Fatal Work Injuries in Michigan — 2017

Fatal work injuries totaled 153 in 2017 for Michigan, the U.S. Bureau of Labor Statistics reported today. Assistant Commissioner for Regional Operations Charlene Peiffer noted that the number of work-related fatalities in Michigan was down from the previous year. Fatal occupational injuries in the state have ranged from a high of 182 in 1999 to a low of 94 in 2009. (See [chart 1.](#))

Nationwide, a total of 5,147 fatal work injuries were recorded in 2017, down slightly from the 5,190 fatal injuries reported in 2016, according to the results from the Census of Fatal Occupational Injuries (CFOI) program.

Chart 1. Total fatal occupational injuries, Michigan, 2008–2017

SOURCE: U.S. Bureau of Labor Statistics.

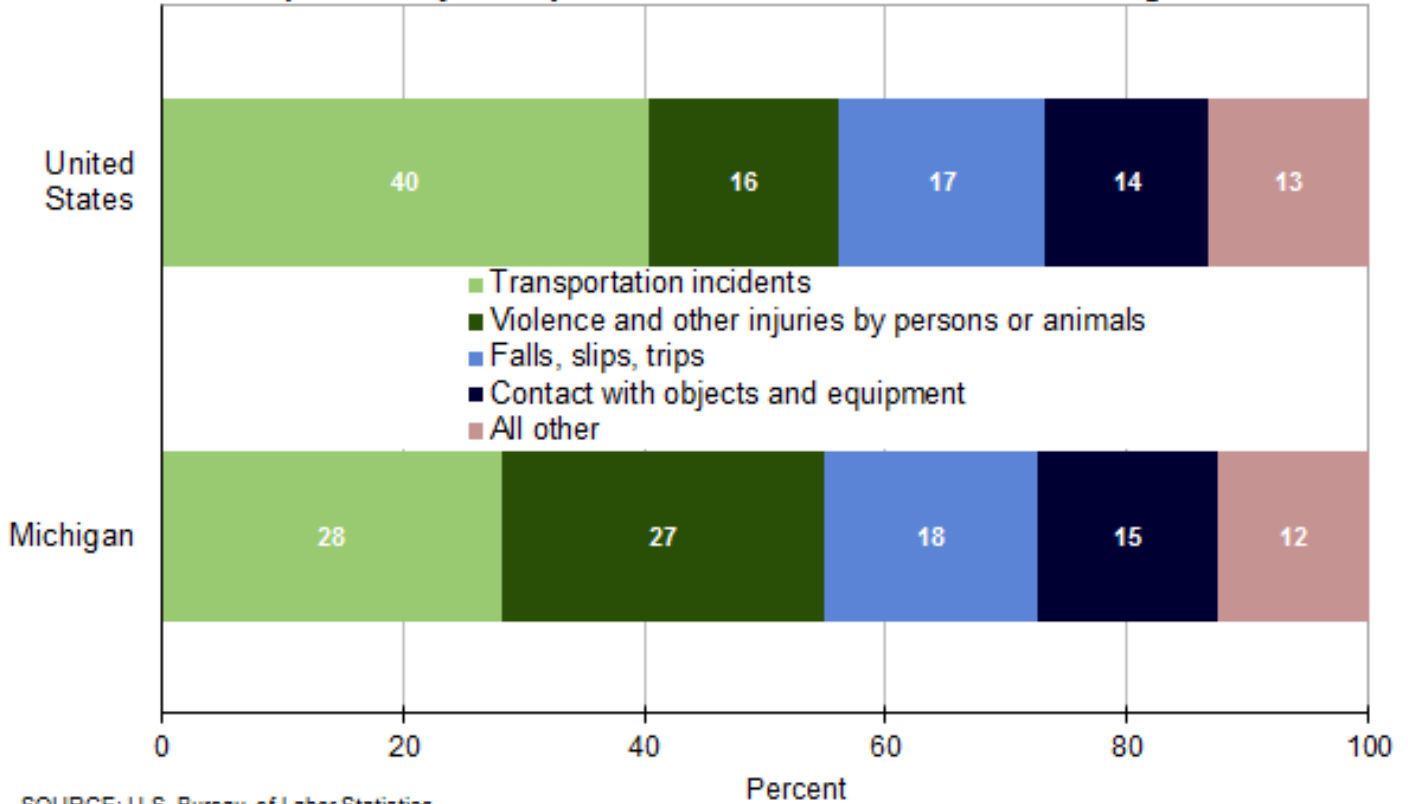

Type of incident

In Michigan, transportation incidents resulted in 43 fatal work injuries and violence and other injuries by persons or animals accounted for 41 fatalities. These two major categories accounted for 55 percent of all workplace fatalities in the state. (See [table 1.](#)) Worker deaths from transportation incidents were down from 50 over the year and worker fatalities due to violence or other injuries by persons or animals were up from 37.

Falls, slips, or trips was the third-most frequent fatal work event with 27 fatalities, down from 31 in the prior year. Contact with objects or equipment resulted in 23 work-related deaths compared to 19 in 2016.

Nationally, transportation incidents were the most frequent fatal workplace event in 2017, accounting for 40 percent of fatal work injuries. (See [chart 2.](#)) Falls, slips, or trips was the second-most frequent type of event (17 percent), followed by violence and other injuries by persons or animals (16 percent) and contact with objects and equipment (14 percent).

Chart 2. Fatal occupational injuries by selected event, United States and Michigan, 2017

Industry

The private construction industry had the highest number of fatalities in Michigan with 31, down from 40 in the previous year. (See [table 2.](#)) Falls, slips, or trips resulted in 12 of the 31 fatalities in the industry. The specialty trade contractors sector accounted for 22 of the 31 workplace fatalities in the construction industry.

The private agriculture, forestry, fishing, and hunting industry had 22 workplace fatalities, up from 19 in the previous year. The crop production sector accounted for 16, or 73 percent, of the fatal injuries in this industry.

Occupation

The construction and extraction occupational group had the highest number of workplace fatalities with 34. (See [table 3.](#)) Construction trades workers accounted for 27 of the 34 fatalities among construction and extraction workers. The transportation and material moving occupational group had the second highest number of workplace fatalities with 23, followed by management occupations with 22. Heavy and tractor-trailer truck drivers suffered nine of the work-related deaths within the transportation and material moving group. Farmers, ranchers, and other agricultural managers accounted for 15 of the 22 management occupational fatalities.

Additional highlights

- Men accounted for 91 percent of the work-related fatalities in Michigan, compared to the 93-percent national share. (See [table 4](#).) Transportation incidents made up 26 percent of the fatalities for men in Michigan and violence and other injuries by persons or animals accounted for 25 percent.
- White non-Hispanics accounted for 76 percent of those who died from a workplace injury. Nationwide, this group accounted for 67 percent of work-related deaths.
- Workers 25-54 years old accounted for 52 percent of the state's work-related fatalities in 2017, compared to 55 percent of on-the-job fatalities nationally.
- Of the 153 fatally-injured workers in Michigan, 67 percent worked for wages and salaries; the remainder were self-employed. The most frequent fatal event for wage and salary workers was transportation incidents; violence and other injuries by persons or animals was the most frequent fatal event for self-employed workers.

Technical Note

Background of the program. The Census of Fatal Occupational Injuries (CFOI), part of the BLS Occupational Safety and Health Statistics (OSHS) program, compiles a count of all fatal work injuries occurring in the U.S. during the calendar year. The CFOI program uses diverse state, federal, and independent data sources to identify, verify, and describe fatal work injuries. This ensures counts are as complete and accurate as possible. For the 2017 national data, over 23,400 unique source documents were reviewed as part of the data collection process. For technical information and definitions for CFOI, please go to the BLS Handbook of Methods on the BLS website at www.bls.gov/opub/hom/cfoi/home.htm.

Federal/State agency coverage. The CFOI includes data for all fatal work injuries, even those that may be outside the scope of other agencies or regulatory coverage. Thus, any comparison between the BLS fatality census counts and those released by other agencies should take into account the different coverage requirements and definitions being used by each agency. More on the scope of CFOI can be found at www.bls.gov/iif/cfoiscope.htm and <https://www.bls.gov/opub/hom/cfoi/concepts.htm>.

Acknowledgments. BLS thanks the Michigan Department of Licensing and Regulatory Affairs for their efforts in collecting accurate, comprehensive, and useful data on fatal work injuries. BLS also appreciates the efforts of all federal, state, local, and private sector entities that provided source documents used to identify fatal work injuries. Among these agencies are the Occupational Safety and Health Administration; the National Transportation Safety Board; the U.S. Coast Guard; the Mine Safety and Health Administration; the Office of Workers' Compensation Programs (Federal Employees' Compensation and Longshore and Harbor Workers' Compensation divisions); the Federal Railroad Administration; the National Highway Traffic Safety Administration; state vital statistics registrars, coroners, and medical examiners; state departments of health, labor, and industrial relations and workers' compensation agencies; state and local police departments; and state farm bureaus.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Overexertion and bodily reaction.....	--	1	1
Overexertion involving outside sources.....	--	1	1
Overexertion in lifting, lowering.....	--	1	1

Footnotes:

(1) Based on the BLS Occupational Injury and Illness Classification System (OIICS) 2.01 implemented for 2011 data forward.

NOTE: Data for all years are final. Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. CFOI fatality counts exclude illness-related deaths unless precipitated by an injury event. Dashes indicate no data reported or data that do not meet publication criteria.

Conveyor operators and tenders	--	1	1
Laborers and material movers, hand	4	4	3
Laborers and freight, stock, and material movers, hand	2	3	2
Packers and packagers, hand	--	1	1

Footnotes:

(1) Occupation data are based on the Standard Occupational Classification system, 2010.

NOTE: Data for all years are final. Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. CFOI fatality counts exclude illness-related deaths unless precipitated by an injury event. Dashes indicate no data reported or data that do not meet publication criteria.

Table 4. Fatal occupational injuries by selected demographic characteristics, Michigan, 2016–17

Worker characteristics	2016	2017	
	Number	Number	Percent
Total	162	153	100
Employee status			
Wage and salary workers ⁽¹⁾	116	102	67
Self-employed ⁽²⁾	46	51	33
Gender			
Men	153	139	91
Women	9	14	9
Age ⁽³⁾			
18 to 19 years.....	3	4	3
20 to 24 years.....	6	9	6
25 to 34 years.....	23	26	17
35 to 44 years.....	32	22	14
45 to 54 years.....	45	32	21
55 to 64 years.....	34	30	20
65 years and over.....	18	28	18
Race or ethnic origin ⁽⁴⁾			
White (non-Hispanic).....	127	116	76
Black or African-American (non-Hispanic).....	22	25	16
