Thank you for participating in the **International Price Program (IPP)**. You will provide data online using the BLS Internet Data Collection Facility (IDCF). This handout is intended to assist you in providing your data over the internet. Be sure to log on after you receive the price request emails and verify your data, even if the price has not changed.

**Important Points to Know Before Submitting Prices to IPP**

- For your convenience, your permanent account number will be included in the notification email sent to you prior to each month you agreed to submit prices. To log on to IDCF, you can use the account number or your email address.

- If you do not have all the necessary item and pricing information needed, you can submit partial information and return to the system later to finish.

- You can navigate forward and backward through the survey by clicking the Continue button or the numbered bubbles at the top of the screen.

- You can click on any field label to get field-specific help.

  - Type the current price in the **Please Provide Price For** box. Do not include commas or other special characters, such as $. If the new price exceeds the old by a predetermined percentage, you will be taken to the Review Large Price Changes screen, where you will be asked to verify the new price.
  - If the price did not change since the item was last reported, click the **Same Price** check box. If none of the items’ prices changed, click the box at the top of the column.
  - If the item was not traded since the last time prices were submitted, click the **Not Traded** check box.

To update discount or surcharge information that was previously provided, click **Edit Price Adjustments** for the item in the **Please Provide Price For** column. This will take you to the Edit Price Adjustments screen, where you can update, add, or delete a discount or surcharge for the item.

  - If you can provide a comparable replacement item, select **Yes** and click **Submit**. This will take you to the Replace Item screen, where you can enter information for the new item. The specifications of the discontinued item will be displayed in the fields to help you provide a comparable item.

- To change an item’s description, click inside the Item Description box and make any updates.

- To review or update all of an item’s information, and to add any information not on the Submit Item Prices screen, click **Review More Item Price Factors**. This will take you to the More Item Price Factors screen.
