

# Percent of population who were eldercare providers

Total percent of population who were eldercare providers: 16.2%

NOTE: Data include all noninstitutionalized persons age 15 and over. Eldercare providers are those who in the previous 3 to 4 months cared for someone with a condition related to aging. Estimates were calculated for persons who cared for at least one person age 65 or over. Data are annual averages for 2014-15.
