## Average Energy Prices, Atlanta – March 2015

Gasoline prices averaged \$2.246 a gallon in the Atlanta area in March 2015, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Janet S. Rankin noted that area gasoline prices were \$1.154 lower than last March when they averaged \$3.400 per gallon. Atlanta area households paid an average of 11.3 cents per kilowatt hour (kWh) of electricity in March 2015, similar to the 11.1 cents per kWh paid in March 2014. The average cost of utility (piped) gas, at \$1.455, was less than the \$1.632 spent last year. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect the impact of seasonal influences.)

Atlanta area consumers paid \$2.246 a gallon for gasoline in March 2015, 11.7 percent lower than the \$2.544 paid nationally. A year earlier, consumers in the Atlanta area paid 5.3 percent less than the national average for a gallon of gasoline. In the past five years, prices paid by Atlanta area consumers for gasoline has been at least 4 percent less than the U.S. average in the month of March. (See [chart 1.](#))

The 11.3 cents per kWh Atlanta households paid for electricity in March was 16.9 percent less than the nationwide average of 13.6 cents per kWh. Last March, electricity costs in Atlanta were 17.8 percent less than those paid for the nation. In each of the past five years, prices paid by Atlanta area consumers for electricity have been at least 11 percent less than the U.S. average in the month of March. (See [chart 2.](#))

Prices paid by Atlanta area consumers for utility (piped) gas, commonly referred to as natural gas, were \$1.455 per therm, or 47.7 percent higher than the national average in March 2015 (\$0.985 per therm). A year earlier, area consumers paid 41.4 percent more per therm for natural gas compared to the nation. In 3 of the past five years, the per therm cost for natural gas in March for Atlanta households was at least 40 percent more than the U.S. average. (See [chart 3.](#))

The **Atlanta, Ga., Metropolitan Statistical Area** consists of Barrow, Bartow, Carroll, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Newton, Paulding, Pickens, Rockdale, Spalding, and Walton Counties in Georgia.

**The April 2015 Consumer Price Index for the Atlanta area is scheduled to be released on Friday, May 22, 2015, at 8:30 a.m. (ET).**

### Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, the 3 population size classes, 10 region/size-class cross-classifications, and the 14 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information from this release will be made available to sensory impaired individuals upon request. Voice phone: 202-691-5200; Federal Relay Service: 800-877-8339.
