Occupational Employment and Wages in Providence-Fall River-Warwick — May 2014

Workers in the Providence-Fall River-Warwick Metropolitan Statistical Area had an average (mean) hourly wage of \$23.37 in May 2014, about 3 percent above the nationwide average of \$22.71, according to the U.S. Bureau of Labor Statistics. Regional Commissioner Deborah A. Brown noted that, after testing for statistical significance, wages in the local area were higher than their respective national averages in 11 of the 22 major occupational groups, including education, training, and library; management; and healthcare practitioners and technical. Four groups had significantly lower wages than their respective national averages, including legal and computer and mathematical.

When compared to the nationwide distribution, local employment was more highly concentrated in 5 of the 22 occupational groups, including healthcare support; healthcare practitioners and technical; and food preparation and serving related. Conversely, 12 groups had employment shares significantly below their national representation, including transportation and material moving; installation, maintenance, and repair; and construction and extraction. (See [table A](#) and [box note](#) at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Providence-Fall River-Warwick Metropolitan Statistical Area, and measures of statistical significance, May 2014

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Providence	United States	Providence	Percent difference ⁽¹⁾
Total, all occupations	100.0%	100.0%	\$22.71	\$23.37*	3

Table A. Occupational employment and wages by major occupational group, United States and the Providence-Fall River-Warwick Metropolitan Statistical Area, and measures of statistical significance, May 2014 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Providence	United States	Providence	Percent difference ⁽¹⁾
Farming, Fishing, and Forestry	0.3	(2)*	12.09	11.86	-2
Construction and Extraction	3.9	3.5*	22.40	23.09*	3
Installation, Maintenance, and Repair	3.9	3.1*	21.74	22.31*	3
Production	6.6	6.9	17.06	17.04	0
Transportation and Material Moving	6.8	5.1*	16.57	16.12*	-3

Footnotes:

(1) A positive percent difference measures how much the mean wage in Providence is above the national mean wage, while a negative difference reflects a lower wage.

(2) Indicates a value of less than 0.05 percent

* The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—healthcare support—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Providence-Fall River-Warwick had 22,670 jobs in healthcare support, accounting for 4.1 percent of local area employment, significantly higher than the 2.9-percent share nationally. The average hourly wage for this occupational group locally was \$14.79, significantly above the national wage of \$13.86.

Some of the largest detailed occupations within the healthcare support group included nursing assistants (10,460), home health aides (3,770), and medical assistants (2,970). Among the higher paying jobs were occupational therapy assistants and physical therapist assistants, with mean hourly wages of \$25.74 and \$24.52, respectively. At the lower end of the wage scale were physical therapist aides (\$12.26) and nursing assistants (\$13.65). (Detailed occupational data for healthcare support are presented in [table 1](#); for a complete listing of detailed occupations available go to www.bls.gov/oes/2014/may/oes_77200.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Providence-Fall River-Warwick Metropolitan Statistical Area, above-average concentrations of employment were found in many of the occupations within the healthcare support group. For instance, phlebotomists were employed at 1.9 times the national rate in Providence, and nursing assistants, at 1.8 times the U.S. average. On the other hand, dental assistants had a location quotient of 0.9 in Providence, indicating that this particular occupation’s local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Rhode Island Department of Labor and Training.

Note

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. Guam, Puerto Rico, and the Virgin Islands are also surveyed, but their data are not included in the national estimates. OES estimates are constructed from a sample of about 1.2 million establishments. Forms are mailed to approximately 200,000 sampled establishments in May and November each year. May 2014 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2014, November 2013, May 2013, November 2012, May 2012, and November 2011. The overall national response rate for the six panels is 74.3 percent based on establishments and 70.5 percent based on weighted sampled employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 57.1 percent of total national employment. (Response rates are slightly lower for these estimates due to the federal shutdown in October 2013.) The sample in the Providence-Fall River-Warwick Metropolitan Statistical Area included 5,102 establishments with a response rate of 74 percent. For more information about OES concepts and methodology, go to www.bls.gov/news.release/ocwage.tn.htm.

The OES survey provides estimates of employment and hourly and annual wages for wage and salary workers in 22 major occupational groups and 821 detailed occupations for the nation, states, metropolitan statistical areas, metropolitan divisions, and nonmetropolitan areas. In addition, employment and wage estimates for 94 minor groups and 458 broad occupations are available in the national data. OES data by state and metropolitan/nonmetropolitan area are available from www.bls.gov/oes/current/oessrcst.htm and www.bls.gov/oes/current/oessrcma.htm, respectively.

The May 2014 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2012 NAICS is available at www.bls.gov/bls/naics.htm.

Area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Providence-Fall River-Warwick, RI-MA Metropolitan Statistical Area** includes Attleboro city, MA, Barrington town, RI, Bellingham town, MA, Blackstone town, MA, Bristol town, RI, Burrillville town, RI, Central Falls city, RI, Charlestown town, RI, Coventry town, RI, Cranston city, RI, Cumberland town, RI, East Greenwich town, RI, East Providence city, RI, Exeter town, RI, Fall River city, MA, Foster town, RI, Gloucester town, RI, Hopkinton town, RI, Jamestown town, RI, Johnston town, RI, Lincoln town, RI, Little

Compton town, RI, Middletown town, RI, Millville town, MA, Narragansett town, RI, Newport city, RI, North Attleborough town, MA, North Kingstown town, RI, North Providence town, RI, North Smithfield town, RI, Pawtucket city, RI, Plainville town, MA, Portsmouth town, RI, Providence city, RI, Rehoboth town, MA, Richmond town, RI, Scituate town, RI, Seekonk town, MA, Smithfield town, RI, Somerset town, MA, South Kingstown town, RI, Swansea town, MA, Tiverton town, RI, Warren town, RI, Warwick city, RI, West Greenwich town, RI, West Warwick town, RI, Westport town, MA, and Woonsocket city, RI.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/new-england. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/2014/may/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request . Voice phone: 202-691-5200; Federal Relay Service: 800-877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Providence-Fall River-Warwick Metropolitan Statistical Area, May 2014

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Healthcare Support Occupations	22,670	1.4	\$14.79	\$30,760
Home Health Aides.....	3,770	1.2	12.75	26,530
Psychiatric Aides	470	1.6	17.55	36,500
Nursing Assistants.....	10,460	1.8	13.65	28,380
Orderlies.....	240	1.1	14.92	31,040
Occupational Therapy Assistants	240	1.8	25.74	53,540
Physical Therapist Assistants.....	470	1.5	24.52	51,000
Physical Therapist Aides	450	2.3	12.26	25,500
Massage Therapists.....	240	0.7	20.47	42,580
Dental Assistants.....	1,090	0.9	17.87	37,160
Medical Assistants.....	2,970	1.2	15.75	32,750
Medical Equipment Preparers.....	230	1.1	17.37	36,130

Pharmacy Aides	60	0.4	11.68	24,300
Veterinary Assistants and Laboratory Animal Caretakers.....	(5)	(5)	11.70	24,340
Phlebotomists.....	860	1.9	17.51	36,430
Healthcare Support Workers, All Other	680	1.7	16.76	34,850

Footnotes:

(1) For a complete listing of all detailed occupations in Providence-Fall River-Warwick, RI-MA, see www.bls.gov/oes/current/oes_77200.htm

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a 'year-round, full-time' hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.
