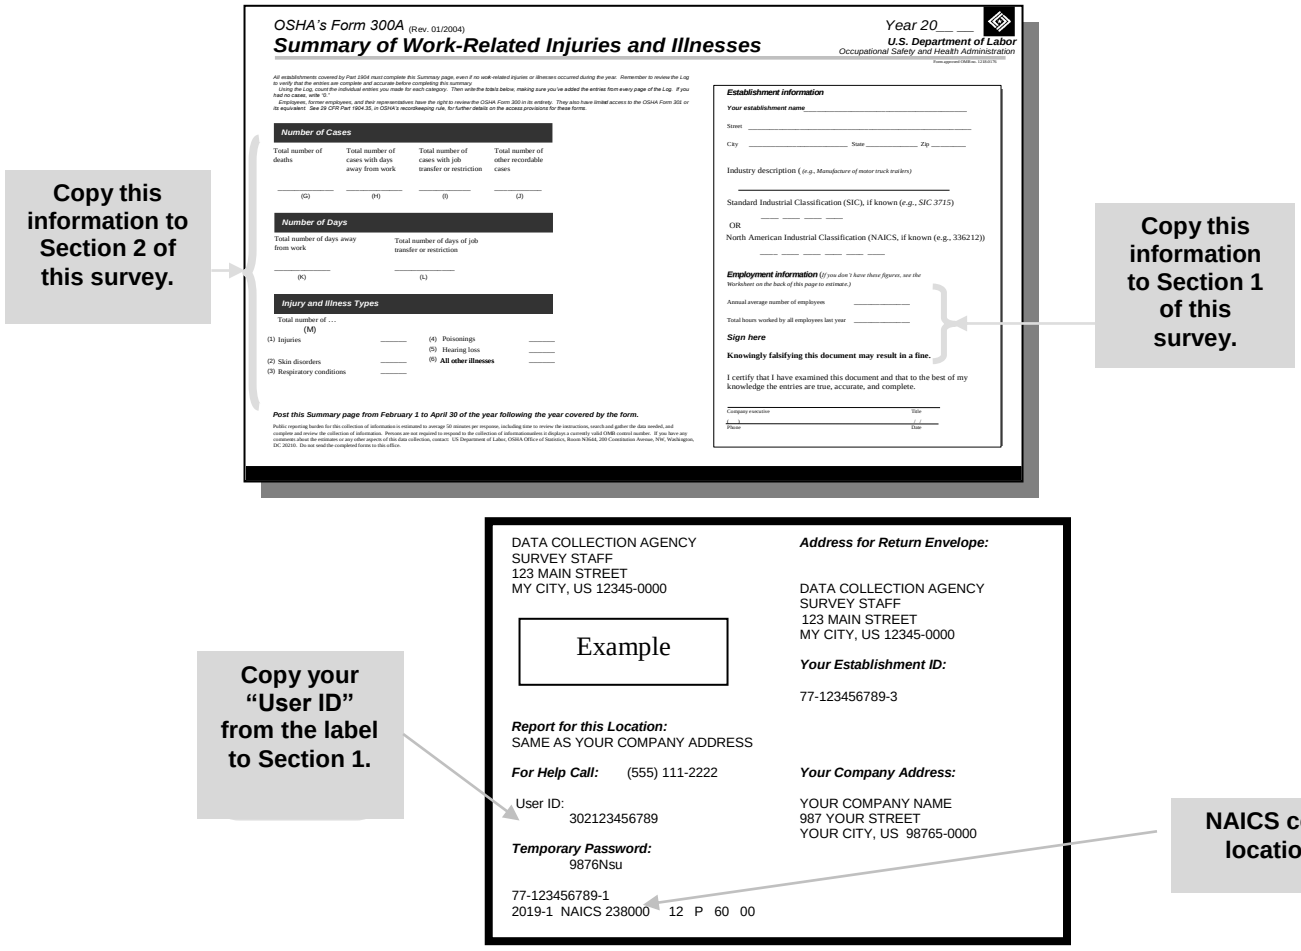
Steps to Complete this Survey

This survey requires employers to provide information about work-related injuries and illnesses based upon the information you have maintained for Calendar Year 2019 on your Occupational Safety and Health Administration (OSHA) *Forms for Recording Work-Related Injuries and Illnesses*. Copies of these forms were sent to you in late 2018. Under Public Law 91-596, all establishments that receive this **mandatory** survey must complete and return it within 30 days, even if they had **no** work-related injuries and illnesses during 2019. The instructions below outline the steps to complete the survey regardless of whether your establishment did or did not have injuries or illnesses in 2019.

Step 1: Complete this survey only for the establishment(s) noted on the front cover under "**Report for this Location**." If you are unsure, please call the number(s) listed on the front of this form in the "**For Help Call:**" section.

Step 2: Check "**Your Company Address**" printed on the front cover. Make any necessary corrections directly on the front cover.

Step 3: Refer to your establishment's OSHA *Forms for Recording Work-Related Injuries and Illnesses*. Copies of these forms were sent to you in late 2018. Form 300A from that mailing is shown immediately below.



- If you had **no** work-related injuries or illnesses in 2019, answer all questions in Sections 1 and 4 of the survey.
- If you had at least one work-related injury or illness in 2019, answer all questions in Sections 1, 2 and 4 of the survey.
- Report cases with ***Days Away From Work*** (with or without days of job transfer or restriction) in Section 3.
- Report cases with ***Job Transfer or Restriction*** (without days away from work) in Section 3 if you are reporting for a <u>private industry</u> establishment whose six-digit **NAICS code begins with these numbers: 111, 336, 445, 484, 713, or 722** (see mailing label example for NAICS code location).

Step 4: In case we have questions, write the name of the person who completed this survey in Section 4: Contact Information, on the last page of this survey.

Step 5: Return this survey and any attachments in the enclosed envelope within 30 days of the date your establishment received it.

Steps to estimate annual average number of employees for 2019:

Step 1:
To calculate the annual average number of employees your establishment paid during 2019, you must calculate the total number of employees your establishment paid for all periods. Add the number of employees your establishment paid in every pay period during Calendar Year 2019. Count all employees that you paid at any time during the year and include full-time, part-time, temporary, seasonal, salaried, and hourly workers. Note that pay periods could be monthly, weekly, bi-weekly, etc.

Example:
Acme Construction paid its employees in 12 pay periods during 2019:

Pay Period	Number of Employees Paid Per Pay Period
1	30
2	0
3	35
4	37
5	37
6	40
7	43
8	42
9	37
10	35
11	30
12	+26
	392 (total number of employees paid over all pay periods)

Step 2:
Divide the total number of employees (from Step 1) by the number of pay periods your establishment had in 2019. Be sure to count any pay periods when you had no (zero) employees.

Example:
Acme Construction had 12 pay periods and paid a total of 392 employees during these pay periods.

392 divided by 12 = 32.67

Step 3:
Round the answer you computed in Step 2 to the next highest whole number. Write that number in the box for Section 1, Question 2 on the previous page.

Example:
Acme would round 32.67 to 33.

Steps to estimate total hours worked by all employees for 2019:

Step 1:
Determine the number of full-time employees at your establishment.

Example:
Of Acme's 33 employees in 2019, 28 were full-time.

Step 2:
Determine the number of hours generally worked by a full-time employee for a year. Multiply the number of full-time employees you calculated in Step 1 by this number. This total number of full-time hours worked should exclude vacation, sick leave, holidays, and any other non-work time.

Example:
Each of Acme's 28 full-time employees worked an average of 2,000 hours per year after excluding vacation, sick leave, holidays, and other non-work time. This works out to 40 hours per week for 50 weeks of the year.

28	full-time employees
X 2,000	hours per year
56,000	total full-time hours

Step 3:
Determine the number of hours of overtime worked by your full-time employees.

Determine the number of regular hours worked by your non-full-time employees. (Non-full-time employees include part-time, seasonal, and temporary employees.)

Add these numbers to the number you calculated in Step 2 above. This is the estimated number of hours worked by all of your employees, full-time and non-full-time, during 2019. Write this number in Section 1, Question 3 on the previous page.

Example:
Acme's 28 full-time employees worked a total of 2,800 hours of overtime during 2019 and 56,000 regular hours. Acme's 5 part-time employees worked a total of 2,716 hours during 2019.

56,000	full-time hours from Step 2
2,800	over time hours
+ 2,716	part-time hours
61,516	total hours worked

Section 3: Reporting Cases

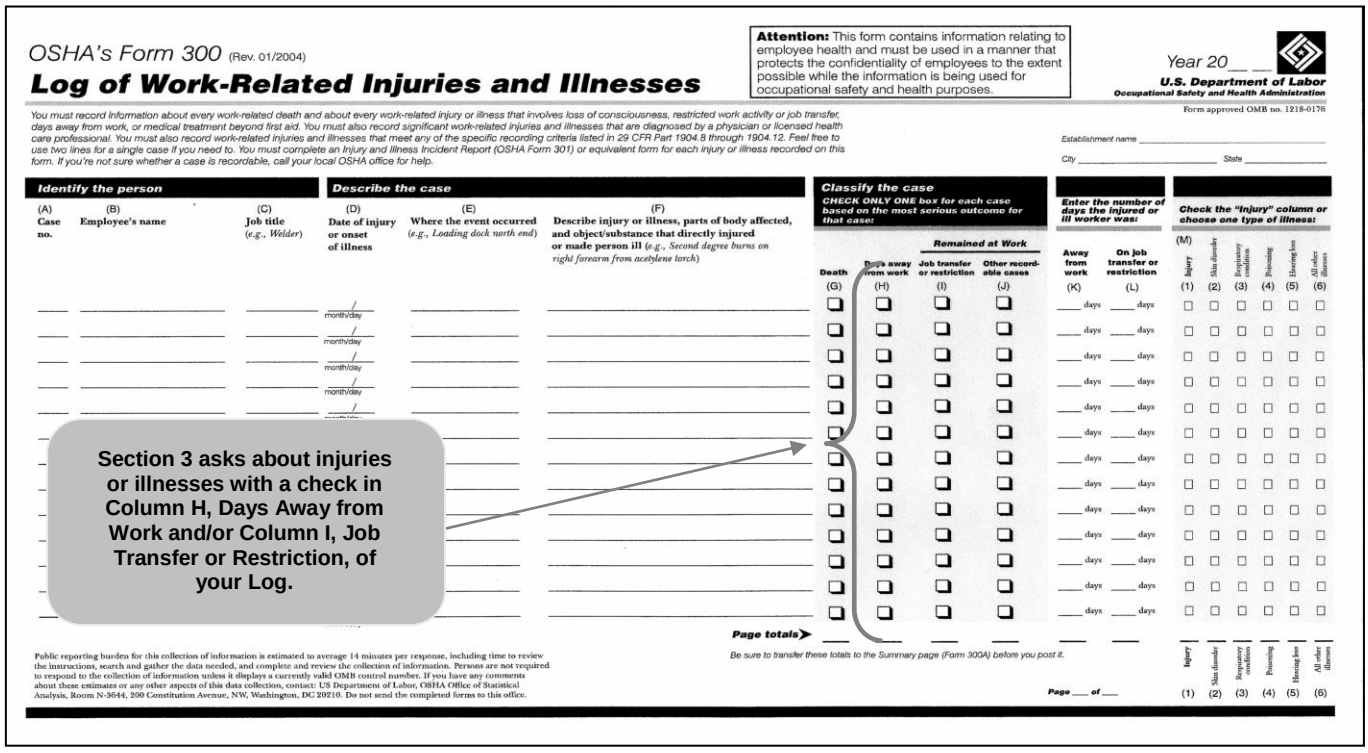
Instructions:

1. If you had **NO** cases with days away from work (Column H) and **NO** cases with days of job transfer or restriction (Column I), please proceed to Section 4: Contact Information.
2. If you had cases with days away from work (Column H) and/or cases with days of job transfer or restriction only (Column I), please complete Section 3. You should report all cases with days away from work (with or without job transfer or restriction). If you are reporting for a <u>private industry</u> establishment whose six-digit **NAICS code begins with: 111, 336, 445, 484, 713, or 722**, you should also report all cases with days of job transfer or restriction (without days away from work). Your NAICS code is located on the mailing label on the front of this booklet. To identify the individual cases to report, follow these steps:

Step 1: Go to your completed OSHA Form 300.
Note each case that has a check in Column (H) and/or Column (I).
These are the only cases you should report.
See the illustration in Step 3 below.

Step 2: Fill out one Injury and Illness Case Form for each case that you identified in Step 1. You can find most of the information on a supplementary document such as the *Injury and Illness Incident Report* (OSHA Form 301), a workers' compensation report, an accident report, or an insurance form.

Step 3: If more than one establishment is noted on the front cover under "**Report for this Location**," be sure to look at all your OSHA Form 300's to find which cases to report.



Step 4: We have designed this survey to ensure that you do not have to report more than approximately 16 cases. If you have significantly more than 16 cases, please go to Section 5: If You Need Help . . . at the back of this booklet and call the phone number(s) listed for your State for assistance. If you need additional Injury and Illness Case Forms, you may either photocopy a blank form or go to Section 5: If You Need Help . . . at the back of this booklet and call the phone number(s) listed for your State.

Step 5: When you are finished, proceed to Section 4: Contact Information on the back cover of this booklet and provide information for the person who completed this survey.
