

Dear Doctor:

**Please help our friends at the U.S. Bureau of Labor Statistics (BLS) collect reliable data on the dental sector.**

On behalf of the American Dental Association (ADA), I encourage you to support the collection of reliable data by the BLS. Please complete the surveys they send you. The data are critical to the research and advocacy efforts of various health care organizations, including the ADA.

The ADA Health Policy Institute, in particular, routinely incorporates BLS data in its tracking of the U.S. dental economy and the data help the ADA advocate for dentists and the public we serve. Without you, there is no data! So please help the dental profession by participating in their survey.

Sincerely,

A handwritten signature in black ink, appearing to read "Brett H. Kessler DDS", with a stylized flourish at the end.

Dr. Brett H. Kessler, DDS  
President, American Dental Association
