¹ Mining and logging is combined with construction.

² Data not available.

³ For operational reasons, these interstate areas are listed under the state that accounts for the larger share of the population, which is different from the state that contains the first principal city.

⁴ Area boundaries do not reflect official OMB definitions.

State and area data are currently estimated from 2022 benchmark levels. When more recent benchmark data are introduced with the release of January 2024 estimates, unadjusted data from April 2022 are subject to revision. Area delineations are based on Office of Management and Budget Bulletin No. 18-03, dated April 10, 2018, and are available on the BLS website at <https://www.bls.gov/lau/lausmsa.htm>. Areas in the six New England states are Metropolitan New England City and Town Areas (NECTAs), while areas in other states are county-based. Some metropolitan areas lie in two or more states. They are listed under the state containing the first principal city, unless otherwise footnoted.

¹ Data not available.

² For operational reasons, these interstate areas are listed under the state that accounts for the larger share of the population, which is different from the state that contains the first principal city.

³ Area boundaries do not reflect official OMB definitions.

State and area data are currently estimated from 2022 benchmark levels. When more recent benchmark data are introduced with the release of January 2024 estimates, unadjusted data from April 2022 are subject to revision. Area delineations are based on Office of Management and Budget Bulletin No. 18-03, dated April 10, 2018, and are available on the BLS website at <https://www.bls.gov/lau/lausmsa.htm>. Areas in the six New England states are Metropolitan New England City and Town Areas (NECTAs), while areas in other states are county-based. Some metropolitan areas lie in two or more states. They are listed under the state containing the first principal city, unless otherwise footnoted.

¹ Data not available.

² For operational reasons, these interstate areas are listed under the state that accounts for the larger share of the population, which is different from the state that contains the first principal city.

³ Area boundaries do not reflect official OMB definitions.

State and area data are currently estimated from 2022 benchmark levels. When more recent benchmark data are introduced with the release of January 2024 estimates, unadjusted data from April 2022 are subject to revision. Area delineations are based on Office of Management and Budget Bulletin No. 18-03, dated April 10, 2018, and are available on the BLS website at <https://www.bls.gov/lau/lausmsa.htm>. Areas in the six New England states are Metropolitan New England City and Town Areas (NECTAs), while areas in other states are county-based. Some metropolitan areas lie in two or more states. They are listed under the state containing the first principal city, unless otherwise footnoted.

¹ Data not available.

² For operational reasons, these interstate areas are listed under the state that accounts for the larger share of the population, which is different from the state that contains the first principal city.

³ Area boundaries do not reflect official OMB definitions.

State and area data are currently estimated from 2022 benchmark levels. When more recent benchmark data are introduced with the release of January 2024 estimates, unadjusted data from April 2022 are subject to revision. Area delineations are based on Office of Management and Budget Bulletin No. 18-03, dated April 10, 2018, and are available on the BLS website at <https://www.bls.gov/lau/lausmsa.htm>. Areas in the six New England states are Metropolitan New England City and Town Areas (NECTAs), while areas in other states are county-based. Some metropolitan areas lie in two or more states. They are listed under the state containing the first principal city, unless otherwise footnoted.
