Average Energy Prices, Chicago-Naperville-Elgin — July 2020

Gasoline prices averaged \$2.370 per gallon in the Chicago-Naperville-Elgin area in July 2020, the U.S. Bureau of Labor Statistics reported today. Acting Regional Commissioner Bryan Droste noted that area gasoline prices were down 72.5 cents compared to July 2019 when they averaged \$3.095 per gallon. Chicago area households paid an average of 14.5 cents per kilowatt-hour (kWh) of electricity in July 2020, less than the 15.7 cents in July 2019. In July, the average cost of utility (piped) gas was 76.2 cents per therm, less than its average price of 79.9 cents per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

The \$2.370 per gallon Chicago households paid for gasoline in July 2020 was 12.7 cents more than the nationwide average of \$2.243. In the previous four years in July (2016-2019), Chicago area gasoline prices ranged from 6.8 cents to 25.9 cents more than the national average. (See [chart 1.](#))

The **Chicago-Naperville-Elgin, IL-IN-WI**, core based statistical area consists of Cook, DeKalb, DuPage, Grundy, Kane, Kendall, Lake, McHenry, and Will Counties in Illinois; Jasper, Lake, Newton, and Porter Counties in Indiana; and Kenosha County in Wisconsin.

Historical average energy prices for the U.S. and select metropolitan areas are available at www.bls.gov/regions/midwest/data/averageenergyprices_selectedareas_table.htm.

The Consumer Price Index for August 2020 is scheduled to be released on Friday, September 11, 2020.

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, 9 divisions, 2 population size classes, 8 region/size-class cross-classifications, and the 23 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Average prices for gasoline, electricity, and utility (piped) gas, Chicago-Naperville-Elgin, IL-IN-WI, and the United States, July 2019 – July 2020, not seasonally adjusted

Year and month	Gasoline per gallon		Electricity per kWh		Utility (piped) gas per therm	
	Chicago area	United States	Chicago area	United States	Chicago area	United States
2019						
July	\$3.095	\$2.836	\$0.157	\$0.140	\$0.799	\$1.029
August	2.863	2.716	0.164	0.139	0.792	1.034
