## Chicago Area Employment — February 2022

Total nonfarm employment for the Chicago-Naperville-Elgin, IL-IN-WI, metropolitan area increased 221,800 over the year in February, the U.S. Bureau of Labor Statistics reported today. (See [chart 1](#) and [table 1](#).) Regional Commissioner Jason Palmer noted that the local rate of job gain, 5.1 percent, compared to the 4.9-percent national rise. (All data in this release are not seasonally adjusted; accordingly, over-the-year analysis is used throughout.)

**Chart 1. Over-the-year net change for total nonfarm employment in the Chicago metropolitan area, February 2019–February 2022**

Source: U.S. Bureau of Labor Statistics.

Chicago-Naperville-Elgin, IL-IN-WI, is made up of four metropolitan divisions—separately identifiable employment centers within the greater metropolitan area. Chicago-Naperville-Arlington Heights, IL, with 80 percent of the metropolitan area's total nonfarm employment, gained 186,800 jobs over the year. Gary, IN (6

percent of the area's employment), gained 10,300 jobs and Elgin, IL (5 percent of the area's employment), gained 14,700 jobs. Employment in Lake County-Kenosha County, IL-WI (9 percent of the area's employment), was little changed over the year.

### Industry employment

In Chicago-Naperville-Elgin, IL-IN-WI, leisure and hospitality had the largest gain (+85,700) among the metropolitan area's private-industry supersectors, with all four divisions recording increases. (See [chart 2.](#)) The 26.1-percent increase in the metropolitan area's leisure and hospitality supersector compared to the 17.4-percent gain on a national level.

**Chart 2. Over-the-year net change for private-industry supersector employment in the Chicago metropolitan area, February 2022 (in thousands)**

Note: An asterisk indicates statistical significance at the 90-percent confidence level.

Source: U.S. Bureau of Labor Statistics.

Trade, transportation, and utilities rose by 36,400 jobs over the year in the metropolitan area. The Chicago-Naperville-Arlington Heights, IL, division added 32,600 jobs or 90 percent of the metropolitan area's employment increase in this supersector. The metropolitan area had a 4.0-percent gain compared to the 4.6-percent increase for the nation.

Professional and business services added 33,200 jobs in the metropolitan area. Chicago-Naperville-Arlington Heights, IL, added 29,800 jobs in this supersector. The 4.2-percent gain in the metropolitan area's professional and business services supersector compared to the 5.6-percent rise on a national level.

Employment in education and health services increased by 13,500 over the year in the metropolitan area, or 1.9 percent compared to the 2.8-percent increase for the nation. The construction supersector added 9,200 jobs, or 6.2 percent compared to the 4.5-percent gain nationally.

### Twelve largest metropolitan areas

Chicago-Naperville-Elgin, IL-IN-WI, was 1 of the nation's 12 largest metropolitan statistical areas in February 2022. All 12 areas gained jobs over the year. New York-Newark-Jersey City, NY-NJ-PA, had the largest increase (+512,100), followed by Los Angeles-Long Beach-Anaheim, CA, (+417,000). Phoenix-Mesa-Scottsdale, AZ, had the smallest increase (+89,600) among the largest areas. (See [table 2](#) and [chart 3](#).)

Dallas-Fort Worth-Arlington, TX, and Los Angeles-Long Beach-Anaheim, CA, each had a 7.4-percent rate of job gain. The rates of job gain in the remaining 10 areas ranged from 6.9 percent in San Francisco-Oakland-Hayward, CA, to 4.0 percent in Washington-Arlington-Alexandria, DC-VA-MD-WV.

**The Metropolitan Area Employment and Unemployment news release for March is scheduled to be released on Wednesday, April 27, 2022, at 10:00 a.m. (ET).**

### Changes to Current Employment Statistics Data

Effective with this news release, all nonfarm payroll employment estimates for areas presented in tables 1 and 2 have been adjusted to 2021 benchmark levels in accordance with standard practices. Not seasonally adjusted data beginning with April 2020 were subject to revision. Some series may have been revised as far back as 1990.

## Technical Note

This release presents nonfarm payroll employment estimates from the CES program. The CES survey is a Federal-State cooperative endeavor between State employment security agencies and the U.S. Bureau of Labor Statistics.

**Definitions.** Employment data refer to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Industries are classified on the basis of their principal activity in accordance with the 2017 version of the North American Industry Classification System.

**Method of estimation.** CES State and Area employment data are produced using several estimation procedures. Where possible these data are produced using a "weighted link relative" estimation technique in which a ratio of current-month weighted employment to that of the previous-month weighted employment is computed from a sample of establishments reporting for both months. The estimates of employment for the current month are then obtained by multiplying these ratios by the previous month's employment estimates. The weighted link relative technique is utilized for data series where the sample size meets certain statistical criteria. For some employment series, the estimates are produced with a model that uses direct sample estimates (described above) combined with other regressors to decrease volatility in estimation.

**Annual revisions.** Employment estimates are adjusted annually to a complete count of jobs, called benchmarks, derived principally from tax reports which are submitted by employers who are covered under state unemployment insurance (UI) laws. The benchmark information is used to adjust the monthly estimates between the new benchmark and the preceding one and also to establish the level of employment for the new benchmark month. Thus, the benchmarking process establishes the level of employment, and the sample is used to measure the month-to-month changes in the level for the subsequent months. Information on recent benchmark revisions is available online at [www.bls.gov/web/laus/bmrk\\_article.htm](http://www.bls.gov/web/laus/bmrk_article.htm).

**Reliability of the estimates.** The estimates presented in this release are based on sample surveys, administrative data, and modeling and, thus, are subject to sampling and other types of errors. Sampling error is a measure of sampling variability—that is, variation that occurs by chance because a sample rather than the entire population is surveyed. Survey data also are subject to nonsampling errors, such as those which can be introduced into the data collection and processing operations. Estimates not directly derived from sample surveys are subject to additional errors resulting from the specific estimation processes used. The sums of individual items may not always equal totals shown in the same tables due to rounding.

**Employment estimates.** Changes in metropolitan area nonfarm payroll employment are cited in the analysis of this release only if they have been determined to be statistically significant at the 90-percent confidence level. Measures of sampling error for the total nonfarm employment series are available for metropolitan areas and metropolitan divisions at [www.bls.gov/web/laus/790stderr.htm](http://www.bls.gov/web/laus/790stderr.htm).

**Area definitions.** The substate area data published in this news release reflect the delineations issued by the U.S. Office of Management and Budget on April 10, 2018. The 12 metropolitan areas discussed in this release are the metropolitan areas with the largest population according to the U.S. Census Bureau.

The **Chicago-Naperville-Elgin, IL-IN-WI Metropolitan Statistical Area** includes Cook, DeKalb, DuPage, Grundy, Kane, Kendall, Lake, McHenry, and Will Counties in Illinois; Jasper, Lake, Newton, and Porter Counties in Indiana; and Kenosha County in Wisconsin.

- The **Chicago-Naperville-Arlington Heights, IL Metropolitan Division** includes Cook, DuPage, Grundy, Kendall, McHenry, and Will Counties in Illinois.
- The **Elgin, IL Metropolitan Division** includes DeKalb and Kane Counties.
- The **Lake County-Kenosha County, IL-WI Metropolitan Division** includes Lake County in Illinois and Kenosha County in Wisconsin.
- The **Gary, IN Metropolitan Division** includes Jasper, Lake, Newton, and Porter Counties in Indiana.

### **Additional information**

Employment data from the CES program are available on the BLS website at [www.bls.gov/sae/](http://www.bls.gov/sae/).

Information in this release will be made available to individuals with sensory impairments upon request. Voice phone: (202) 691-5200; Telecommunications Relay Service: 7-1-1.
