

Changes between 2003 - 2016 Data Files:

American Time Use Survey (ATUS)

July 2017

The American Time Use Survey (ATUS) is sponsored by the Bureau of Labor Statistics and conducted by the U.S. Census Bureau.

Changes between 2003 - 2016 ATUS Data Files

Changes to survey design, sampling, weighting, variable definitions, imputation, and other methodology can have serious implications for interpretation of results. The purpose of this document is to detail any such changes made to ATUS survey methods and data files from 2003 to 2016. Only years for which changes were made are listed.

1. Sample Reduction

2004: The monthly sample was reduced by 35 percent beginning with the sample introduced in December 2003. Because of the reduction, there were fewer completed interviews in the years after 2003 than there were in 2003. For example, there were 13,973 completed interviews in 2004 compared to 20,720 interviews in 2003. Since the sample reduction was introduced in December 2003, the first few months in 2004 have a greater number of completed interviews than later months.

2005: There was no sample reduction between 2004 and 2005, but 2004 had a greater number of completed interviews in the first few months of 2004 than in 2005 because of the sample reduction introduced in December 2003. The 2005 completed interviews are more evenly distributed across months.

For more information, see the ATUS User's Guide (www.bls.gov/tus/atususersguide.pdf).

2. Questionnaire Changes

2004: Minor changes to survey questions were introduced in ATUS in October 2003. More detailed secondary childcare questions were asked about own household children, own nonhousehold children, and non-own household children. Also, a new question about eating was introduced. Respondents who did not report eating or drinking on their diary day are asked, "Did you do any eating or drinking yesterday as your main activity?"

2006: A five-minute Eating & Health (EH) module was introduced in January 2006. This module included questions related to eating, meal preparation, and health, all of which were asked after completion of the ATUS questions. This module was fielded from 2006-2008. For more information, see the ATUS Eating & Health Module Questionnaire (www.bls.gov/tus/ehmquestionnaire.pdf).

2009: No modules were conducted in 2009.

2010: Minor changes to survey questions were introduced in ATUS in January 2010; new options were added to the question which asks who the respondent was with while he or she was doing the activity. The ATUS also began collecting this information for times when respondents reported they had been working. For more information, see the 2010 ATUS Interview Data Dictionary: www.bls.gov/tus/atusintcodebk10.pdf.

A five-minute Well-being (WB) module was introduced in January 2010. This module used the ATUS diary to capture how people felt during selected activities. Respondents also were asked a few questions about their general health. This module was fielded through December 2010. For more information, see the ATUS Well-being Questionnaire (www.bls.gov/tus/wbmquestionnaire.pdf).

2011: Eldercare questions were introduced in ATUS in January 2011. The ATUS eldercare questions were designed specifically to identify eldercare providers and collect information about the time they spent providing eldercare, the relationship between the care provider and care recipient, whether the recipient and caregiver live in the same household, the duration of care for the care recipient, and the age of the care recipient. The eldercare

questions replaced the trips questions. For more information, see the ATUS Questionnaire (www.bls.gov/tus/tuquestionnaire.pdf) and the 2011 ATUS Interview Data Dictionary (www.bls.gov/tus/atusintcodebk11.pdf).

A five-minute Leave (LV) module was introduced in January 2011. This module collected information about workers' access to and use of paid and unpaid leave. The module also included questions about workplace flexibility. The Leave module was fielded through December 2011. For more information, see the ATUS Questionnaire Web page (www.bls.gov/tus/questionnaires.htm).

2012: A five-minute Well-being (WB) module was conducted again in 2012 and 2013. This module used the ATUS diary to capture how people felt during selected activities. Respondents also were asked a few questions about their general health. Starting in 2012, the WB module added two questions about life satisfaction and how typical the diary day was for the respondent. This module was fielded January 2012 through December 2013. For more information, see the ATUS Well-being Questionnaire (www.bls.gov/tus/wbmquestionnaire.pdf).

2013: Minor changes to a survey question were introduced in ATUS in January 2013; new options were added to the eldercare question which asks who the respondent provided care to. For more information, see the ATUS Questionnaire (www.bls.gov/tus/tuquestionnaire.pdf) and the 2013 ATUS Interview Data Dictionary (www.bls.gov/tus/atusintcodebk13.pdf).

2014: A five-minute Eating & Health (EH) module was introduced in January 2014. This module was similar to the 2006-08 EH module and was fielded from January 2014 through December 2016. For more information, see the ATUS Eating & Health Module Questionnaire (www.bls.gov/tus/ehmquestionnaire1416.pdf).

3. Weighting Changes

There were no changes in the method used to generate statistical weights (the variable TUFINLWGT) on the ATUS data files from 2006 to 2016. However, the method used to generate the weighting variable TUFINLWGT on the ATUS files changed each year from 2003 to 2006. Thus, researchers who create multi-year data sets using the single-year data files should not use the weighting variable TUFINLWGT for all years.

Users who combine multiple years of ATUS data must use weights that were generated using comparable methods. TU06FWGT is a weighting variable appearing on the 2003 to 2005 files that was generated using the 2006 weighting method. Users who combine ATUS data for the years 2003 to 2016 should use the variable TU06FWGT to weight the 2003 to 2005 data and the variable TUFINLWGT to weight the 2006 through 2016 data.

The variables TU04FWGT (on the 2003 files) and TUFINLWGT on the 2004 and 2005 files also were generated using comparable weighting methods. Researchers who combine the 2003 to 2005 data files can use this combination of weighting variables or the variable TU06FWGT for all years. (Note that while the method used to generate TUFINLWGT changed from 2004 to 2005, the difference in methods is slight and has little impact on estimates.)

Researchers may prefer to use the ATUS multi-year microdata files. These files combine several years of annual ATUS data. The multi-year data files use the 2006 weighting method for all years, and activity codes that take into account the changes that have occurred over the years. TUFNWGTP is the weighting variable on the multi-year data files and was generated using the 2006 weighting method. For more information about the multi-year data files, please see www.bls.gov/tus/datafiles_my.htm.

For more information, see the ATUS User's Guide (www.bls.gov/tus/atususersguide.pdf).

4. Public Use ATUS Files

Public use ATUS files are released every year. The following table lists the availability of files by year.

	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Basic ATUS data files														
Respondent file	X	X	X	X	X	X	X	X	X	X	X	X	X	X
Roster file	X	X	X	X	X	X	X	X	X	X	X	X	X	X
Activity file	X	X	X	X	X	X	X	X	X	X	X	X	X	X

5. ATUS Coding Lexicon Changes

- 2004:** There are minor differences between the 2003 and 2004 Coding Lexicons. Some activity codes were added and others deleted.
- 2005:** The first-tier code for travel was changed from TUTIER1CODE = 17 to TUTIER1CODE = 18. There were also some minor differences between the 2004 and 2005 Coding Lexicons.
- 2006:** There are minor differences between the 2005 and 2006 Coding Lexicons.
- 2007:** There are minor differences between the 2006 and 2007 Coding Lexicons.
- 2008:** There are minor differences between the 2007 and 2008 Coding Lexicons.
- 2008-10:** There were no changes to the 2008 through 2010 Coding Lexicons.
- 2011:** Some examples were added to the 2011 Coding Lexicons. All activity codes were identical to those from 2008-10.
- 2012:** Some examples were added to the 2012 Coding Lexicons. All activity codes were identical to those from 2008-11.
- 2013:** There are minor differences between the 2012 and 2013 Coding Lexicons.
- 2014:** Some examples were added to the 2014 Coding Lexicons. All activity codes were identical to those from 2013.
- 2015:** Some examples were added to the 2015 Coding Lexicons. All activity codes were identical to those from 2013-14.
- 2016:** Some examples were added to the 2016 Coding Lexicons. All activity codes were identical to those from 2013-15.

For more information, see www.bls.gov/tus/lexiconchanges.pdf.

6. Linking ATUS to CPS

2004: Because of May 2004 changes to the CPS file format, the method used to link ATUS files to CPS files is different for those cases whose final CPS interview occurred after May 2004. For additional details, see the 2004 ATUS-CPS data dictionary (www.bls.gov/tus/atuscpscodebk04.pdf).

Please see Appendix K of the ATUS User's Guide for more detailed information about how to link CPS files to ATUS files (www.bls.gov/tus/atususersguide.pdf).

7. Data Collection System

2005: In April 2005, ATUS migrated to the Census Bureau's new standardized computer system for managing telephone interviews. The case and call outcome codes and the outcome assignment methodology are slightly different between the old and new systems. Thus, 2003 and 2004 case and call outcome codes are different from those used in 2005 to 2016.

For more information, see the 2005 Survey Methodology data dictionary: www.bls.gov/tus/atussmcodebk05.pdf.

PXNMEMP1	PTNMEMP1: allocation flag 2014: This variable was introduced in January 2014 CPS. Therefore cases with [HRYEAR4<2014] will have missing values for PXNMEMP1.	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file
PXNMEMP2	PTNMEMP2: allocation flag 2014: This variable was introduced in January 2014 CPS. Therefore cases with [HRYEAR4<2014] will have missing values for PXNMEMP2.	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file
PXPDEMP1	PEPDEMP1: allocation flag 2014: This variable was introduced in January 2014 CPS. Therefore cases with [HRYEAR4<2014] will have missing values for PEPDEMP1.	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file
PXPDEMP2	PEPDEMP2: allocation flag 2014: This variable was introduced in January 2014 CPS. Therefore cases with [HRYEAR4<2014] will have missing values for PEPDEMP2.	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file
PXDISDRS	PEDISDRS: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISDRS.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
PXDISEAR	PEDISEAR: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISEAR.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
PXDISEYE	PEDISEYE: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISEYE.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
PXDISOUT	PEDISOUT: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISOUT.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
PXDISREM	PEDISREM: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISREM.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
PXDISPHY	PEDISPHY: allocation flag 2008: This variable was introduced in 2008 June CPS. Therefore, cases with [HRYEAR4 < 2008] OR [HRYEAR4 = 2008 AND HRMONTH < 6] will have missing values of PXDISPHY.	Not on file	Not on file	Not on file	Not on file	Not on file	Part missing	On file	On file	On file	On file	On file	On file	On file	On file
