Occupational Employment and Wages in Greenville-Anderson-Mauldin — May 2020

Workers in the Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area had an average (mean) hourly wage of \$22.64 in May 2020, about 16 percent below the nationwide average of \$27.07, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Janet S. Rankin noted that, after testing for statistical significance, 21 of the 22 major occupational groups had average wages in the local area that were significantly lower than their respective national averages, including computer and mathematical, construction and extraction, and management.

When compared to the nationwide distribution, Greenville area employment was more highly concentrated in 4 of the 22 occupational groups, including production and sales and related. Eleven groups had employment shares significantly below their national representation, including business and financial operations, computer and mathematical, and management. (See [table A](#).)

Table A. Occupational employment and wages by major occupational group, United States and the Greenville metropolitan area, and measures of statistical significance, May 2020

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Greenville	United States	Greenville	Percent difference ⁽¹⁾
Total, all occupations	100.0	100.0	\$27.07	\$22.64*	-16
Management	5.7	4.7*	60.81	52.53*	-14
Business and financial operations	6.0	4.0*	38.79	35.21*	-9
Computer and mathematical	3.3	2.2*	46.53	36.30*	-22
Architecture and engineering	1.8	2.5*	43.41	39.30*	-9
Life, physical, and social science	0.9	0.4*	38.15	32.32*	-15
Community and social service	1.6	1.1*	25.09	21.70*	-14
Legal	0.8	0.6*	54.00	40.12*	-26
Educational instruction and library	6.1	5.8	28.75	23.49*	-18
Arts, design, entertainment, sports, and media	1.3	1.1*	30.96	25.88*	-16
Healthcare practitioners and technical	6.2	6.2	41.30	37.26*	-10
Healthcare support	4.6	3.7*	15.50	13.88*	-10
Protective service	2.4	1.6*	25.11	18.06*	-28
Food preparation and serving related	8.1	9.1*	13.30	11.08*	-17
Building and grounds cleaning and maintenance	2.9	3.0	15.75	13.11*	-17
Personal care and service	1.9	1.8	15.68	13.72*	-13
Sales and related	9.4	10.4*	22.00	20.23*	-8
Office and administrative support	13.3	13.4	20.38	18.43*	-10
Farming, fishing, and forestry	0.3	0.1*	16.02	16.31	2
Construction and extraction	4.3	3.8*	25.93	21.46*	-17
Installation, maintenance, and repair	3.9	4.2	25.17	22.80*	-9
Production	6.1	11.3*	20.08	19.10*	-5

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Greenville metropolitan area, and measures of statistical significance, May 2020 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Greenville	United States	Greenville	Percent difference ⁽¹⁾
Transportation and material moving	8.7	9.3	19.08	16.30*	-15

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

* The mean hourly wage or percent share of employment is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—production—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Greenville had 44,160 jobs in production occupations, accounting for 11.3 percent of local area employment, significantly higher than the 6.1-percent national share. The local average hourly wage for this occupational group was \$19.10, significantly lower than the national average of \$20.08.

Some of the larger detailed occupations within the production group included miscellaneous assemblers and fabricators (12,050); machinists (4,340); and inspectors, testers, sorters, samplers, and weighers (3,680). Among the higher-paying jobs in this group were first-line supervisors of production and operating workers and also metal and plastic rolling machine setters, operators, and tenders, with mean hourly wages of \$32.44 and \$26.46, respectively. At the lower end of the wage scale were laundry and dry-cleaning workers (\$11.92) and food batchmakers (\$11.96). (Detailed data for the production occupations are presented in [table 1](#); for a complete listing of detailed occupations, go to www.bls.gov/oes/current/oes_24860.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Greenville area, above-average concentrations of employment were found in many of the occupations within the production group. For instance, textile knitting and weaving machine setters, operators, and tenders were employed at 11.5 times the national rate in Greenville, and machinists, at 4.3 times the U.S. average. Packaging and filling machine operators and tenders had a location quotient of 1.0 in Greenville, indicating that this particular occupation's local and national employment shares were similar.

These statistics are from the Occupational Employment and Wage Statistics (OEWS) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the South Carolina Department of Employment and Workforce.

Occupational Employment and Wage Statistics (OEWS) Name Change

The Occupational Employment Statistics (OES) program has changed its name to Occupational Employment and Wage Statistics (OEWS) to better reflect the range of data available from the program. Data released on or after March 31, 2021, will reflect the new program name. Webpages, publications, and other materials associated with previous data releases will retain the Occupational Employment Statistics name.

Coronavirus (COVID-19) Impact on May 2020 Occupational Employment and Wage Statistics

Due to features of the OEWS methodology, the May 2020 OEWS estimates do not fully reflect the impact of the COVID-19 pandemic. The May 2020 OEWS estimates are based on survey panels collected for May 2020, November 2019, May 2019, November 2018, May 2018, and November 2017. Because 5 of the 6 survey panels used to produce the estimates date from before the COVID-19 pandemic, only the most recent (May 2020) survey panel reflects changes in occupational proportions related to the COVID-19 pandemic.

The May 2020 OEWS employment estimates are benchmarked to the average of May 2020 and November 2019 employment from the Quarterly Census of Employment and Wages (QCEW). Although the May 2020 QCEW data reflect the early employment effects of the COVID-19 pandemic, the November 2019 QCEW employment data precede the pandemic, and therefore do not reflect its impact.

In addition, as a result of the pandemic, response rates for the November 2019 and May 2020 panels were lower in some areas. Lower response rates may negatively affect data availability and data quality.

More information is available at www.bls.gov/covid19/effects-of-covid-19-pandemic-on-occupational-employment-and-wage-statistics.htm.

Implementing the 2018 Standard Occupational Classification (SOC) System

With the May 2019 estimates, the OEWS program began implementing the 2018 Standard Occupational Classification (SOC) system. Because the May 2019 and May 2020 estimates are based on a combination of survey data collected using the 2010 SOC and survey data collected using the 2018 SOC, these estimates use a hybrid of the two classification systems that contains some combinations of occupations that are not found in either the 2010 or 2018 SOC. This is the second and final year that the hybrid occupational structure will be used. The May 2021 estimates, to be published in Spring 2022, will be the first OEWS estimates based entirely on survey data collected using the 2018 SOC.

For more information on the occupational classification system used in the May 2019 and May 2020 estimates, please see www.bls.gov/oes/soc_2018.htm and www.bls.gov/oes/oes_ques.htm#qf10.

Upcoming Changes to the Occupational Employment and Wage Statistics Methodology

With the May 2021 estimates, to be released in Spring 2022, the OEWS program plans to begin using a new estimation methodology. The new model-based methodology, called MB3, has advantages over the existing methodology, as described in the Monthly Labor Review article at www.bls.gov/opub/mlr/2019/article/model-based-estimates-for-the-occupational-employment-statistics-program.htm. OEWS estimates for the years 2015-2018 were recalculated using the new estimation methodology and are available as research estimates at www.bls.gov/oes/oes-mb3-methods.htm.

Technical Note

The Occupational Employment and Wage Statistics (OEWS) survey is a semiannual survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OEWS data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 580 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-digit, most 4-digit, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OEWS data are available at www.bls.gov/oes/tables.htm.

The OEWS survey is a cooperative effort between BLS and the State Workforce Agencies (SWAs). BLS funds the survey and provides the procedures and technical support, while the State Workforce Agencies collect most of the data. OEWS estimates are constructed from a sample of about 1.1 million establishments. Each year, two semiannual panels of approximately 180,000 to 185,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2020 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2020, November 2019, May 2019, November 2018, May 2018, and November 2017. The unweighted sample employment of 83 million across all six semiannual panels represents approximately 56 percent of total national employment. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 69 percent based on establishments and 66 percent based on weighted sampled employment. The sample in the Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area included 2,871 establishments with a response rate of 62 percent. For more information about OEWS concepts and methodology, go to www.bls.gov/oes/current/oes_tec.htm.

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area** includes Anderson, Greenville, Laurens, and Pickens Counties.

For more information

Answers to frequently asked questions about the OEWS data are available at www.bls.gov/oes/oes_ques.htm. Detailed information about the OEWS program is available at www.bls.gov/oes/oes_doc.htm.

Information in this release will be made available to individuals with sensory impairments upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data for production occupations, Greenville metropolitan area, May 2020

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Production occupations	44,160	1.8	\$19.10	\$39,740
First-line supervisors of production and operating workers	2,810	1.7	32.44	67,470
Electrical, electronic, and electromechanical assemblers, except coil winders, tapers, and finishers ...	860	1.1	17.72	36,860
Engine and other machine assemblers	(5)	(5)	22.79	47,410
Structural metal fabricators and fitters	240	1.2	17.52	36,440
Miscellaneous assemblers and fabricators	12,050	3.4	17.25	35,880
Bakers	420	0.9	13.80	28,690
Butchers and meat cutters	690	1.7	17.29	35,950
Meat, poultry, and fish cutters and trimmers	(5)	(5)	17.80	37,030
Food batchmakers	490	1.1	11.96	24,880
Rolling machine setters, operators, and tenders, metal and plastic	40	0.4	26.46	55,040
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	420	0.8	16.95	35,250
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	190	1.0	19.19	39,920
Machinists	4,340	4.3	20.34	42,300
Molding, coremaking, and casting machine setters, operators, and tenders, metal and plastic	1,270	2.9	15.18	31,580
Multiple machine tool setters, operators, and tenders, metal and plastic	570	1.5	21.67	45,070
Tool and die makers	270	1.6	24.02	49,970
Welders, cutters, solderers, and brazers	1,670	1.5	21.53	44,780
Welding, soldering, and brazing machine setters, operators, and tenders	(5)	(5)	18.09	37,630
Heat treating equipment setters, operators, and tenders, metal and plastic	90	1.9	20.85	43,360
Plating machine setters, operators, and tenders, metal and plastic	230	2.2	17.89	37,220
Prepress technicians and workers	100	1.3	22.75	47,320
Printing press operators	590	1.3	19.58	40,730
Laundry and dry-cleaning workers	350	0.7	11.92	24,790
Pressers, textile, garment, and related materials	170	1.9	12.46	25,930
Sewing machine operators	630	1.9	14.00	29,130
Tailors, dressmakers, and custom sewers	(5)	(5)	12.61	26,230
Textile bleaching and dyeing machine operators and tenders	250	12.5	14.26	29,650
Textile cutting machine setters, operators, and tenders ..	150	4.1	15.05	31,300
Textile knitting and weaving machine setters, operators, and tenders	610	11.5	13.63	28,350
Textile winding, twisting, and drawing out machine setters, operators, and tenders	300	4.1	15.10	31,420
Extruding and forming machine setters, operators, and tenders, synthetic and glass fibers	520	11.8	18.55	38,590
Cabinetmakers and bench carpenters	320	1.2	18.67	38,820
Sawing machine setters, operators, and tenders, wood .	90	0.6	15.65	32,540
Woodworking machine setters, operators, and tenders, except sawing	100	0.5	15.76	32,780
Power plant operators	60	0.7	25.18	52,370
Water and wastewater treatment plant and system operators	410	1.2	20.08	41,770
Chemical plant and system operators	90	1.0	(5)	(5)
Gas plant operators	70	1.6	25.08	52,160
Chemical equipment operators and tenders	280	1.1	23.17	48,190
Separating, filtering, clarifying, precipitating, and still machine setters, operators, and tenders	90	0.7	17.74	36,900
Crushing, grinding, and polishing machine setters, operators, and tenders	200	2.2	13.42	27,920

Note: See footnotes at end of table.

Table 1. Employment and wage data for production occupations, Greenville metropolitan area, May 2020 - Continued

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Mixing and blending machine setters, operators, and tenders	1,040	3.2	21.50	44,720
Cutting and slicing machine setters, operators, and tenders	250	1.7	17.04	35,430
Extruding, forming, pressing, and compacting machine setters, operators, and tenders	400	2.2	19.53	40,610
Furnace, kiln, oven, drier, and kettle operators and tenders	80	1.7	19.62	40,820
Inspectors, testers, sorters, samplers, and weighers	3,680	2.4	19.07	39,670
Medical appliance technicians	(5)	(5)	13.11	27,270
Ophthalmic laboratory technicians	(5)	(5)	16.36	34,040
Packaging and filling machine operators and tenders	1,080	1.0	17.51	36,420
Coating, painting, and spraying machine setters, operators, and tenders	660	1.7	17.30	35,990
Computer numerically controlled tool operators	410	1.0	19.16	39,850
Computer numerically controlled tool programmers	70	1.0	21.77	45,280
Cleaning, washing, and metal pickling equipment operators and tenders	60	1.5	13.81	28,730
Molders, shapers, and casters, except metal and plastic	220	1.9	18.54	38,570
Paper goods machine setters, operators, and tenders ...	420	1.5	20.14	41,890
Helpers--production workers	1,320	2.0	15.40	32,020
Production workers, all other	420	0.8	20.27	42,160

Footnotes:

(1) For a complete listing of all detailed occupations in the Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area, see www.bls.gov/oes/current/oes_24860.htm

(2) Estimates for detailed occupations may not sum to the totals due to rounding, and because the totals may include occupations that are not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.
