## **Consumer Price Index, San Francisco Area — June 2018**

**Area prices were up 0.9 percent over the past two months, up 3.9 percent from a year ago**

Prices in the San Francisco area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), increased 0.9 percent for the two months ending in June 2018, the U.S. Bureau of Labor Statistics reported today. (See [table A](#).) Assistant Commissioner for Regional Operations Richard Holden noted that the June increase was influenced by higher prices for shelter and gasoline. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

Over the last 12 months, the CPI-U increased 3.9 percent. (See [chart 1](#) and [table A](#).) Energy prices jumped 11.6 percent, largely the result of an increase in the price of gasoline. The index for all items less food and energy advanced 3.7 percent over the year. (See [table 1](#).)

**Chart 1. Over-the-year percent change in CPI-U, San Francisco-Oakland-Hayward, CA, June 2015–June 2018**

Source: U.S. Bureau of Labor Statistics.

## Food

Food prices advanced 0.3 percent for the two months ending in June. (See [table 1.](#)) Prices for food away from home moved up 0.4 percent, and prices for food at home rose 0.2 percent for the same period.

Over the year, food prices increased 2.5 percent. Prices for food away from home advanced 3.9 percent since a year ago, and prices for food at home increased 1.0 percent.

## Energy

The energy index increased 2.9 percent for the two months ending in June. The increase was mainly due to higher prices for gasoline (4.7 percent). Prices for electricity advanced 2.7 percent, but prices for natural gas service decreased 8.1 percent for the same period.

Energy prices jumped 11.6 percent over the year, largely due to higher prices for gasoline (22.1 percent). Prices paid for electricity advanced 0.3 percent, but prices for natural gas service declined 7.3 percent during the past year.

## All items less food and energy

The index for all items less food and energy increased 0.9 percent in the latest two-month period. Higher prices for other goods and services (3.2 percent), medical care (1.5 percent), and shelter (1.2 percent) were partially offset by lower prices for apparel (-6.1 percent) and household furnishings and operations (-0.5 percent).

Over the year, the index for all items less food and energy advanced 3.7 percent. Components contributing to the increase included other goods and services (6.0 percent), shelter (4.8 percent), and medical care (3.7 percent). Partly offsetting the increases was a price decline in apparel (-7.8 percent).

**Table A. San Francisco-Oakland-San Jose CPI-U bi-monthly and annual percent changes (not seasonally adjusted)**

**The August 2018 Consumer Price Index for the San Francisco-Oakland-Hayward area is scheduled to be released on September 13, 2018.**

### Consumer Price Index Geographic Revision for 2018

In January 2018, BLS introduced a new geographic area sample for the Consumer Price Index (CPI). As part of the new sample, the index for this area was renamed. Additional information on the geographic revision is available at: [www.bls.gov/cpi/additional-resources/geographic-revision-2018.htm](http://www.bls.gov/cpi/additional-resources/geographic-revision-2018.htm).

## Technical Note

The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Bureau of Labor Statistics publishes CPIs for two population groups: (1) a CPI for All Urban Consumers (CPI-U) which covers approximately 94 percent of the total population and (2) a CPI for Urban Wage Earners and Clerical Workers (CPI-W) which covers 28 percent of the total population. The CPI-U includes, in addition to wage earners and clerical workers, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPI is based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and the other goods and services that people buy for day-to-day living. Each month, prices are collected in 75 urban areas across the country from about 5,000 housing units and approximately 22,000 retail establishments--department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index.

The index measures price changes from a designated reference date (1982-84) that equals 100.0. An increase of 16.5 percent, for example, is shown as 116.5. This change can also be expressed in dollars as follows: the price of a base period "market basket" of goods and services in the CPI has risen from \$10 in 1982-84 to \$11.65. For further details see the CPI home page on the Internet at [www.bls.gov/cpi](http://www.bls.gov/cpi) and the BLS Handbook of Methods, Chapter 17, The Consumer Price Index, available on the Internet at [www.bls.gov/opub/hom/homch17\\_a.htm](http://www.bls.gov/opub/hom/homch17_a.htm).

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. Because the sample size of a local area is smaller, the local area index is subject to substantially more sampling and other measurement error than the national index. In addition, local indexes are not adjusted for seasonal influences. As a result, local area indexes show greater volatility than the national index, although their long-term trends are quite similar. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.**

The San Francisco-Oakland-Hayward, CA. metropolitan area covered in this release is comprised of Alameda, Contra Costa, Marin, San Francisco, San Mateo Counties in the State of California.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.
