Changing Compensation Costs in the Minneapolis Metropolitan Area — March 2021

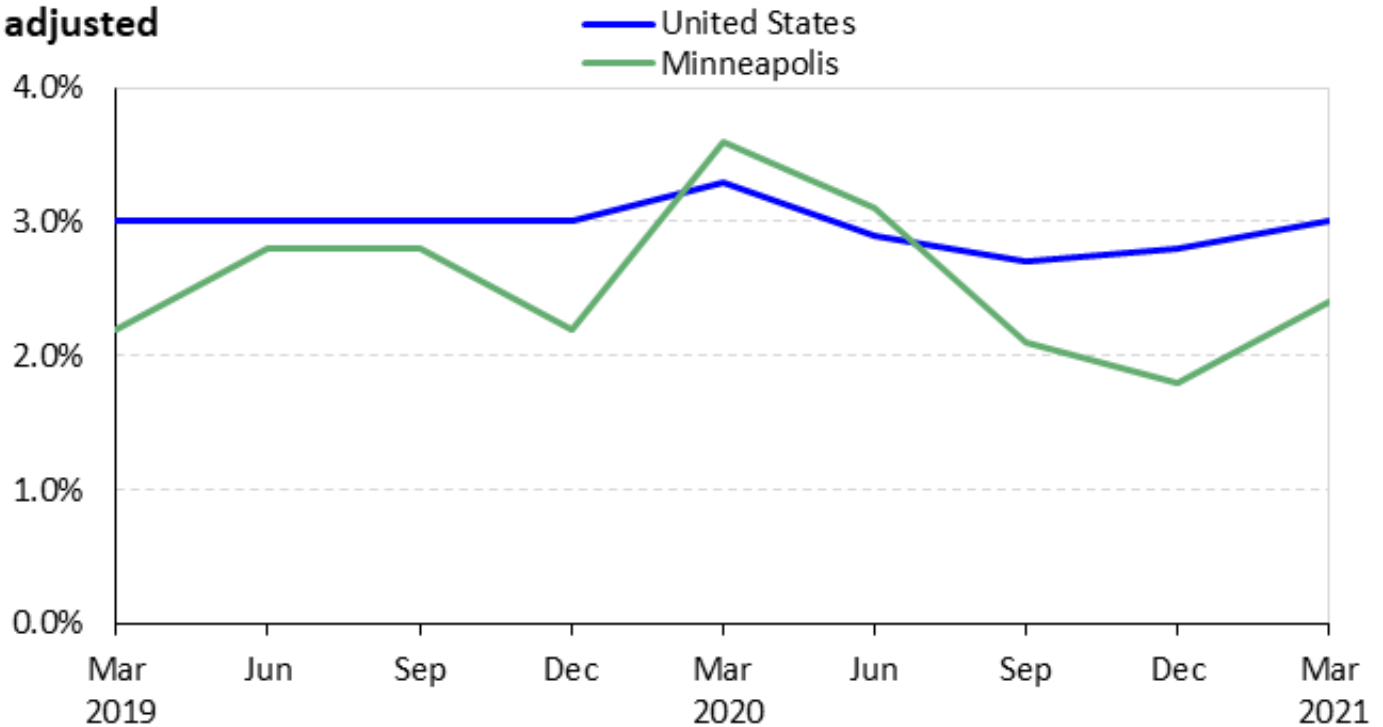

Compensation costs for private industry workers increased 2.1 percent in the Minneapolis-St. Paul, MN-WI Combined Statistical Area (CSA) for the year ended March 2021, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Jason Palmer noted that one year ago, Minneapolis experienced an annual gain of 3.1 percent in **compensation costs**. (See [chart 1](#) and [table 1](#).) Locally, **wages and salaries**, the largest component of compensation costs, advanced at a 2.4-percent pace for the 12-month period ended March 2021. (See [chart 2](#).) Nationwide, **compensation costs** rose 2.8 percent and **wages and salaries** rose 3.0 percent over the same period.

Minneapolis is 1 of 15 metropolitan areas in the United States and 1 of 3 areas in the Midwest region of the country for which locality compensation cost data are available. Among these 15 largest areas, over-the-year percentage changes in **compensation costs** ranged from 4.2 percent in Los Angeles-Long Beach to 1.1 percent in Houston-The Woodlands in March 2021; for **wages and salaries**, Los Angeles registered the largest increase (4.8 percent) and Houston registered the smallest (1.1 percent). (See [chart 3](#).)

Chart 3. Twelve-month percent changes in total compensation and wages and salaries for private industry workers by area, not seasonally adjusted, March 2021

The annual increase in **compensation costs** in Minneapolis was 2.1 percent in March 2021, compared to advances of 3.1 percent in both Chicago-Naperville and Detroit-Warren-Ann Arbor, the two other metropolitan areas in the Midwest. Minneapolis' 2.4-percent gain in **wages and salaries** over this 12-month period compared to a 3.3 percent increase in Chicago and a 2.5 percent increase in Detroit. (See [table 2](#).)

Locality compensation costs are part of the national Employment Cost Index (ECI), which measures quarterly changes in compensation costs, which include wages, salaries and employer costs for employee benefits. In addition to the 15 locality estimates provided in this release, ECI data for the nation, 4 geographical regions, and 9 geographical divisions are available. (Geographical definitions for the metropolitan areas mentioned in this release are included in the [Technical Note](#).)

In addition to the data presented here, national data by industry, occupational group, and union status, as well as data for both private and state and local government employees, are available at www.bls.gov/ncs/ect/home.htm. The national news release summary is available at www.bls.gov/news.release/eci.toc.htm. Additional information for regions, states, and local areas may be accessed via our regional homepage at www.bls.gov/regions/midwest/.

The Employment Cost Index for June 2021 is scheduled to be released on Friday, July 30, 2021, at 8:30 a.m. (ET).

Coronavirus (COVID-19) impact on March 2021 Employment Cost Index

Response rates for March were comparable with prior releases, and no changes in estimation procedures were necessary. Additional information is available at www.bls.gov/bls/effects-of-covid-19-on-workplace-injuries-and-illnesses-compensation-and-occupational-requirements.htm#ECI.

Technical Note

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. For information on survey concepts, coverage, methods, nonresponse adjustment, and imputation see National Compensation Measures Handbook of Methods at www.bls.gov/opub/hom/ncs/home.htm.

Wages and salaries are defined as straight-time average hourly earnings or, for workers not paid on an hourly basis, straight-time earnings divided by the corresponding hours. Straight-time wage and salary rates are total earnings before payroll deductions, excluding premium pay for overtime, work on weekends and holidays, and shift differentials. Production bonuses, incentive earnings, commission payments, and cost-of-living adjustments are included in straight-time earnings, whereas nonproduction bonuses or those not directly tied to production (such as end-of-year and profit-sharing bonuses) are excluded. Also excluded are such items as payments-in-kind, free room and board, and tips.
