Occupational Employment and Wages in Augusta-Richmond County – May 2016

Workers in the Augusta-Richmond County Metropolitan Statistical Area had an average (mean) hourly wage of \$20.89 in May 2016, about 12 percent below the nationwide average of \$23.86, according to the U.S. Bureau of Labor Statistics. Regional Commissioner Janet S. Rankin noted that, after testing for statistical significance, 16 groups had significantly lower wages than their respective national averages, including sales and related; computer and mathematical; and construction and extraction. Two groups had significantly higher wages than their respective national averages: farming, fishing, and forestry; and production.

When compared to the nationwide distribution, local employment was more highly concentrated in 8 of the 22 occupational groups, including healthcare practitioners and technical; production; and education, training, and library. Conversely, nine groups had employment shares significantly below their national representation, including computer and mathematical; business and financial operations; and personal care and service. (See [table A](#) and [box note](#) at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Augusta-Richmond County Metropolitan Statistical Area, and measures of statistical significance, May 2016

Major occupational group	Percent of total employment		Mean hourly wage		Percent difference ⁽¹⁾
	United States	Augusta	United States	Augusta	
Total, all occupations	100.0	100.0	\$23.86	\$20.89*	-12
Management	5.1	4.6*	56.74	47.97*	-15
Business and financial operations	5.2	3.6*	36.09	32.04*	-11
Computer and mathematical	3.0	1.3*	42.25	33.23*	-21
Architecture and engineering	1.8	2.6*	40.53	41.83	3
Life, physical, and social science	0.8	0.9*	35.06	34.70	-1
Community and social service	1.4	1.1*	22.69	21.19*	-7
Legal	0.8	0.4*	50.95	37.72*	-26
Education, training, and library	6.2	7.0*	26.21	23.07	-12
Arts, design, entertainment, sports, and media	1.4	0.7*	28.07	23.54	-16
Healthcare practitioners and technical	5.9	8.8*	38.06	35.14*	-8
Healthcare support	2.9	3.2*	14.65	12.73*	-13
Protective service	2.4	3.1*	22.03	17.71*	-20
Food preparation and serving related	9.2	9.1	11.47	9.81*	-14
Building and grounds cleaning and maintenance	3.2	3.5	13.47	11.37*	-16
Personal care and service	3.2	2.1*	12.74	11.13*	-13
Sales and related	10.4	10.5	19.50	15.03*	-23
Office and administrative support	15.7	15.1	17.91	15.51*	-13

Construction and extraction	4.0	3.7	23.51	18.47*	-21
Installation, maintenance, and repair	3.9	4.5*	22.45	20.87*	-7
Production	6.5	7.7*	17.88	19.47*	9

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Augusta-Richmond County Metropolitan Statistical Area, and measures of statistical significance, May 2016 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Augusta	United States	Augusta	Percent difference ⁽¹⁾
Transportation and material moving	6.9	6.4*	17.34	14.32*	-17

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Augusta-Richmond County Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

* The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—healthcare practitioners and technical—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Augusta-Richmond County had 18,860 jobs in healthcare practitioners and technical, accounting for 8.8 percent of local area employment, significantly higher than the 5.9-percent share nationally. The average hourly wage for this occupational group locally was \$35.14, significantly below the national wage of \$38.06.

Some of the larger detailed occupations within the healthcare practitioners and technical group included registered nurses (6,700), licensed practical and licensed vocational nurses (1,780), and pharmacy technicians (770). Among the higher paying jobs were pharmacists and physician assistants, with mean hourly wages of \$56.51 and \$39.71, respectively. At the lower end of the wage scale were pharmacy technicians (\$14.42) and veterinary technologists and technicians (\$14.81). (Detailed occupational data for healthcare practitioners and technical are presented in [table 1](#); for a complete listing of detailed occupations available go to www.bls.gov/oes/current/oes_12260.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Augusta-Richmond County Metropolitan Statistical Area, above-average concentrations of employment were found in many of the occupations within the healthcare practitioners and technical group. For instance, licensed practical and licensed vocational nurses were employed at 1.7 times the national rate in Augusta, and medical and clinical laboratory technicians, at 1.6 times the U.S. average. On the other hand, medical records and health information technicians had a location quotient of 1.0 in Augusta, indicating that this particular occupation’s local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Georgia Department of Labor.

Note on Occupational Employment Statistics Data

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at www.bls.gov/oes/tables.htm.

OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2016 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2016, November 2015, May 2015, November 2014, May 2014, and November 2013. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 73 percent based on establishments and 69 percent based on weighted sampled employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 58 percent of total national employment. The sample in the Augusta-Richmond County Metropolitan Statistical Area included 2,487 establishments with a response rate of 77 percent. For more information about OES concepts and methodology, go to www.bls.gov/news.release/ocwage.tn.htm.

The May 2016 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2012 NAICS is available at www.bls.gov/bls/naics.htm.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Augusta-Richmond County, Ga.-S.C. Metropolitan Statistical Area** includes Aiken and Edgefield Counties of South Carolina; Burke, Columbia, McDuffie, and Richmond Counties of Georgia.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/southeast. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request . Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Augusta-Richmond County Metropolitan Statistical Area, May 2016

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Healthcare practitioners and technical occupations	18,860	1.5	\$35.14	\$73,080
Chiropractors	70	1.4	33.81	70,320
Dentists, general	(5)	(5)	92.27	191,930
Dietitians and nutritionists	120	1.3	23.40	48,670
Optometrists	60	1.2	53.11	110,470
Pharmacists	530	1.2	56.51	117,550
Family and general practitioners	260	1.4	114.00	237,120
Internists, general	40	0.5	90.84	188,960
Surgeons	100	1.5	(6)	(6)
Physicians and surgeons, all other	1,030	2.0	72.14	150,050
Physician assistants	250	1.6	39.71	82,590
Occupational therapists	160	0.9	37.30	77,590
Physical therapists	400	1.2	38.37	79,800
Radiation therapists	60	2.3	36.21	75,310
Recreational therapists	70	2.5	19.32	40,180
Respiratory therapists	310	1.6	26.74	55,630
Speech-language pathologists	160	0.8	33.71	70,120
Veterinarians	160	1.6	38.85	80,810
Registered nurses	6,700	1.5	32.77	68,170
Nurse anesthetists	30	0.5	79.43	165,210
Nurse practitioners	260	1.1	46.90	97,550
Audiologists	40	2.2	35.43	73,690
Medical and clinical laboratory technologists	370	1.4	26.82	55,790
Medical and clinical laboratory technicians	400	1.6	17.65	36,710
Dental hygienists	320	1.0	28.28	58,810
Cardiovascular technologists and technicians	160	1.9	25.19	52,400
Diagnostic medical sonographers	80	0.8	31.54	65,600
Nuclear medicine technologists	40	1.2	28.65	59,590
Radiologic technologists	440	1.5	25.65	53,350
Magnetic resonance imaging technologists	50	0.9	28.48	59,240
Emergency medical technicians and paramedics	570	1.5	16.83	35,000
Pharmacy technicians	770	1.3	14.42	29,990
Surgical technologists	290	1.8	19.78	41,140
Veterinary technologists and technicians	230	1.5	14.81	30,800
Ophthalmic medical technicians	50	0.7	15.23	31,670
Licensed practical and licensed vocational nurses	1,780	1.7	19.46	40,480
Medical records and health information technicians	310	1.0	19.96	41,530
Opticians, dispensing	100	0.9	15.39	32,020
Health technologists and technicians, all other	330	1.8	19.58	40,720
Occupational health and safety specialists	(5)	(5)	31.66	65,850
Occupational health and safety technicians	(5)	(5)	28.94	60,200
Athletic trainers	30	0.9	(7)	41,460
Healthcare practitioners and technical workers, all other	60	1.2	25.62	53,280

Footnotes:

(1) For a complete listing of all detailed occupations in the Augusta-Richmond County, GA-SC Metropolitan Statistical Area, see www.bls.gov/oes/current/oes_12260.htm

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.

(6) This wage is equal to or greater than \$100.00 per hour or \$208,000 per year.

(7) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.
