Occupational Employment and Wages in Kansas City — May 2018

Workers in the Kansas City Metropolitan Statistical Area had an average (mean) hourly wage of \$24.14 in May 2018, about 3 percent below the nationwide average of \$24.98, according to the U.S. Bureau of Labor Statistics. Assistant Commissioner for Regional Operations Stanley W. Suchman noted that, after testing for statistical significance, wages in the local area were lower than their respective national averages in 16 of the 22 major occupational groups, including legal; computer and mathematical; and architecture and engineering. One group - construction and extraction - had a significantly higher average wage than its respective national average.

When compared to the nationwide distribution, local employment was more highly concentrated in 3 of the 22 occupational groups: office and administrative support; computer and mathematical; and business and financial operations. Conversely, 10 groups had employment shares significantly below their national representation, including education, training, and library; healthcare support; and personal care and service. (See [table A](#) and [box note](#) at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Kansas City Metropolitan Statistical Area, and measures of statistical significance, May 2018

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Kansas City	United States	Kansas City	Percent difference ⁽¹⁾
Total, all occupations	100.0	100.0	\$24.98	\$24.14*	-3
Management	5.3	5.0*	58.44	55.63*	-5
Business and financial operations.....	5.3	6.3*	36.98	34.59*	-6
Computer and mathematical	3.0	4.3*	44.01	37.82*	-14

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Kansas City Metropolitan Statistical Area, and measures of statistical significance, May 2018 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Kansas City	United States	Kansas City	Percent difference (1)
Construction and extraction.....	4.1	3.9*	24.62	26.25*	7
Installation, maintenance, and repair	3.9	3.9	23.54	22.76*	-3
Production	6.3	6.1	18.84	19.43	3
Transportation and material moving.....	7.1	6.8	18.41	18.12	-2

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Kansas City Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

* The mean hourly wage or percent share of employment is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—office and administrative support—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Kansas City had 176,850 jobs in office and administrative support occupations, accounting for 16.7 percent of local area employment, significantly higher than the 15.1-percent share nationally. The average hourly wage for this occupational group locally was \$18.23, significantly below the national wage of \$18.75.

Some of the larger detailed occupations within the office and administrative support group included customer service representatives (28,670), secretaries and administrative assistants, except legal, medical, and executive (21,990), and stock clerks and order fillers (19,230). Among the higher-paying jobs in this group were statistical assistants and first-line supervisors of office and administrative support workers, with mean hourly wages of \$30.00 and \$28.25, respectively. At the lower end of the wage scale were hotel, motel, and resort desk clerks (\$10.77) and library assistants, clerical (\$11.07). (Detailed data for the office and administrative support occupations are presented in [table 1](#); for a complete listing of detailed occupations available go to www.bls.gov/oes/current/oes_28140.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Kansas City Metropolitan Statistical Area, above-average concentrations of employment were found in some of the occupations within the office and administrative support group. For instance, bill and account collectors were employed at 1.9 times the national rate in Kansas City, and data entry keyers, at 1.9 times the U.S. average. On the other hand, postal service mail carriers had a location quotient of 1.0 in Kansas City, indicating that this particular occupation’s local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Missouri Department of Economic Development.

Area Changes to the May 2018 Occupational Employment Statistics (OES)

OES continues to publish data for metropolitan and nonmetropolitan areas that cover the full geography of the United States. However, the level of detail available has decreased.

OES no longer publishes data for metropolitan divisions. Data for the 11 large metropolitan areas that contain divisions are now available at the Metropolitan Statistical Area (MSA) or New England City and Town Area (NECTA) level only.

In addition, some smaller nonmetropolitan areas have been combined to form larger nonmetropolitan areas. The May 2018 OES estimates contain data for 134 nonmetropolitan areas, compared with 167 nonmetropolitan areas in the May 2017 estimates.

More information on these area changes is available at www.bls.gov/oes/areas_2018.htm.

Implementing the 2018 Standard Occupational Classification (SOC) System

The OES program plans to begin implementing the 2018 Standard Occupational Classification (SOC) system with the May 2019 estimates, to be released by early April of 2020. Because each set of OES estimates is produced by combining three years of survey data, estimates for May 2019 and May 2020 will be based on a combination of survey data collected under the 2010 SOC and data collected under the 2018 SOC, and will use a hybrid of the two classification systems. The May 2021 OES estimates, to be released by early April of 2022, will be the first set of estimates based fully on the 2018 SOC. For more information, please see www.bls.gov/oes/soc_2018.htm.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 580 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-digit, most 4-digit, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at www.bls.gov/oes/tables.htm.

The OES survey is a cooperative effort between BLS and the State Workforce Agencies (SWAs). BLS funds the survey and provides the procedures and technical support, while the State Workforce Agencies collect most of the data. OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 180,000 to 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2018 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2018, November 2017, May 2017, November 2016, May 2016, and November 2015. The unweighted sample employment of 83 million across all six semiannual panels represents approximately 58 percent of total national employment. The overall national

response rate for the six panels, based on the 50 states and the District of Columbia, is 71 percent based on establishments and 68 percent based on weighted sampled employment. The sample in the Kansas City Metropolitan Statistical Area included 7,255 establishments with a response rate of 65 percent. For more information about OES concepts and methodology, go to www.bls.gov/oes/current/oes_tec.htm.

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

The May 2018 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2017 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2017 NAICS is available at www.bls.gov/bls/naics.htm.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Kansas City, MO-KS Metropolitan Statistical Area** includes Bates, Caldwell, Cass, Clay, Clinton, Jackson, Lafayette, Platte, and Ray Counties of Missouri, and Franklin, Johnson, Leavenworth, Linn, Miami, and Wyandotte Counties of Kansas.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/mountain-plains. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request . Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Kansas City Metropolitan Statistical Area, May 2018

Occupation (1)	Employment		Mean wages	
	Level (2)	Location quotient (3)	Hourly	Annual (4)
Office and administrative support occupations.....	176,850	1.1	\$18.23	\$37,910
First-line supervisors of office and administrative support workers.....	10,280	1.0	28.25	58,760
Switchboard operators, including answering service.....	530	1.0	15.33	31,890
Telephone operators.....	80	2.1	16.23	33,760
Bill and account collectors.....	3,560	1.9	17.23	35,840
Billing and posting clerks.....	3,790	1.1	19.03	39,590
Bookkeeping, accounting, and auditing clerks.....	11,710	1.0	19.52	40,600
Gaming cage workers.....	80	0.7	13.83	28,770
Payroll and timekeeping clerks.....	1,210	1.2	21.88	45,500
Procurement clerks.....	650	1.3	20.13	41,880
Tellers.....	3,600	1.1	14.08	29,290
Financial clerks, all other.....	230	1.0	21.15	43,990
Brokerage clerks.....	470	1.2	23.76	49,420
Correspondence clerks.....	40	1.0	18.17	37,790
Court, municipal, and license clerks.....	1,110	1.1	16.12	33,530
Credit authorizers, checkers, and clerks.....	290	1.3	19.24	40,020
Customer service representatives.....	28,670	1.4	17.46	36,310
Eligibility interviewers, government programs.....	1,630	1.6	22.08	45,940
File clerks.....	1,060	1.3	16.17	33,640
Hotel, motel, and resort desk clerks.....	1,360	0.7	10.77	22,400
Interviewers, except eligibility and loan.....	2,660	1.9	17.07	35,510
Library assistants, clerical.....	920	1.4	11.07	23,030
Loan interviewers and clerks.....	2,680	1.6	20.08	41,770
New accounts clerks.....	740	2.4	15.49	32,210
Order clerks.....	1,780	1.5	16.44	34,190
Human resources assistants, except payroll and timekeeping.....	900	1.0	19.89	41,360
Receptionists and information clerks.....	6,020	0.8	14.06	29,250
Reservation and transportation ticket agents and travel clerks.....	240	0.3	23.56	49,000
Information and record clerks, all other.....	1,560	1.4	19.07	39,670
Cargo and freight agents.....	1,120	1.7	21.93	45,620
Couriers and messengers.....	430	0.8	15.87	33,010
Police, fire, and ambulance dispatchers.....	500	0.7	20.44	42,520
Dispatchers, except police, fire, and ambulance.....	1,680	1.2	21.55	44,820
Meter readers, utilities.....	170	0.7	22.42	46,630
Postal service clerks.....	540	0.9	24.76	51,500
Postal service mail carriers.....	2,500	1.0	24.52	51,000
Postal service mail sorters, processors, and processing machine operators.....	1,410	1.9	24.38	50,700
Production, planning, and expediting clerks.....	1,600	0.6	25.20	52,420
Shipping, receiving, and traffic clerks.....	4,730	1.0	16.44	34,190
Stock clerks and order fillers.....	19,230	1.3	13.57	28,220
Weighers, measurers, checkers, and samplers, recordkeeping.....	610	1.3	17.53	36,460
Executive secretaries and executive administrative assistants.....	4,370	1.0	27.92	58,070
Legal secretaries.....	1,120	0.9	23.61	49,110
Medical secretaries.....	4,040	0.9	16.97	35,300
Secretaries and administrative assistants, except legal, medical, and executive.....	21,990	1.4	17.97	37,380
Computer operators.....	380	1.5	23.95	49,810
Data entry keyers.....	2,460	1.9	16.13	33,550
Word processors and typists.....	150	0.4	19.87	41,330
Desktop publishers.....	60	0.8	21.11	43,910
Insurance claims and policy processing clerks.....	3,210	1.6	18.98	39,480

Note: See footnotes at end of table.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Kansas City Metropolitan Statistical Area, May 2018 - Continued

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Mail clerks and mail machine operators, except postal service	1,000	1.6	14.80	30,770
Office clerks, general.....	13,970	0.6	15.61	32,470
Office machine operators, except computer.....	580	1.6	16.76	34,850
Proofreaders and copy markers.....	50	0.7	18.92	39,360
Statistical assistants.....	90	1.1	30.00	62,410
Office and administrative support workers, all other .	1,000	0.7	20.81	43,280

Footnotes:

(1) For a complete listing of all detailed occupations in the Kansas City, MO-KS Metropolitan Statistical Area, see www.bls.gov/oes/current/oes_28140.htm

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.
