County Employment and Wages in South Dakota — Second Quarter 2020

South Dakota's only large county, Minnehaha, reported an employment decrease of 5.0 percent from June 2019 to June 2020, the U.S. Bureau of Labor Statistics reported today. (Large counties are those with annual average employment levels of 75,000 or more in 2019.) Regional Commissioner Jason Palmer noted that in June 2020, Minnehaha County's employment level was 123,600. (See [table 1](#).)

National employment decreased 9.4 percent over the year, with all of the 357 largest U.S. counties reporting declines. Atlantic, NJ, had the largest over-the-year decrease in employment with a loss of 34.2 percent.

Minnehaha County's employment accounted for 29.7 percent of total employment within the state. Within the county's private industry, health care and social assistance accounted for the largest employment (26,224). Nationwide, the 357 largest counties made up 72.9 percent of total U.S. employment.

Employment and wage levels (but not over-the-year changes) are also available for the 65 counties in South Dakota with employment below 75,000. All 65 smaller counties had wage levels below the national average in the second quarter of 2020. (See [table 2](#).)

Large county wage changes

Minnehaha County's 8.5-percent wage growth from the second quarter of 2019 to the second quarter of 2020 was similar to the national rate of 8.6 percent and ranked 159th nationally. Among the 357 largest counties in the United States, 352 had over-the-year wage increases. The increases in average weekly wages largely reflect substantial employment loss among lower-paid industries. Atlantic, NJ, had the largest percentage wage increase (+22.5 percent). Five large counties had wage declines during the period. Ector, TX, had the largest over-the-year percentage decrease (-6.6 percent).

Large county average weekly wages

Minnehaha County's \$1,013 average weekly wage ranked 224th among the 357 large U.S. counties in the second quarter of 2020. (See [table 1](#).) Among the largest U.S. counties, 101 reported average weekly wages above the U.S. average of \$1,188 in the second quarter of 2020. Santa Clara, CA, had the highest average weekly wage at \$3,045. Average weekly wages were at or below the national average in 256 counties. At \$698 a week, Cameron, TX, had the lowest average weekly wage.

Average weekly wages in South Dakota's smaller counties

Among the 65 smaller counties in South Dakota—those with employment below 75,000—Union County had the highest average weekly wage at \$1,088. Mellette County (\$456) reported the lowest average weekly wage in the state.

When all 66 counties in South Dakota were considered, 13 reported average weekly wages of less than \$700, 14 registered wages from \$700 to \$749, 11 had wages from \$750 to \$799, 11 recorded wages from \$800 to \$849, and 17 had average weekly wages of \$850 or higher. (See [chart 1](#).)

Additional statistics and other information

QCEW data for states have been included in this release in [table 3](#). For additional information about quarterly employment and wages data, please read the [Technical Note](#) or visit www.bls.gov/cew.

Employment and Wages Annual Averages Online features comprehensive information by detailed industry on establishments, employment, and wages for the nation and all states. The 2019 edition of this publication was published in September 2020. Tables and additional content from the 2019 edition of *Employment and Wages Annual Averages Online* are available at www.bls.gov/cew/publications/employment-and-wages-annual-averages/2019/home.htm. The 2020 edition of *Employment and Wages Annual Averages Online* will be available in September 2021.

The County Employment and Wages release for third quarter 2020 is scheduled to be released on Wednesday, February 24, 2021. The County Employment and Wages full data update for third quarter 2020 is scheduled to be released on Tuesday, March 9, 2021.

Coronavirus (COVID-19) Pandemic Impact on Second Quarter 2020 QCEW Data

Response rate tables for the second quarter of 2020 are available at www.bls.gov/covid19/county-employment-and-wages-covid-19-impact-second-quarter-2020.htm. For more information about the effects of the COVID-19 pandemic on QCEW data, see www.bls.gov/covid19/effects-of-covid-19-pandemic-on-county-employment-and-wages-data.htm.

Special Notice: Imputation Methodology Improvements

QCEW implemented improvements to imputation methodology, effective with second quarter 2020 processing. For more information on QCEW imputation methodology and the impact of the improved methods, see www.bls.gov/cew/additional-resources/imputation-methodology.htm.

Special Notice: Business Response Survey

The U.S. Bureau of Labor Statistics has developed new data on how U.S. businesses changed their operations and employment since the onset of the novel coronavirus through September 2020. Data for the Business Response Survey to the Coronavirus Pandemic were released on December 7, 2020. For more information, please visit: www.bls.gov/brs/.

Technical Note

Average weekly wage data by county are compiled under the Quarterly Census of Employment and Wages (QCEW) program, also known as the ES-202 program. The data are derived from summaries of employment and total pay of workers covered by state and federal unemployment insurance (UI) legislation and provided by State Workforce Agencies (SWAs). The average weekly wage values are calculated by dividing quarterly

total wages by the average of the three monthly employment levels of those covered by UI programs. 13, the number of weeks in a quarter, then divide the result. It is to be noted, therefore, that over-the-year wage changes for geographic areas may reflect shifts in the composition of employment by industry, occupation, and such other factors as hours of work. Thus, wages may vary among counties, metropolitan areas, or states for reasons other than changes in the average wage level. Data for all states, Metropolitan Statistical Areas (MSAs), counties, and the nation are available on the BLS Web site at www.bls.gov/cew; however, data in QCEW press releases have been revised and may not match the data contained on the Bureau's Web site.

QCEW data are not designed as a time series. QCEW data are simply the sums of individual establishment records reflecting the number of establishments that exist in a county or industry at a point in time. Establishments can move in or out of a county or industry for a number of reasons—some reflecting economic events, others reflecting administrative changes.

The preliminary QCEW data presented in this release may differ from data released by the individual states as well as from the data presented on the BLS Web site. These potential differences result from the states' continuing receipt, review and editing of UI data over time. On the other hand, differences between data in this release and the data found on the BLS Web site are the result of adjustments made to improve over-the-year comparisons. Specifically, these adjustments account for administrative (noneconomic) changes such as a correction to a previously reported location or industry classification. Adjusting for these administrative changes allows users to more accurately assess changes of an economic nature (such as a firm moving from one county to another or changing its primary economic activity) over a 12-month period. Currently, adjusted data are available only from BLS press releases.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Covered employment and wages in the United States and the largest county in South Dakota, second quarter 2020

Area	Establishments, second quarter 2020 (thousands)	Employment			Average weekly wage ⁽¹⁾			
		June 2020 (thousands)	Percent change, June 2019–20 ⁽²⁾	National ranking by percent change ⁽³⁾	Second quarter 2020	National ranking by level ⁽³⁾	Percent change, second quarter 2019–20 ⁽²⁾	National ranking by percent change ⁽³⁾
United States ⁽⁴⁾	10,451.0	135,114.4	-9.4	--	\$1,188	--	8.6	--
South Dakota.....	34.7	415.9	-5.9	--	912	49	9.0	22
Minnehaha.....	7.8	123.6	-5.0	36	1,013	224	8.5	159

Footnotes:

(1) Average weekly wages were calculated using unrounded data.

(2) Percent changes were computed from quarterly employment and pay data adjusted for noneconomic county reclassifications.

(3) Ranking does not include data for Puerto Rico or the Virgin Islands.

(4) Totals for the United States do not include data for Puerto Rico or the Virgin Islands.

Note: Data are preliminary. Covered employment and wages includes workers covered by Unemployment Insurance (UI) and Unemployment Compensation for Federal Employees (UCFE) programs.
