table A. Occupational employment and wages by major occupational group, United States and the Indianapolis-Carmel-Anderson Metropolitan Statistical Area, and measures of statistical significance, May 2017**

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Indianapolis	United States	Indianapolis	Percent difference <sup>(1)</sup>
Total, all occupations .....	100.0	100.0	\$24.34	\$23.09*	-5
Management .....	5.1	5.7*	57.65	49.63*	-14
Business and financial operations .....	5.2	5.4	36.70	32.30*	-12
Computer and mathematical .....	3.0	3.1	43.18	37.31*	-14
Architecture and engineering .....	1.8	1.5*	41.44	35.92*	-13
Life, physical, and social science .....	0.8	1.0	35.76	38.30	7
Community and social service .....	1.5	1.2*	23.10	21.86*	-5
Legal .....	0.8	0.7	51.62	42.61*	-17
Education, training, and library .....	6.1	4.4*	26.67	22.90*	-14
Arts, design, entertainment, sports, and media .....	1.4	1.3	28.34	23.20*	-18
Healthcare practitioners and technical .....	6.0	7.2*	38.83	38.99	0
Healthcare support .....	2.9	2.6*	15.05	15.64	4
Protective service .....	2.4	2.3	22.69	18.93*	-17
Food preparation and serving related .....	9.3	8.9*	11.88	10.57*	-11
Building and grounds cleaning and maintenance .....	3.1	2.8*	13.91	12.88*	-7
Personal care and service .....	3.6	2.7*	13.11	11.51*	-12
Sales and related .....	10.2	10.3	19.56	20.67*	6
Office and administrative support .....	15.4	14.9*	18.24	17.69*	-3
Farming, fishing, and forestry .....	0.3	0.1*	13.87	13.35	-4

Note: See footnotes at end of table.

**Table A. Occupational employment and wages by major occupational group, United States and the Indianapolis-Carmel-Anderson Metropolitan Statistical Area, and measures of statistical significance, May 2017 - Continued**

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Indianapolis	United States	Indianapolis	Percent difference <sup>(1)</sup>
Construction and extraction.....	4.0	3.8	24.01	23.86	-1
Installation, maintenance, and repair .....	3.9	3.9	23.02	22.03*	-4
Production .....	6.3	6.3	18.30	17.70*	-3
Transportation and material moving.....	7.0	10.1*	17.82	16.84*	-5

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Indianapolis-Carmel-Anderson Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

\* The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—transportation and material moving—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Indianapolis-Carmel-Anderson had 103,650 jobs in transportation and material moving occupations, accounting for 10.1 percent of local area employment, significantly higher than the 7.0-percent share nationally. The average hourly wage for this occupational group locally was \$16.84, significantly below the national wage of \$17.82.

Some of the larger detailed occupations within the transportation and material moving group included laborers and freight, stock, and material movers, hand (39,030); heavy and tractor-trailer truck drivers (18,160); and packers and packagers, hand (8,250). Among the higher paying jobs in this group were transportation inspectors with mean hourly wages of \$41.93 and excavating and loading machine and dragline operators, \$30.45. At the lower end of the wage scale were parking lot attendants (\$10.17) and cleaners of vehicles and equipment (\$11.35). (Detailed data for transportation and material moving occupations are presented in [table 1](#); for a complete listing of detailed occupations available go to [www.bls.gov/oes/current/oes\\_26900.htm](http://www.bls.gov/oes/current/oes_26900.htm).)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Indianapolis-Carmel-Anderson Metropolitan Statistical Area, above-average concentrations of employment were found in some of the occupations within the transportation and material moving group. For instance, machine feeders and offbearers were employed at 2.5 times the national rate in Indianapolis, and laborers and freight, stock, and material movers, hand, at 2.0 times the U.S. average. On the other hand, light truck or delivery services drivers had a location quotient of 1.0 in Indianapolis, indicating that this particular occupation’s local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Indiana Department of Workforce Development.

## Notes on Occupational Employment Statistics Data

With the release of the May 2017 estimates, the OES program has replaced 21 detailed occupations found in the 2010 Standard Occupational Classification (SOC) with 10 new aggregations of those occupations. In addition, selected 4- and 5-digit North American Industry Classification System (NAICS) industries previously published by OES will no longer be published separately. Some of the 4-digit NAICS industries that are no longer being published separately will instead be published as OES-specific industry aggregations. More information about the new occupational and industry aggregations is available at [www.bls.gov/oes/changes\\_2017.htm](http://www.bls.gov/oes/changes_2017.htm).

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

## Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at [www.bls.gov/oes/tables.htm](http://www.bls.gov/oes/tables.htm).

OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2017 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2017, November 2016, May 2016, November 2015, May 2015, and November 2014. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 72 percent based on establishments and 68 percent based on weighted sampled employment. The unweighted sample employment of 82 million across all six semiannual panels represents approximately 58 percent of total national employment. The sample in the Indianapolis-Carmel-Anderson Metropolitan Statistical Area included 5,200 establishments with a response rate of 77 percent. For more information about OES concepts and methodology, go to [www.bls.gov/oes/current/oes\\_tec.htm](http://www.bls.gov/oes/current/oes_tec.htm).

The May 2017 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at [www.bls.gov/soc](http://www.bls.gov/soc) and information about the 2012 NAICS is available at [www.bls.gov/bls/naics.htm](http://www.bls.gov/bls/naics.htm).

## Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Indianapolis-Carmel-Anderson, Ind. Metropolitan Statistical Area** includes Boone, Brown, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan, Putnam, and Shelby Counties.

### **Additional information**

OES data are available on our regional web page at [www.bls.gov/regions/midwest](http://www.bls.gov/regions/midwest). Answers to frequently asked questions about the OES data are available at [www.bls.gov/oes/oes\\_ques.htm](http://www.bls.gov/oes/oes_ques.htm). Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at [www.bls.gov/oes/current/methods\\_statement.pdf](http://www.bls.gov/oes/current/methods_statement.pdf).

Information in this release will be made available to sensory impaired individuals upon request . Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

**Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Indianapolis-Carmel-Anderson Metropolitan Statistical Area, May 2017**

Occupation (1)	Employment		Mean wages	
	Level (2)	Location quotient (3)	Hourly	Annual (4)
Transportation and material moving occupations.....	103,650	1.4	\$16.84	\$35,030
First-line supervisors of transportation and material moving workers, except aircraft cargo handling supervisors .....	4,420	1.6	25.58	53,210
Airline pilots, copilots, and flight engineers .....	610	1.0	(6)	132,120
Commercial pilots.....	70	0.3	(6)	80,640
Flight attendants.....	610	0.7	(6)	52,960
Ambulance drivers and attendants, except emergency medical technicians .....	70	0.7	13.71	28,520
Bus drivers, transit and intercity .....	750	0.6	18.14	37,720
Bus drivers, school or special client .....	4,870	1.3	13.27	27,610
Driver/sales workers .....	4,710	1.5	13.35	27,770
Heavy and tractor-trailer truck drivers .....	18,160	1.4	22.61	47,030
Light truck or delivery services drivers .....	6,460	1.0	16.42	34,160
Taxi drivers and chauffeurs .....	1,140	0.8	11.92	24,790
Motor vehicle operators, all other .....	770	1.9	14.86	30,900
Parking lot attendants.....	920	0.9	10.17	21,150
Automotive and watercraft service attendants .....	840	1.0	11.95	24,850
Transportation inspectors.....	160	0.7	41.93	87,210
Transportation workers, all other .....	190	0.7	18.61	38,700
Conveyor operators and tenders.....	320	1.7	16.17	33,630
Crane and tower operators.....	530	1.7	25.86	53,790
Excavating and loading machine and dragline operators .....	(5)	(5)	30.45	63,340
Hoist and winch operators.....	(5)	(5)	17.71	36,830
Industrial truck and tractor operators.....	5,130	1.2	16.33	33,970
Cleaners of vehicles and equipment .....	2,640	1.0	11.35	23,620
Laborers and freight, stock, and material movers, hand .....	39,030	2.0	14.35	29,850
Machine feeders and offbearers.....	1,320	2.5	13.69	28,470
Packers and packagers, hand.....	8,250	1.6	11.83	24,600
Refuse and recyclable material collectors.....	760	0.9	15.59	32,440

Footnotes:

(1) For a complete listing of all detailed occupations in Indianapolis-Carmel-Anderson, IN, see [www.bls.gov/oes/current/oes\\_26900.htm](http://www.bls.gov/oes/current/oes_26900.htm)

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.

(6) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.
